Love your bed

Thank you

Hello, thanks for choosing to purchase your sofa bed from Dreams - you're now on your way to creating a practical and stylish solution for your room. Before you begin building your sofa bed, please take a moment to read through the instructions and make sure that you've got all the relevant parts listed on the following pages.

Assembly tips

Before you begin, it's best to identify all parts and fittings to build your sofa bed. We advise laying these out on the floor to check you have everything, and familiarising yourself before building.

Top tip

We recommend that you build your new sofa bed in the room you'd like it to be located - this will help prevent any risk of damage to your newly built sofa bed whilst moving it.

Safety and care

It's really important to ensure children and animals are kept away from the assembly area, as there are small components used in this bed which could present a choking hazard. All plastic and wrapping materials should also be kept away from children and animals to prevent any risk of suffocation. To keep your little ones busy, there is a colouring page inside the back cover.

Help and support

At Dreams, it's our mission to give the whole nation a great night's sleep - this means that the quality of our products is of utmost importance to us. If there are any issues with your product or any missing parts, please contact our Help Centre on 0800 652 6750, where a member of our team will be happy to help. (For customers based in Northern Ireland, please call 028 9050 8300)

Recycling

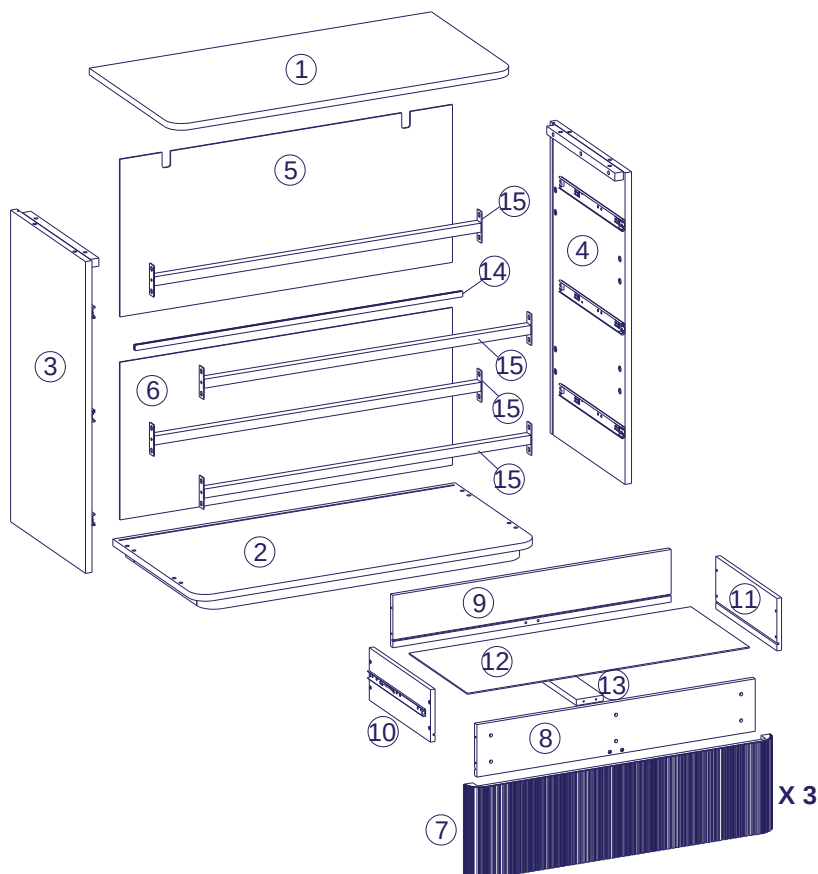

Please ensure that packaging is disposed of in a safe and environmentally friendly way, and recycle where possible. Our assembly instructions are printed on recycled paper. Please keep your assembly instructions safe to refer back to in the future.

Assembly

1

Install the anti-tip bracket (M) on the top panel (1) with screws (G).

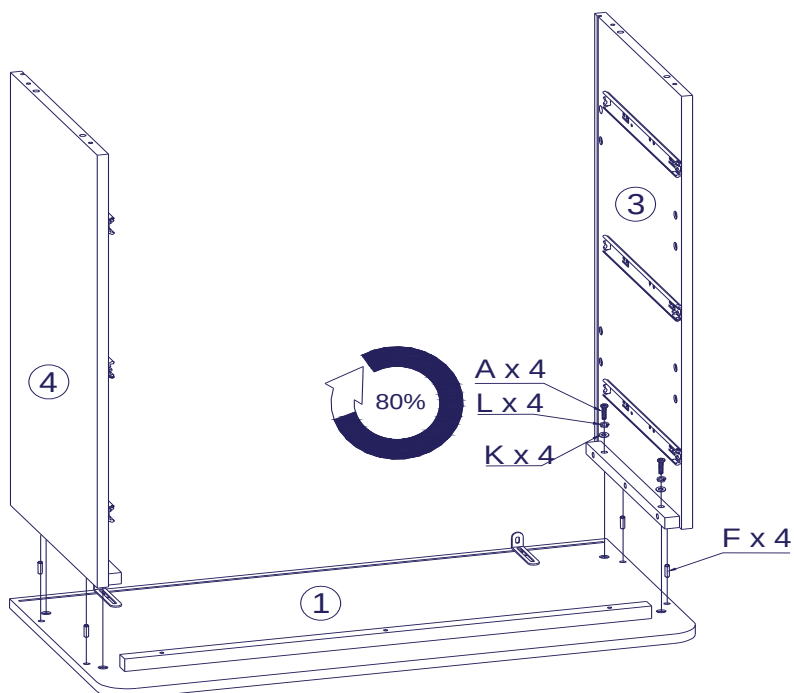

NOTE: Tighten the screws to 80% torque to reserve adjustment space.

2

Assemble the left side panel (3) and right side panel (4) to the top panel with wooden dowels (F), bolts (A), flat washers (L) and spring washers (K).

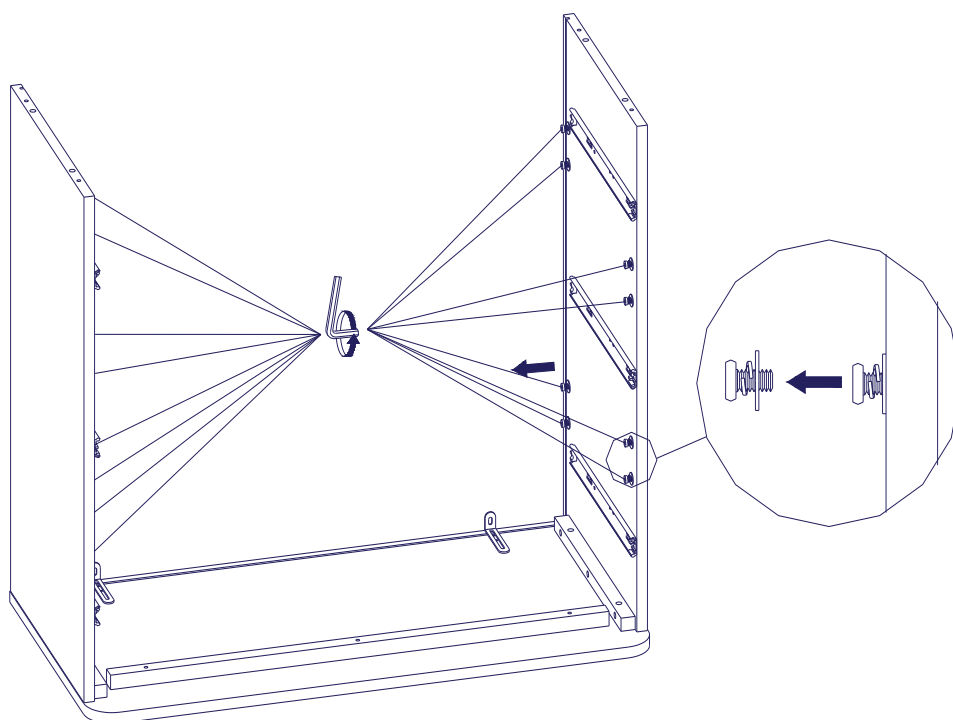

NOTE: Tighten all bolts to 80% torque only for easy assembly of subsequent parts.

Assembly

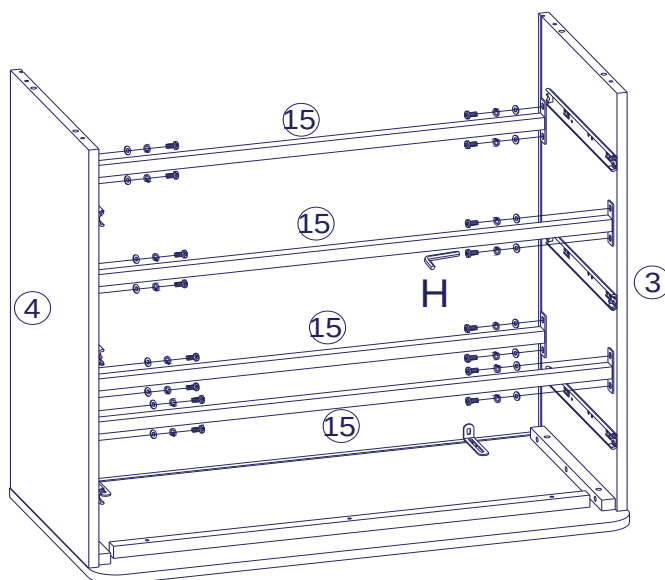

3

Loosen and remove all pre-installed bolts on the side panels with the Allen key (H).

4

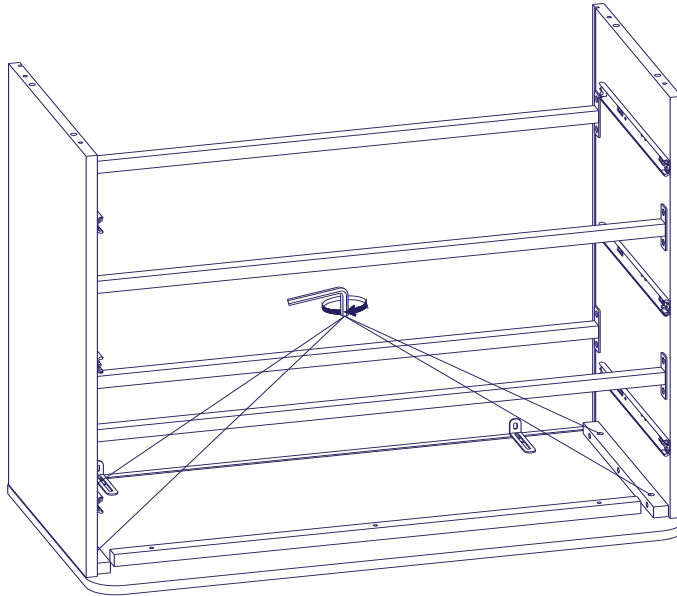

Install the metal connecting rod (15) with all bolts removed in step 3, then fully tighten with the Allen key (H).

Assembly

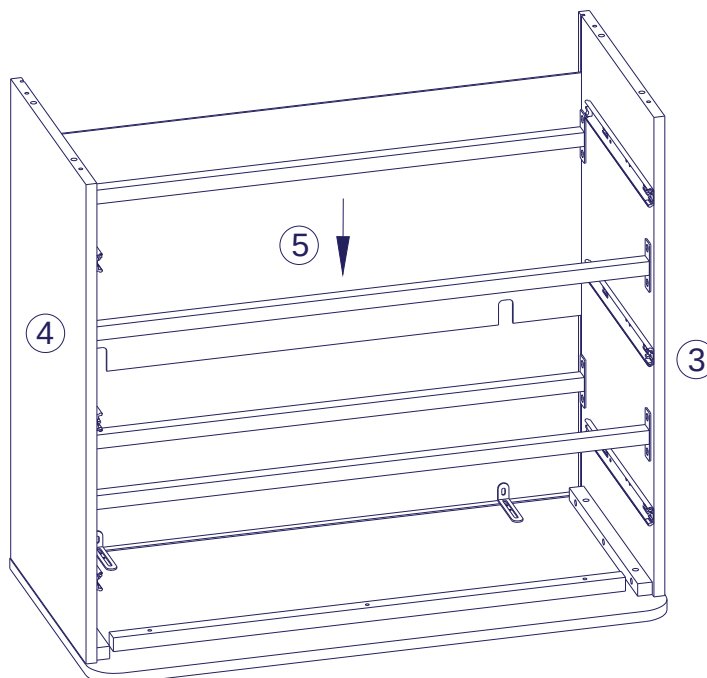

5

Fully tighten all assembled bolts with the Allen key (H).

6

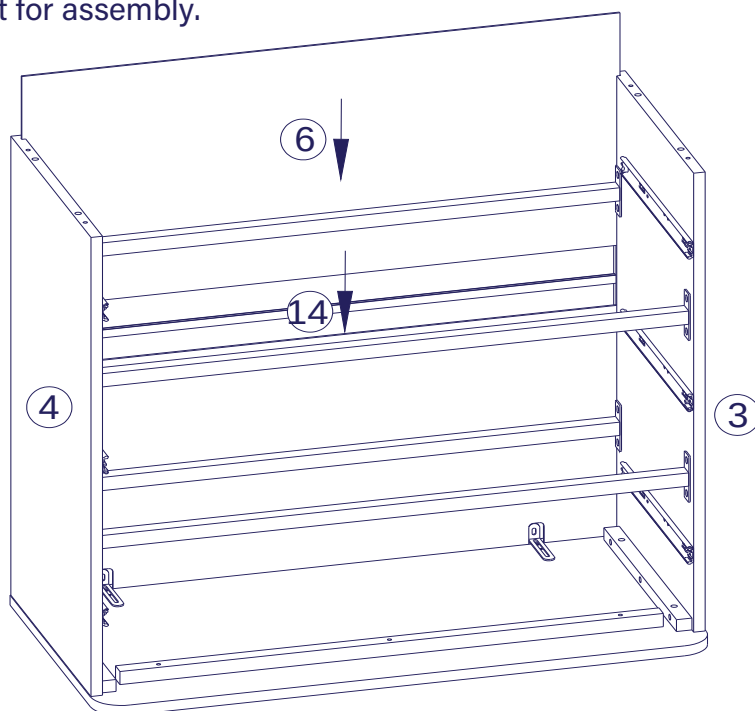

Install the back panel (5). Align the panel with the side panel grooves and insert it in place. NOTE: The U-shaped opening on the back panel faces the top panel. Refer to the assembly diagram.

Assembly

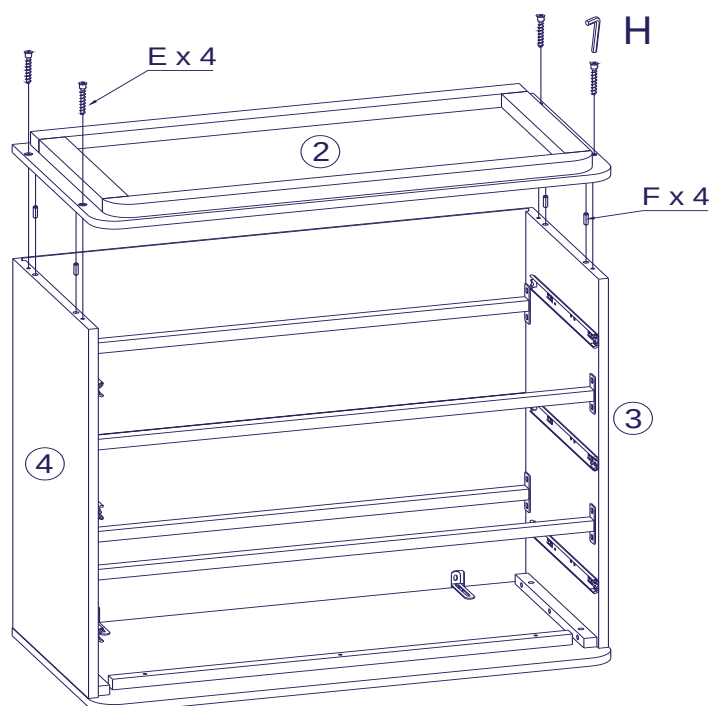

7

Install the plastic retaining strip (14) first, then align the back panel (6) with the side panel grooves and insert for assembly.

8

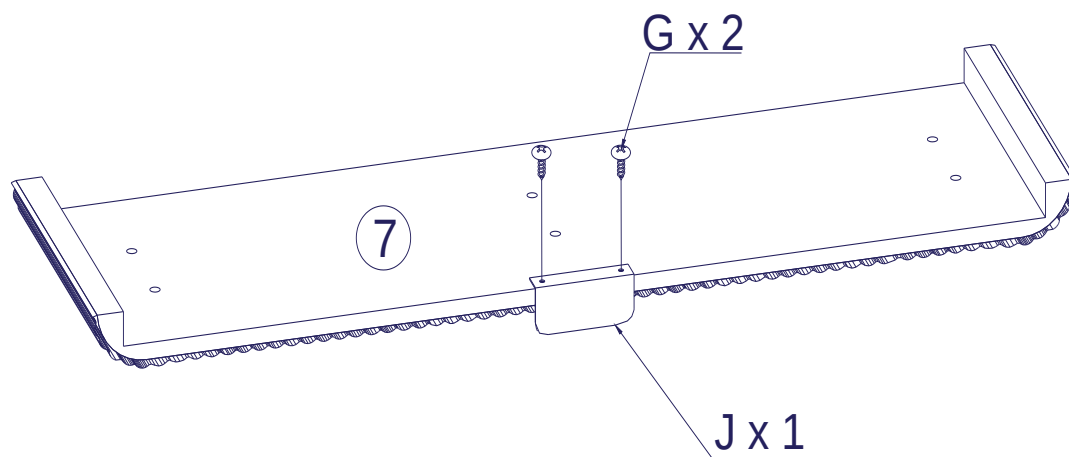

Position and install the base panel (2) with wooden dowels (F) and self-tapping screws (E), then fully tighten with the Allen key (H).

Assembly

9

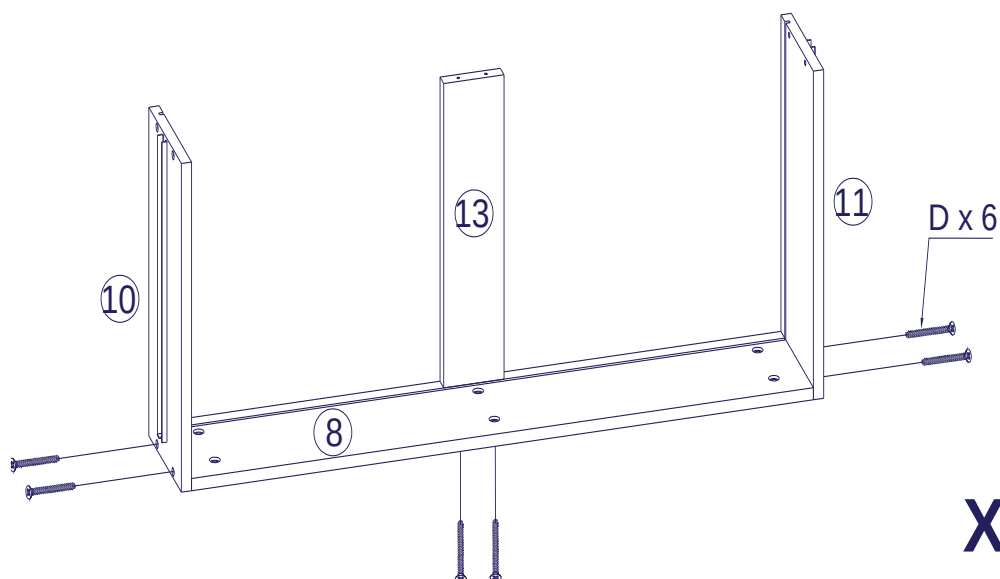

Mount the handle (J) on the drawer front panel (7) with screws (G).

X 3

10

Assemble the drawer left side panel (10), drawer right side panel (11) and drawer support plate (13) to the drawer front panel (8) with screws (D).

