The True Bedmakers

DIVANS AND HEADBOARDS  
ASSEMBLY INSTRUCTIONS

## A good night's sleep can change your life.

Your new Harrison Spinks mattress, divan and headboard is an investment and the first step towards creating your own unique sleep sanctuary.

Each piece is lovingly handmade to order using time-honoured techniques by our craftsmen and women in Yorkshire.

---

Please take the time to read these assembly instructions and care guide in order to understand which type of divan or headboard you have purchased and how to care for them.

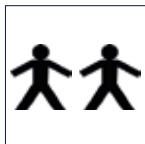

HANDMADE IN YORKSHIRE SINCE 1840

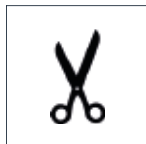

## ON DELIVERY

Please read the instructions thoroughly before use to ensure safe and satisfactory operation. Locate the necessary tools and consult the fittings and parts checklist below before attempting to assemble your product.

## NECESSARY TOOLS

Two People

Sharp Pointed  
Scissors

Flat Head  
Screwdriver

This product is **HEAVY**, it should be unpackaged and assembled as near as possible to the point of use.

Always use two people to handle the product and take care when lifting to avoid personal injury and/or damage to the product.

## HEADBOARD CHECKLIST

### Full Depth Headboard:

Headboard, long headboard bolts x 4 (see page 10)

### Strutted Headboard

Headboard, 1x pack of screws & washers (see page 12)

### Easy Access Deep Headboard

Headboard, 2x slot in legs, long headboard bolts x4 (see page 10)

### Floating Headboard for Slim Divan

Headboard (see page 14)

## DIVAN CHECKLIST

---

**Divan Base:** (see page 6)

**Single:** 1 x divan piece,  
1 x pack of castors/legs/  
glides & headboard bolts,  
washers, 1 x spanner.

**Other Sizes:** 2 x divan  
pieces, 2 x packs of  
castors/legs/glides &  
headboard bolts, washers,  
1 x spanner.

There are 3 types of divan bases manufactured at Harrison Spinks. You will need to identify the type of divan you have ordered as it will determine how it needs to be set up. Divans can be heavy, always use two people to lift each part of the divan and we recommend setting it up as close to the location you wish to have your bed.

**Deep Divan Base**  
To set up a Deep Divan  
Base turn to page 6.

**Shallow Divan Base**  
To set up a Shallow Divan  
Base turn to page 8.

**Slim Divan Base**  
To set up a Slim Divan  
Base turn to page 8.

## SETTING UP YOUR DEEP DIVAN BASE

---

### STEP 1

Turn both divan bases onto their side, lengthways with the centre clippings pointing upwards and remove the packs containing the castors, legs or glides. Ensure the divans are in the correct orientation for the drawer configuration.

### STEP 3

Flip both divan bases onto the castors, legs or glides and fasten together using the interlocking clips. Don't worry if there is a small gap between the bases as this will come together under the weight of the mattress.

### STEP 2

Whilst both divan bases are on their side, position the washers between the divan and the castor, leg or glide and screw in using the spanner provided.

*There are different castors for the left and right of the divan. Be careful ensuring you attach them to the correct side.*

### STEP 4

If you've purchased a divan with drawers, remove the transit drawer strap at this stage, by cutting the fabric in half with scissors. Gently pull the strap away at the top and bottom, taking care to remove any remaining staples.

## DONE

You will have leftover headboard bolts that are only required if you have also purchased a strutted headboard.

## SETTING UP YOUR SHALLOW DIVAN OR SLIM DIVAN BASE

---

### STEP 1

Turn both divan bases onto their side, with the centre clippings pointing upwards and remove the packs containing the castors, legs or glides.

### STEP 3

Flip both bases onto the legs and fasten together using the interlocking clips. Don't worry if there is a small gap between the bases as this will come together under the weight of the mattress.

### STEP 2

Whilst both divan bases are on their side, position the washers between the divan and the leg and screw in using the spanner provided. Depending on the size of the product purchased, there could be four or more legs to insert.

### DONE

If you have a headboard, you can now attach it following the instructions on pages 10, 12 and 14. Otherwise your divan base can be moved into position and your mattress laid on top.

## ATTACHING YOUR FULL DEPTH OR EASY ACCESS HEADBOARD TO YOUR DIVAN

---

### STEP 1

Remove the pack of long bolts attached to the headboard. Use these instead of the small bolts in your divan pack.

### STEP 3

Consider which end to pierce, your bed may have storage that needs to be in a specific position. Only pierce the end you will attach the headboard to. Carefully pierce the fabric with a sharp implement.

### STEP 2

If you have an Easy Access Full Depth Headboard, turn it upside down and slot the legs into the main part of the headboard until both are touching.

If you have a full depth headboard skip this step and continue with step 3.

### STEP 4

Line the headboard up with the holes. Whilst one person holds the headboard upright, the other can start to screw the bolts into place.