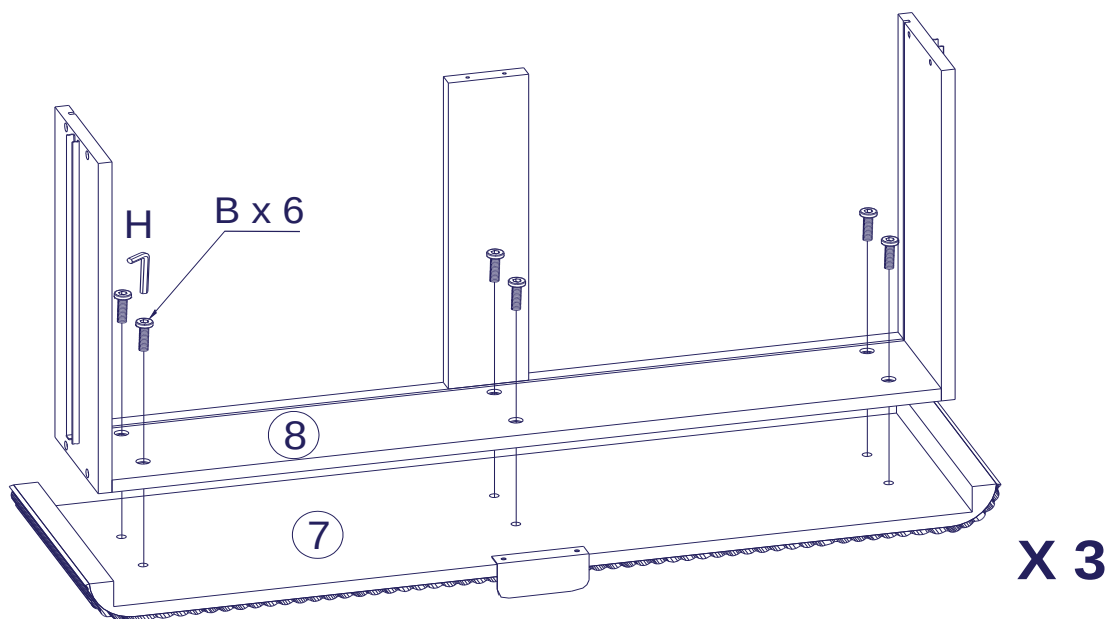

X 3

Assembly

11

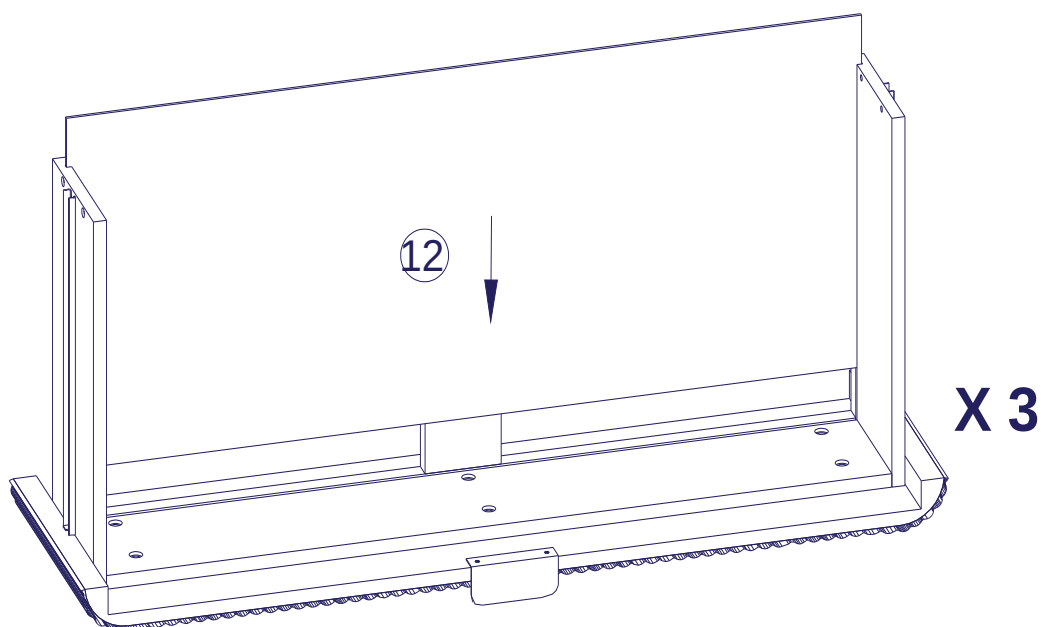

Install the drawer side frame assembly completed in step 10 to the drawer front panel (7) with bolts (B), and fasten with allen key(H).

Note: Tighten the bolts to 80% torque to allow adjustment of drawer clearance.

12

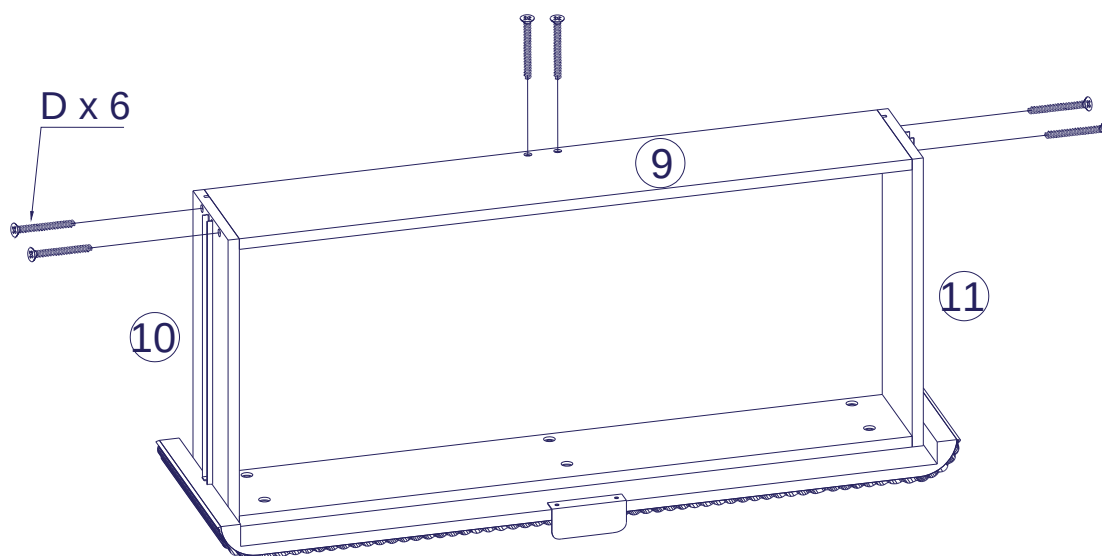

Install the drawer bottom panel (12).

Assembly

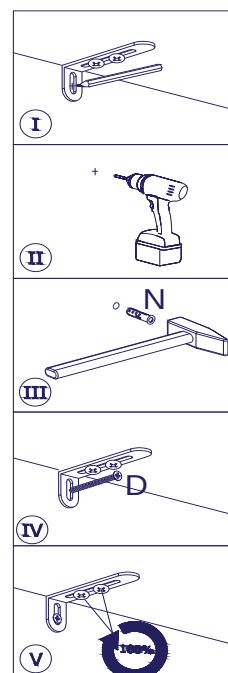

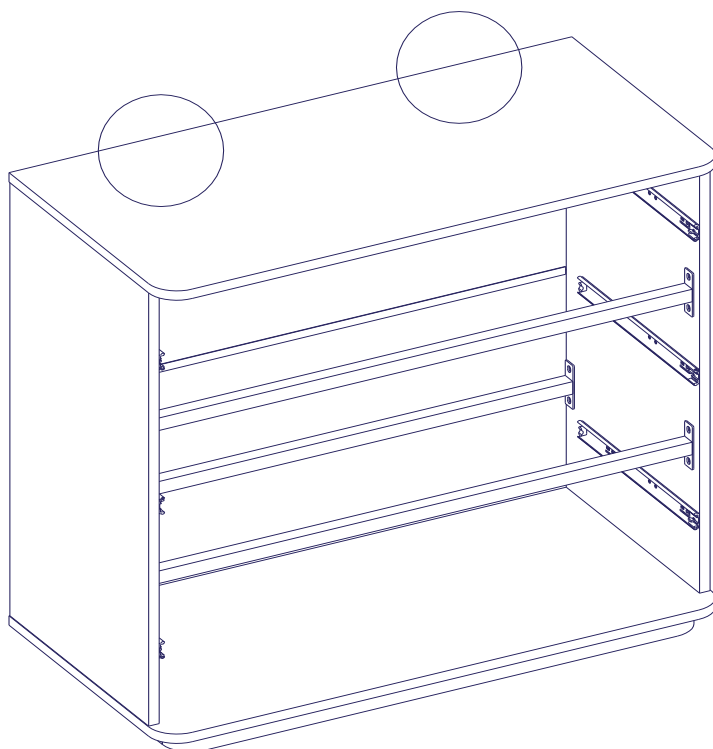

13

Secure the drawer rear panel (9) with screws (D).

14

Place the full cabinet in position. Tighten anti-tip hardware (M) with screws (D) and plastic wall anchors (N).

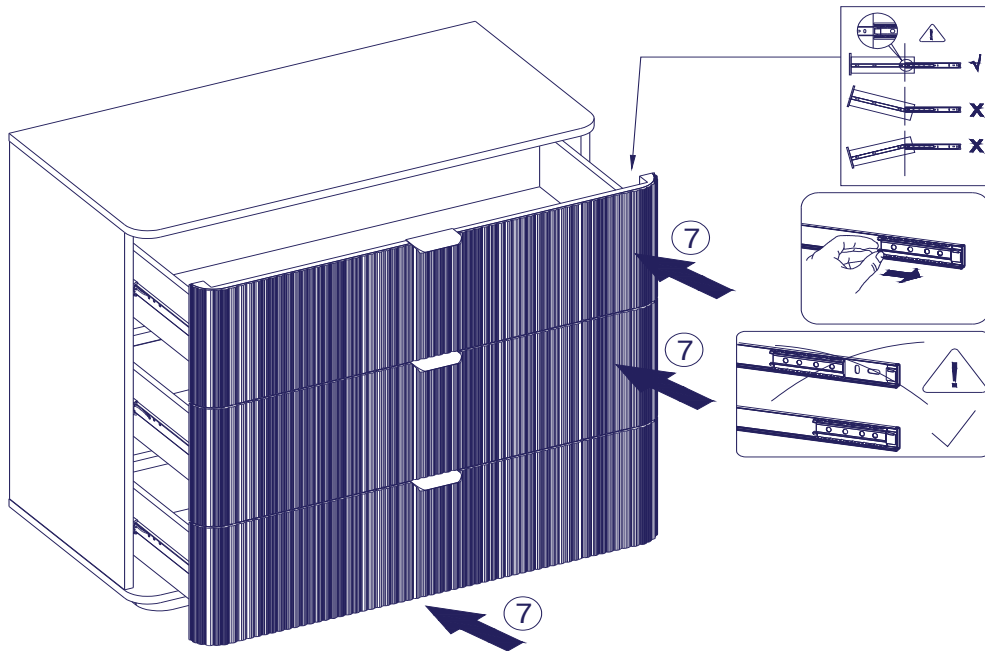

Assembly

15

Install drawers.

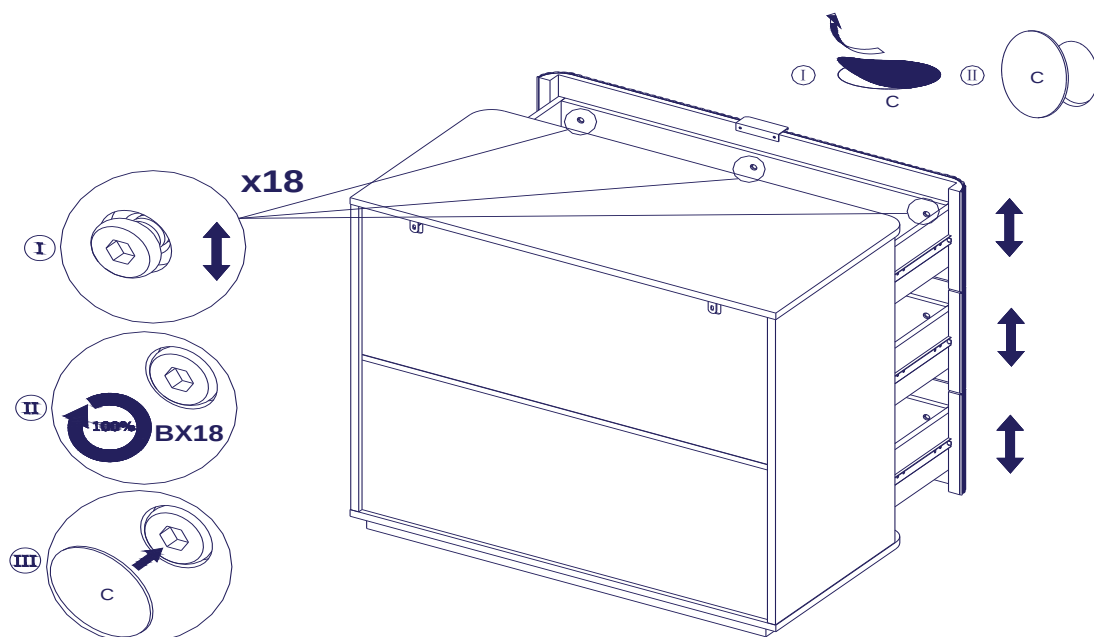

Note: Keep drawers and ball slides level. Push slide balls to front stop before inserting drawers.

16

Install veneer hole caps (C) to finish assembly. The cabinet is ready for use.

Note: Maintain 3 mm vertical gaps between drawers, tighten all bolt, and cover all bolt holes with hole caps (C).

Care and maintenance

Here are some tips to keep your new sofa bed in tip-top condition

Cleaning

To clean your new sofa bed, we'd advise using a warm damp cloth - please do not use abrasive chemicals or bleach as this may damage the product.

Checking and moving

Periodically we recommend you check that the screws or fixtures haven't been become loose, over time. To move your new sofa bed, we recommend lifting it where possible, as dragging or pushing it could cause damage to your flooring.

Wood

Please note each of our wooden pieces are unique, meaning that markings and shade can vary slightly between sofa beds. Over a period of time, the wood might lighten or fade slightly due to light exposure.

Fabric

Please note depending on the lighting, positioning and surroundings of your room, the shade of the colour can sometimes appear slightly different. Over a period of time, the colour might lighten or fade slightly due to light exposure.

Metal

Metal tends to be more resilient to everyday wear and tear. We recommend to gently dust your metal furniture and keep it dry to maintain its look.

Thank you for shopping with us - we hope you have a great night's sleep

Sleep well