### STEP 5

Secure all bolts until tight to complete the assembly.

### DONE

Your bed is now ready to position your mattress.

## ATTACHING YOUR STRUTTED HEADBOARD TO YOUR DIVAN

---

### STEP 1

Remove the pack of screws and washers found at the bottom of the headboard.

### STEP 3

Locate the 'pierce here' stickers. Consider carefully which end to pierce, particularly if your bed has storage that needs to be located in a specific position.

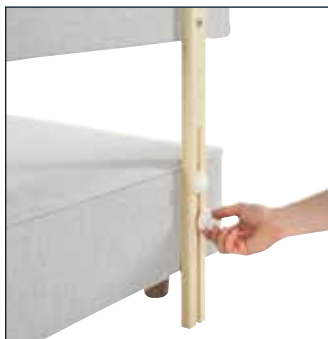

### STEP 2

Lay the headboard on its front and locate the pre-pierced holes. Adjust the struts (legs) so they point downwards, covering the pre-pierced holes. Using a screwdriver, screw the struts into place until tight.

**Only pierce the end you intend to attach the headboard to.**

Using the stickers as guides, carefully pierce the fabric with a sharp-pointed implement then insert the bolts into the pre-drilled holes.

#### STEP 4

Lift the headboard above the bolts, aligning the struts (legs), then drop down on to the floor.

#### DONE

Once the mattress is in place, adjust the headboard to the correct height and secure the bolts until tight.

## SETTING UP YOUR SLIM DIVAN AND FLOATING HEADBOARD

---

### STEP 1

Turn both divan bases onto their side, with the centre clippings pointing upwards and remove the packs containing the castors, legs or guides.

### STEP 3

Flip both bases onto the legs and fasten together using the interlocking clips. Don't worry if there is a small gap between the bases as this will come together under the weight of the mattress.

### STEP 2

Whilst both divan bases are on their side, position the washers between the divan and the leg and screw in using the spanner provided. Depending on the size of the product purchased, there could be four or more legs to insert.

### STEP 4

Ensure the divan is positioned with the headboard attachments on the side you wish to have the headboard.

Once in position, align the headboard sliders to the divan sliders and push the headboard down. Apply reasonable pressure until they have slotted together.

## DONE

Your divan base and floating headboard can be moved into position and it's ready for your mattress.

## CARE AND MAINTENANCE

---

### GENERAL ADVICE

Keep all packaging, tools and fittings out of children's reach.

Do not allow children to jump on your divan, as this could damage the base.

Periodically check all fixings to ensure none have come loose and re-tighten where necessary.

Please consider the environment when disposing of packaging or products at end of life.

### UPHOLSTERY FABRIC

There are a few simple steps you can follow to help ensure the fabric remains in the best condition, helping to extend its life.

Remove dust and fluff from your divan and headboard every few months using a clothes brush or soft brush.

If the upholstery fabric gets marked from movement or use, marks may be removed by using a damp cloth and gently sponging the surface. If this is unsuccessful, appropriate upholstery cleaners may be used to remove the mark.

Don't use any general detergent as it may contain bleach.

## CARE & MAINTENANCE

---

### DIVAN STORAGE

If you have purchased a divan base with drawers, don't overload them with bulky or heavy items. Drawers have been designed to accommodate lightweight items only, such as pillows, bed linen or clothing.

### PACKAGING

To ensure your divan and headboard arrives in perfect condition they are wrapped using heavy duty packaging.

Cardboard can be readily recycled in your recycling bin or at a local recycling centre.

Some councils can recycle the plastic packaging but you will need to check with your local council.

### MOVING

Furniture should be lifted and never dragged. Please take care when handling or moving the furniture, as careless handling may cause damage or injury. It is recommended that before moving heavy objects to a new location they are completely disassembled and are moved by at least two people. Please be careful to retain all parts when doing this.

## GUARANTEE

Every single component of every Harrison Spinks mattress is the result of good honest craftsmanship, a tradition passed down through our family for five generations. Bringing new thinking to old techniques means that we do things the right way. Perhaps it's down to our Yorkshire heritage – but our customers get nothing but the best, and we always deliver on our promises. This is why we offer a guarantee on all of the products we make.

Your Harrison Spinks mattress is automatically guaranteed when purchased and your retailer will be able to advise on further details. Alternatively you can access the details online here: [www.harrisonspinks.co.uk/register](http://www.harrisonspinks.co.uk/register).

In the unlikely event of a defect with the construction or the materials, we will endeavour to repair or replace it free of charge at our discretion during the guarantee period.

Please note, it's normal for our generous layers of natural fillings to settle over time.

We reserve the right to change styles, colours and specification at any time.

All claims under the guarantee should be made directly through your retailer.

# SLEEPING BETTER WITH YOUR NEW MATTRESS?

We are keen to receive genuine reviews regarding the performance of the mattress and the impact it's had on your sleep.

Please leave a review at:
