assembly

Dreams

Love your bed

Thank you

Hello, thanks for choosing to purchase your bed from Dreams - you're now on your way to your best ever night's sleep. Before you begin building your bed, please take a moment to read through the instructions and make sure that you've got all the relevant parts listed on the following pages.

Assembly tips

Before you begin, it's best to identify all parts and fittings to build your bed. We advise laying these out on the floor to check you have everything, and familiarising yourself before building.

Top tip

We recommend that you build your new bed in the room you'd like it to be located - this will help prevent any risk of damage to your newly built bed whilst moving it.

Safety and care

It's really important to ensure children and animals are kept away from the assembly area, as there are small components used in this bed which could present a choking hazard. All plastic and wrapping materials should also be kept away from children and animals to prevent any risk of suffocation. To keep your little ones busy, there is a colouring page inside the back cover.

Help and support

At Dreams, it's our mission to give the whole nation a great night's sleep - this means that the quality of our products is of utmost importance to us. If there are any issues with your product or any missing parts, please visit our website at www.dreams.co.uk/help

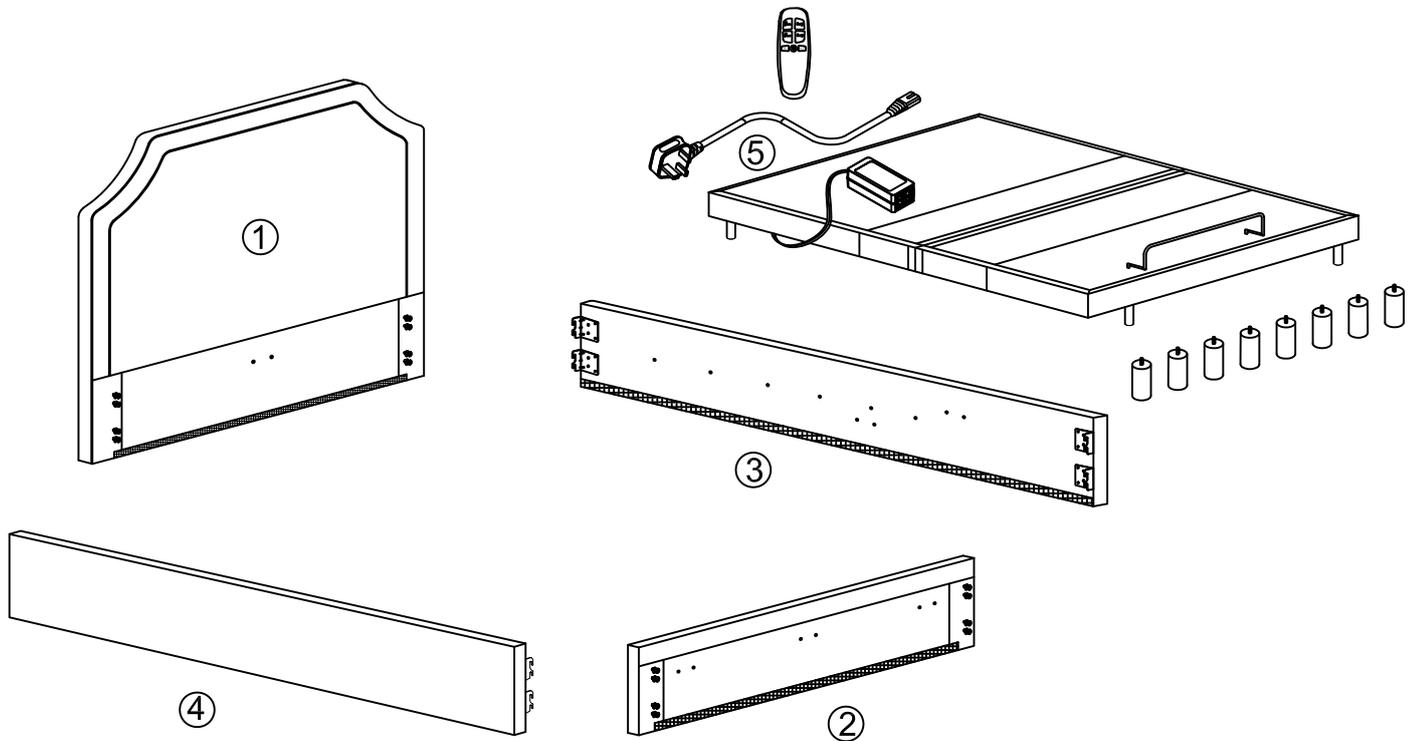

Recycling

Please ensure that packaging is disposed of in a safe and environmentally friendly way, and recycle where possible. Our assembly instructions are printed on recycled paper. Please keep your assembly instructions safe to refer back to in the future.

Parts

The bed you have purchased comes with an Sleepmotion electric bed base. Please follow the instructions that came with the base in the following order.

Once the base is built please follow the instructions to build your frame around the Sleepmotion base itself.

Parts shown in dotted lines are packed in the Sleepmotion bed base carton.

Parts list

Code	Description	Qty	Box
1.	Headboard	1	1
2.	Footboard	1	2
3.	Right Side Rail	1	2
4.	Left Side Rail	1	2
5.	USB power plug	1	3

Before starting assembly please refer to the owners manual supplied with your sleepmotion bed base and follow the instructions taking note of any safety precautions or operational safety requirements of the installation Build the bed base first using only the eight longer legs 6"(15cm), see step 1.

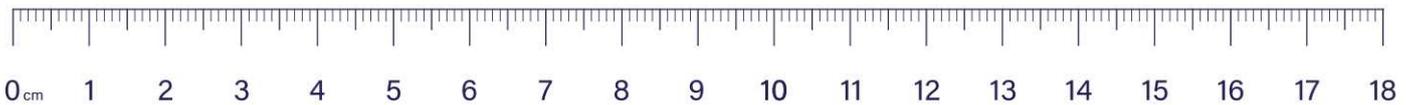

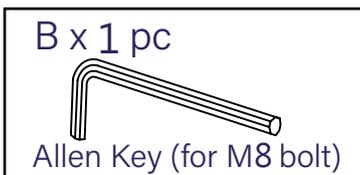

Important:

Place the base in final position in the room of use, connect the power and check the operation then step by step follow the bed assembly instructions below, to build the bedstead around the bed base itself.

Fittings

Please check you have all the parts listed below with your product:

PACK A(in box 1)

Tools required

Please check you have all these below

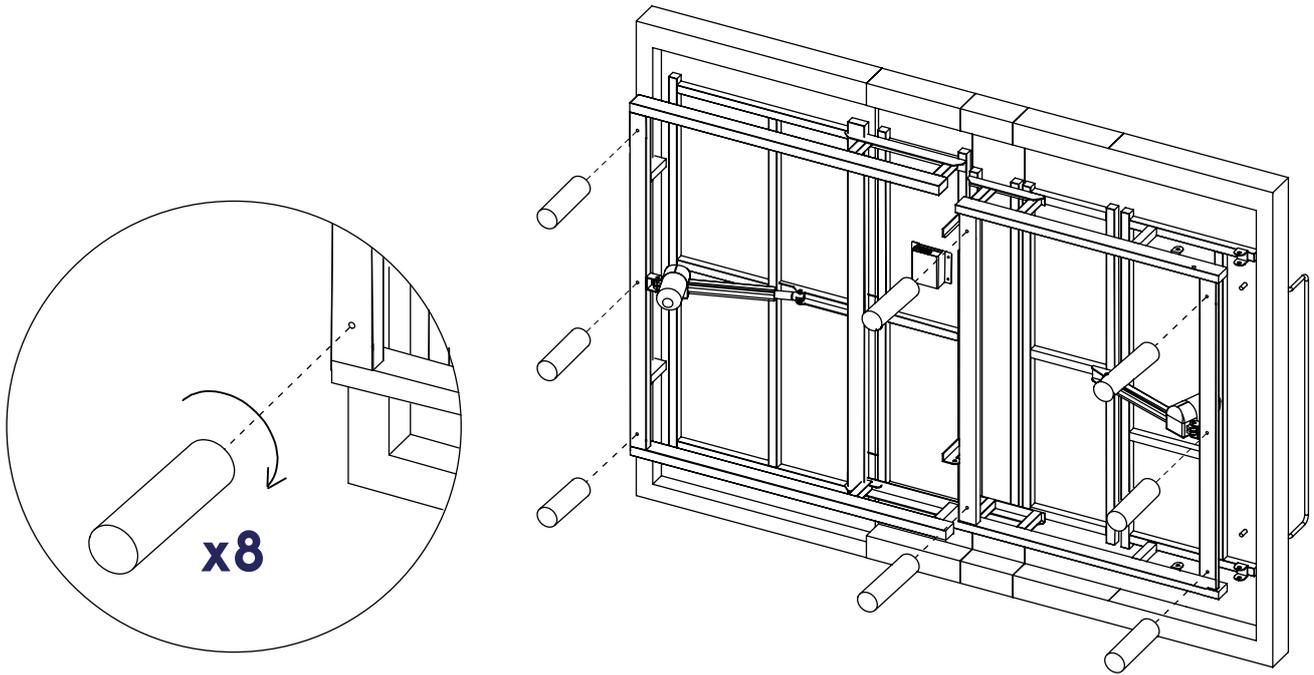

Tape measure

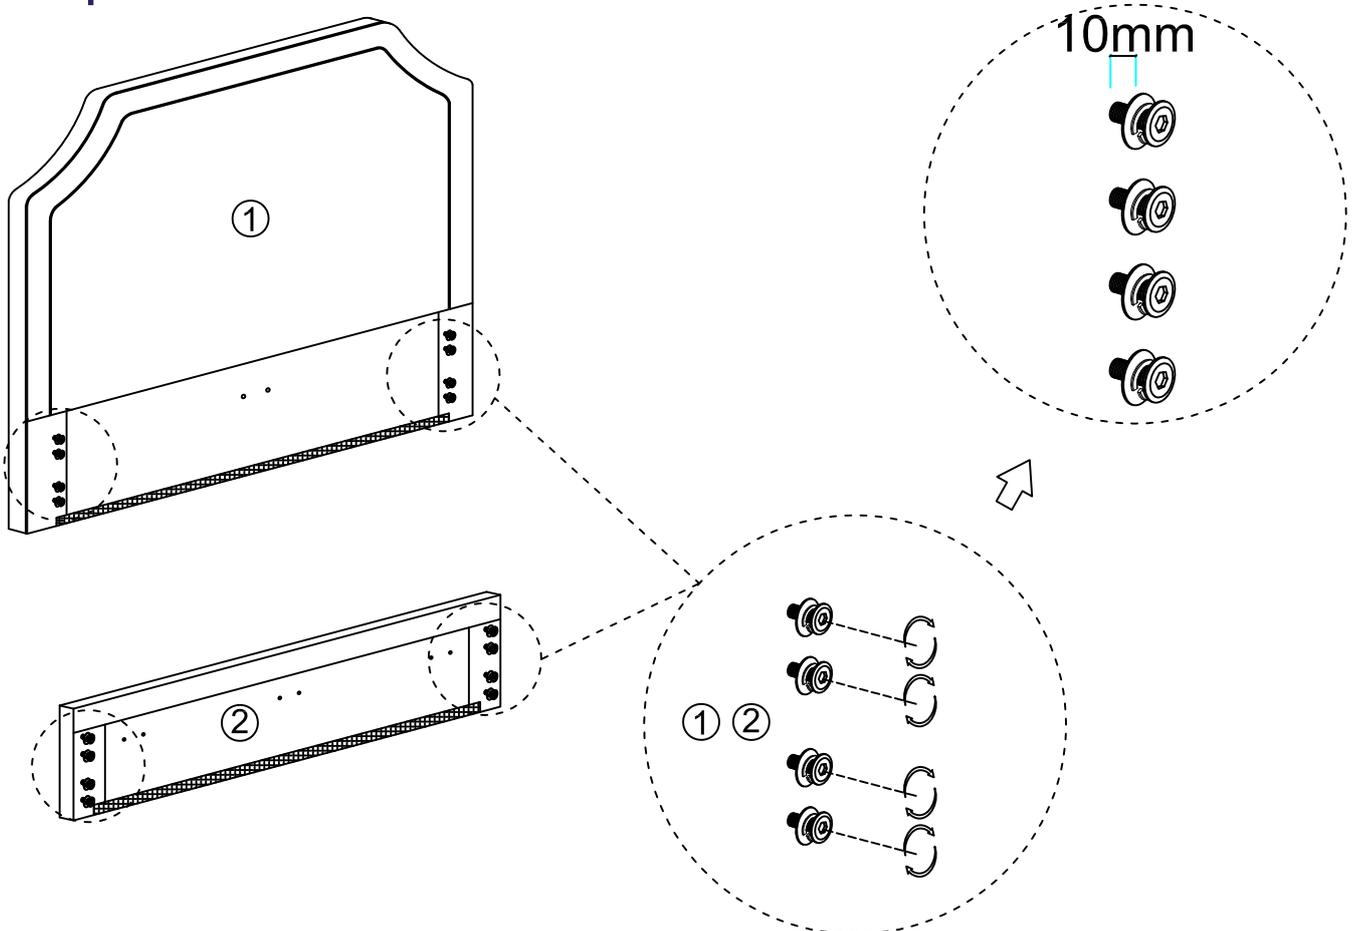

Cross head screwdriver

Step 1

Screw in the legs and place the electric bed base in the position in which it is to be used

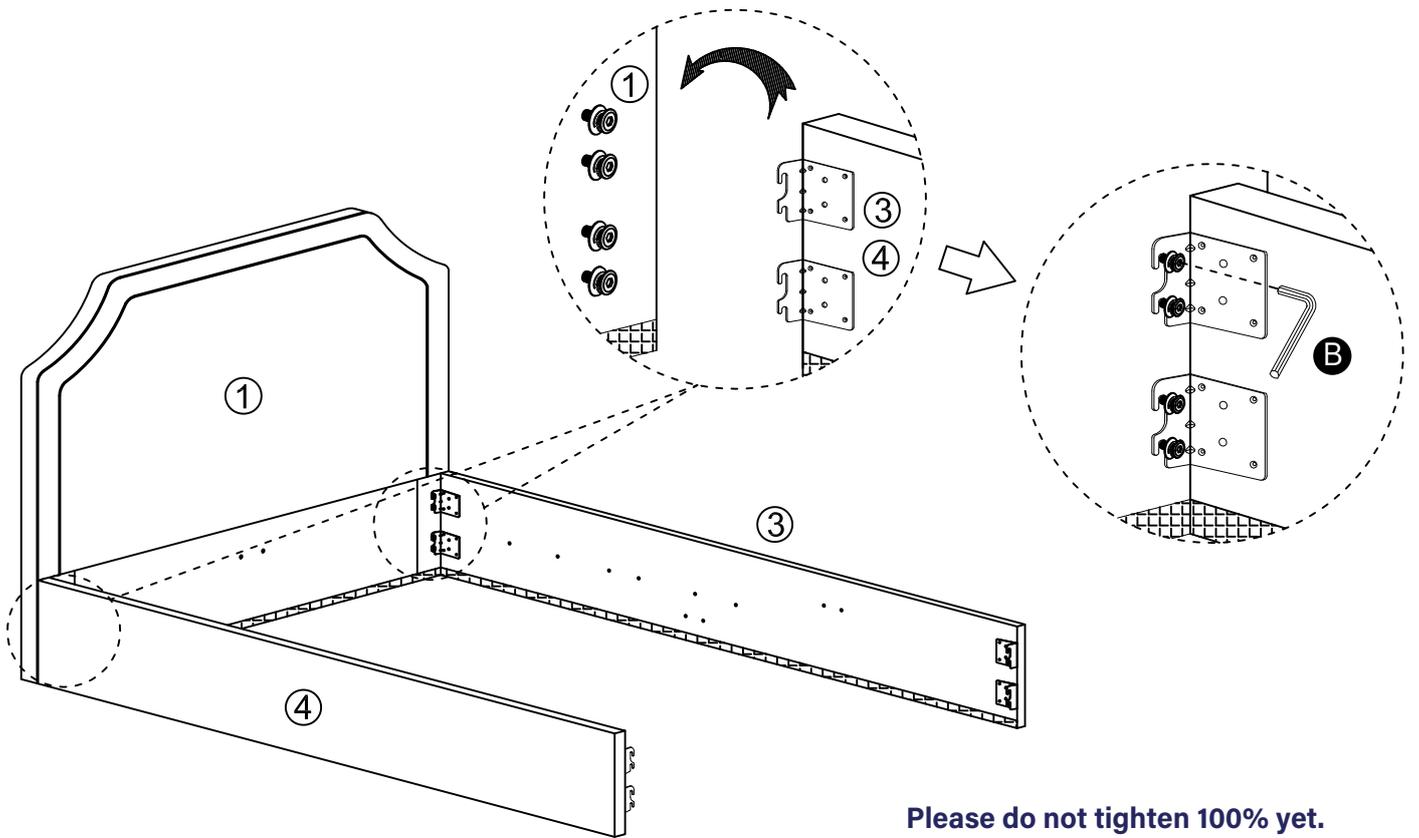

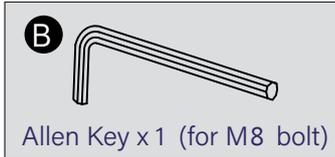

Step 2

Untie all bolts from Headboard/Footboard (1 and 2) and keep 10mm distance as in the diagram.

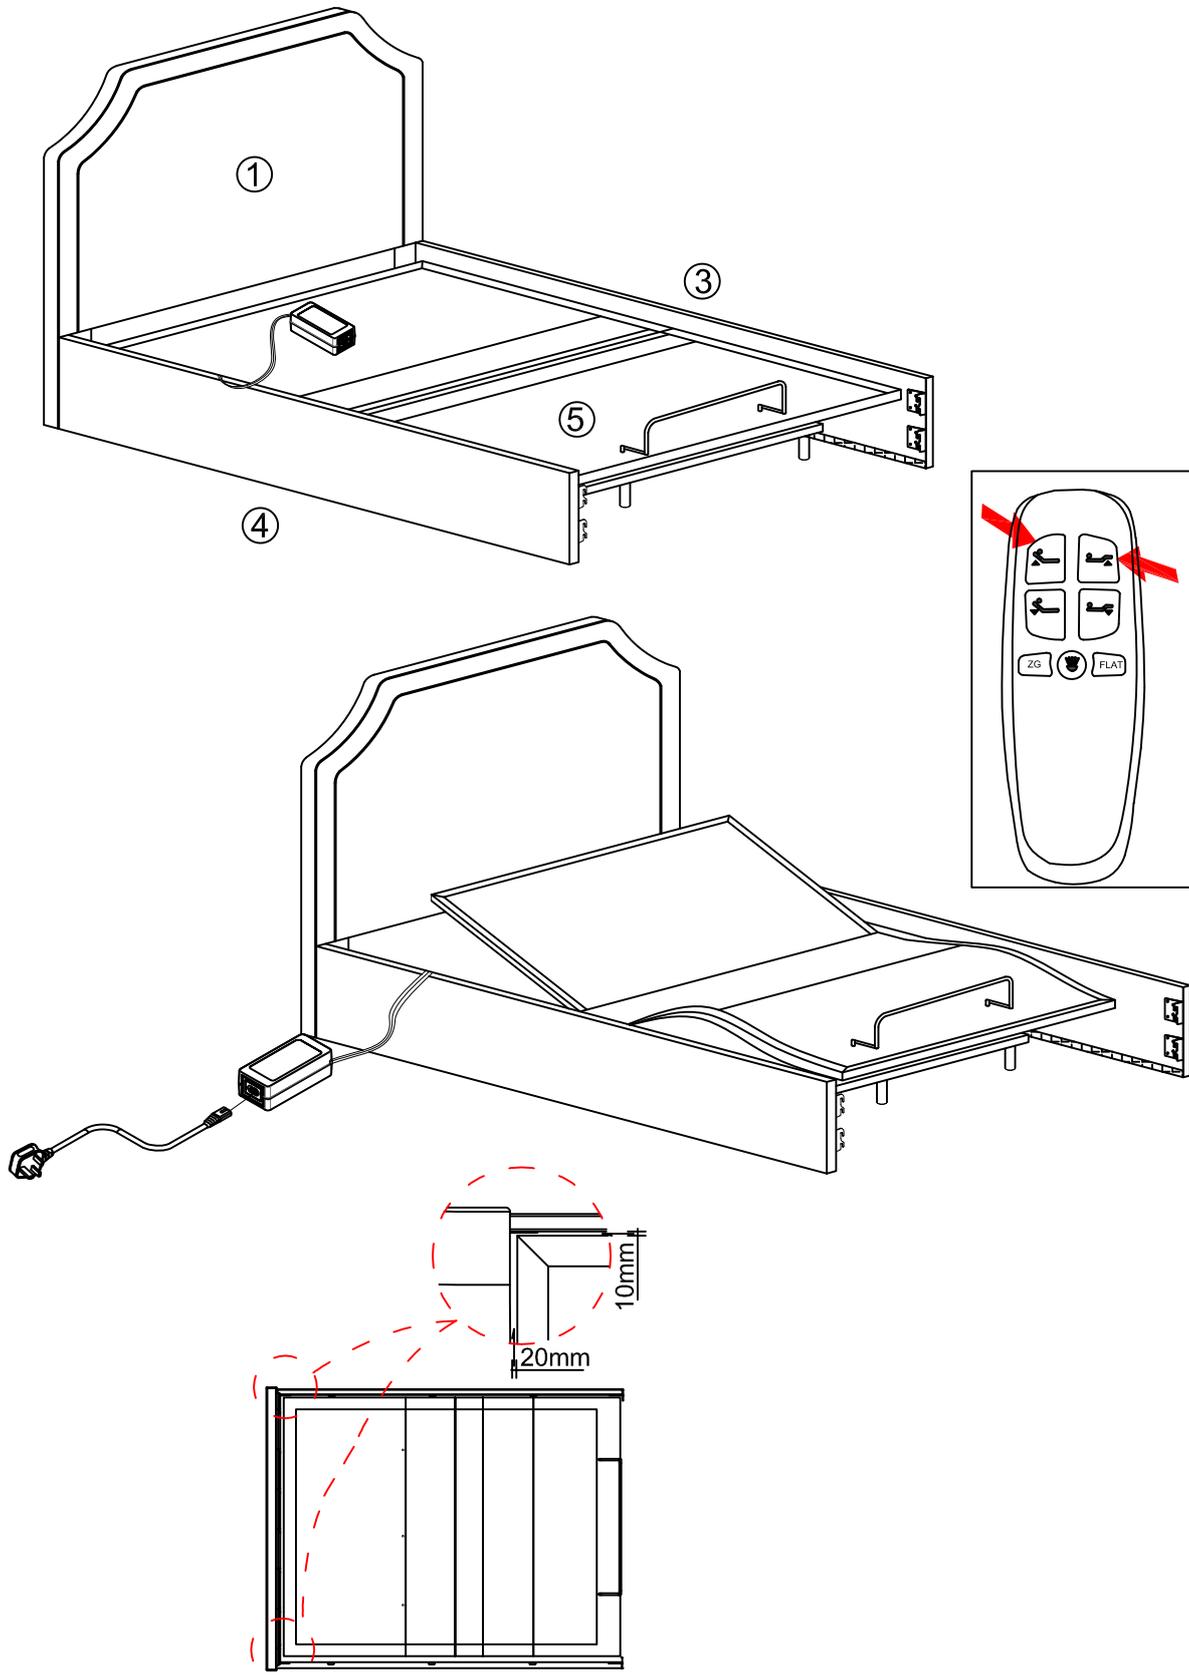

Step 3

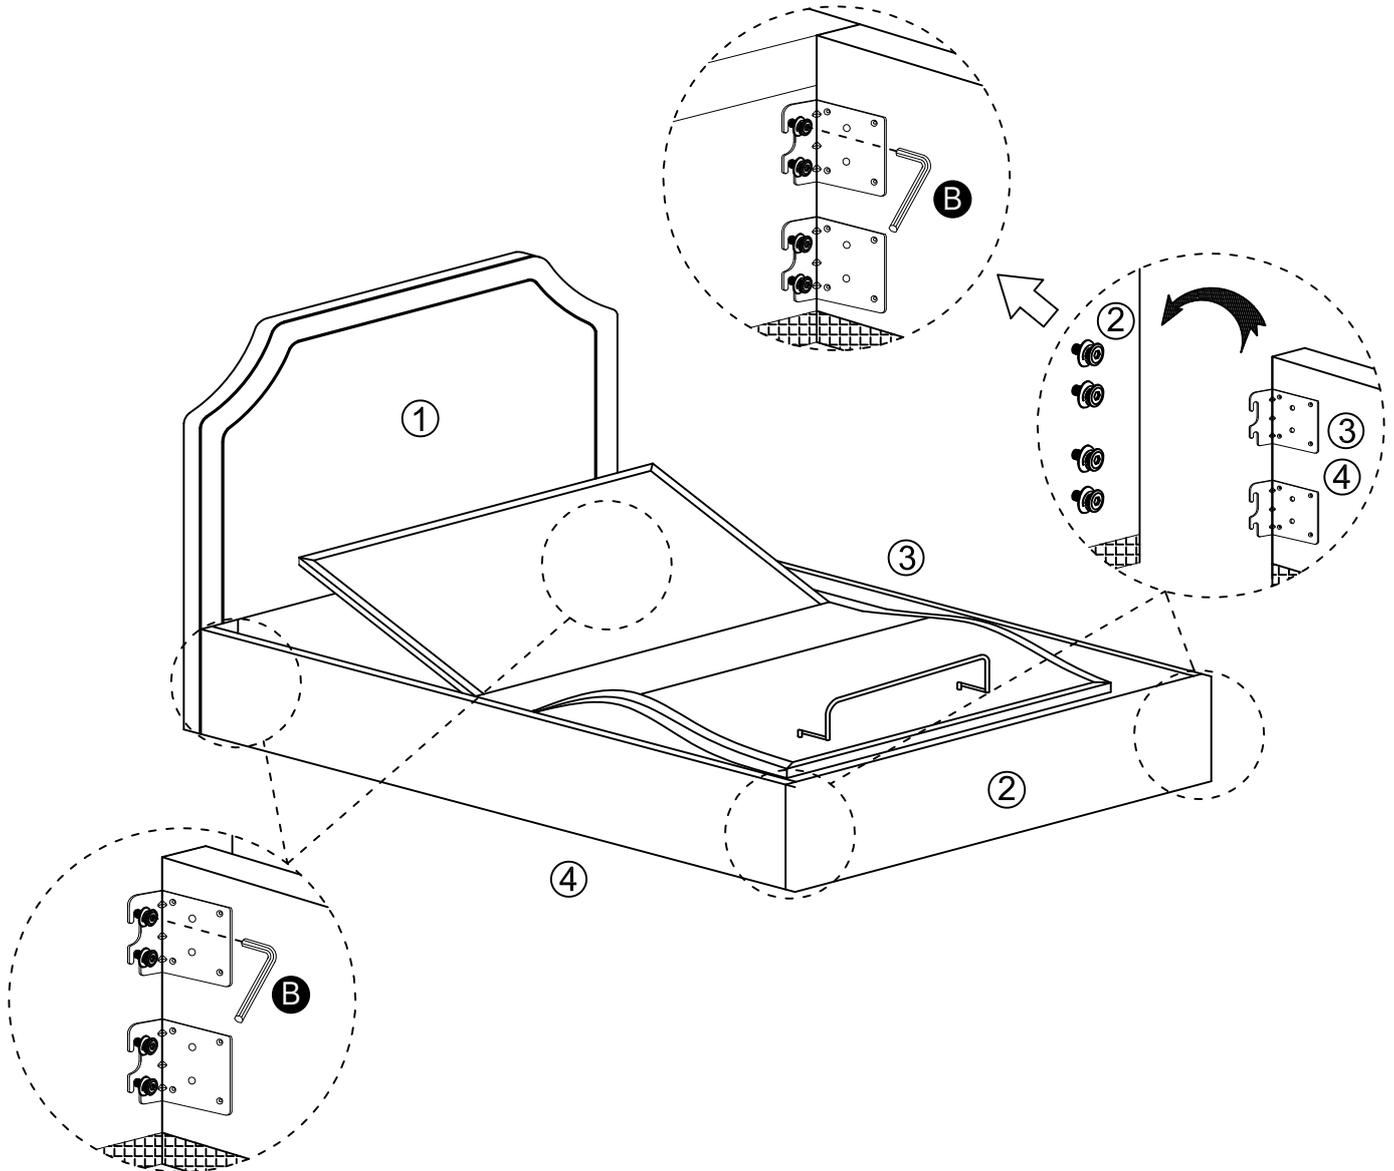

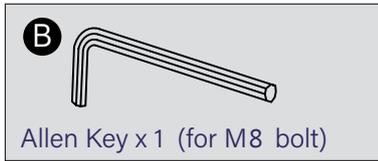

Attach side rails (3 and 4) to headboard (1) by allen key (B) as shown.

Step 4

Carefully position the electric bed base and plug in the power cable then raise the head and foot ends.

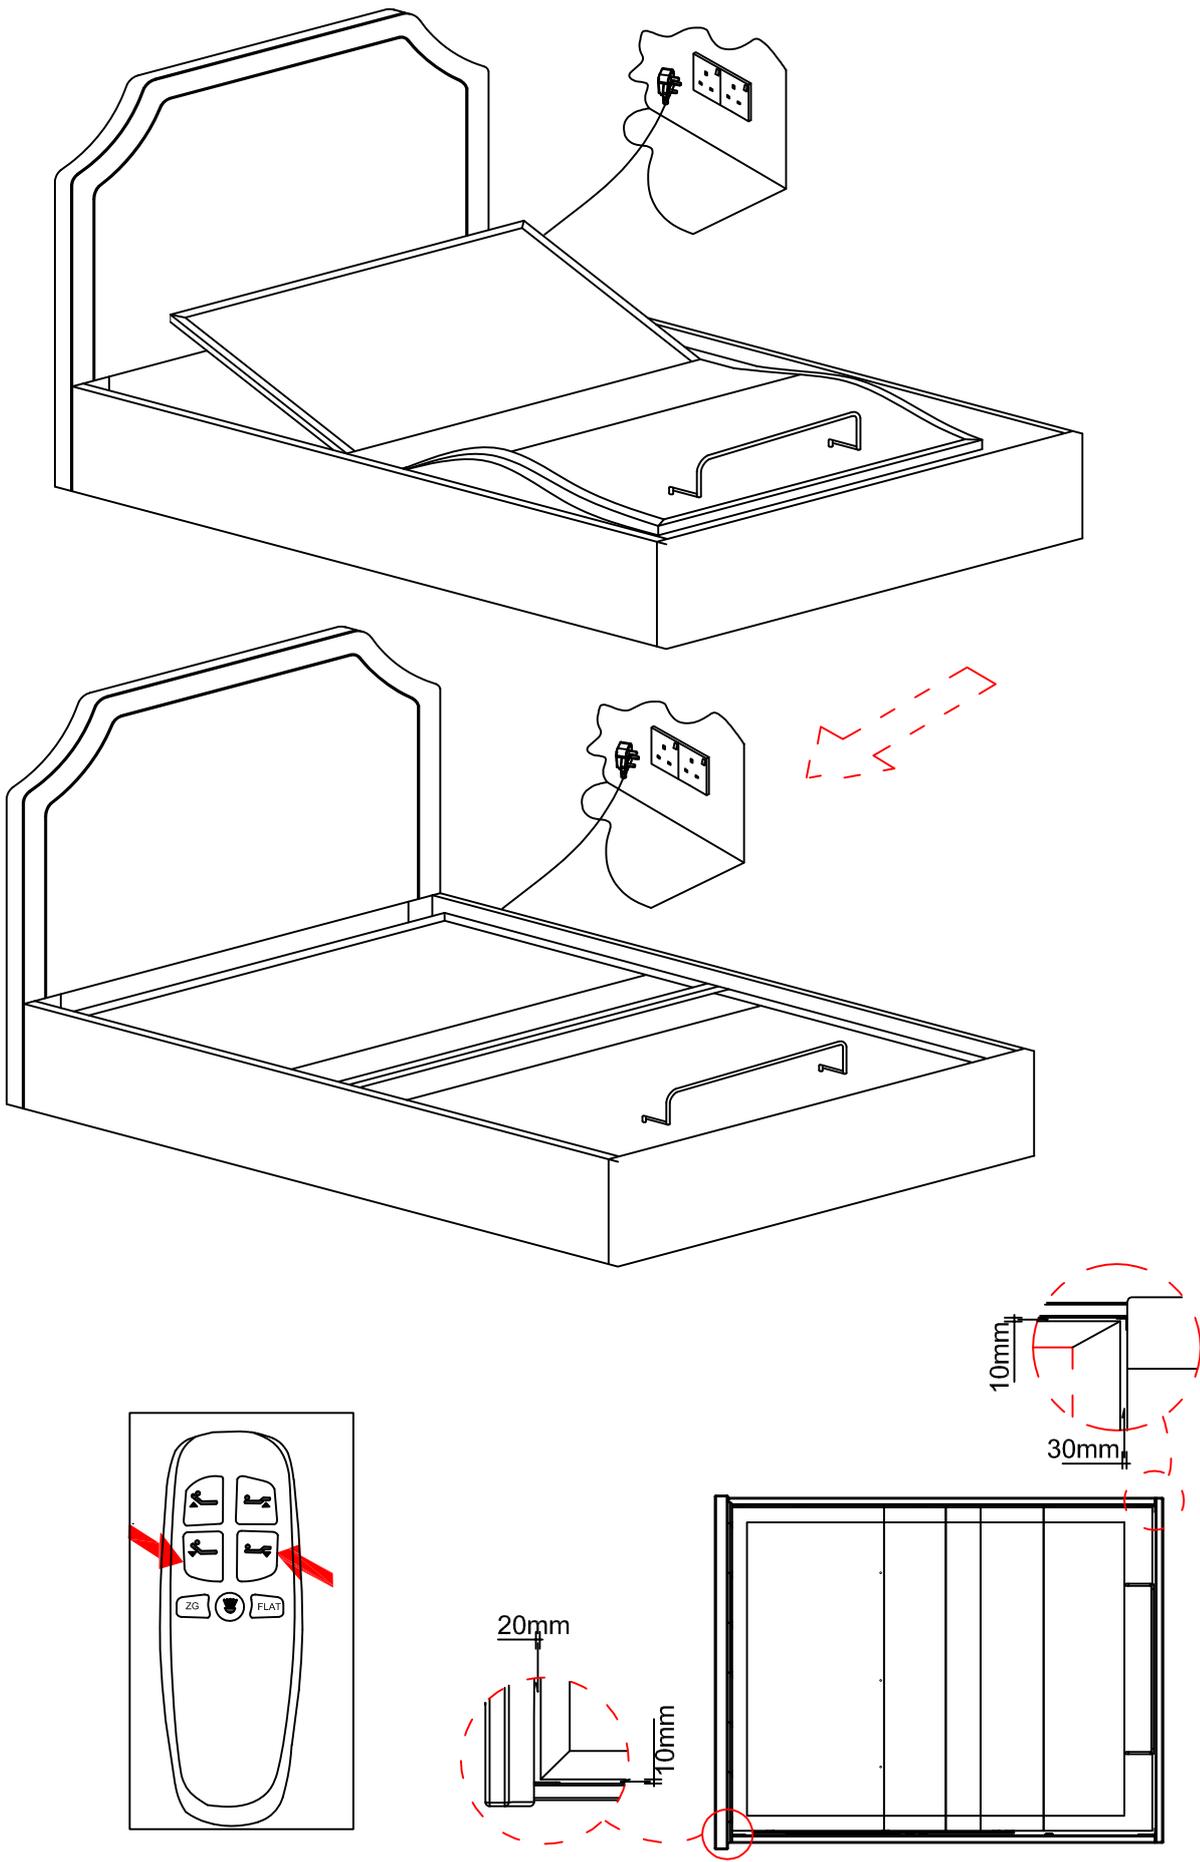

Step 5

Make certain the bed is squared up as shown in the diagram then tighten all bed assembly bolts 100%.

Step 6 Make certain the gaps around the bed base are even.

Care and maintenance

Here are some tips to keep your new furniture in tip-top condition

Cleaning

To clean your new furniture, we'd advise using a warm damp cloth or if fabric, remove dust using a low suction vacuum cleaner - please do not use abrasive chemicals or bleach as this may damage the product.

Checking and moving

Periodically we recommend you check that the screws or fixtures haven't been become loose, over time. To move your new furniture, we recommend lifting it where possible, as dragging or pushing it could cause damage to the legs or flooring.

Wood

Please note each of our wooden pieces are unique, meaning that markings and shade can vary slightly between beds. Over a period of time, the wood might lighten or fade slightly due to light exposure.

Fabric

Please note depending on the lighting, positioning and surroundings of your room, the shade of the colour can sometimes appear slightly different. Over a period of time, the colour might lighten or fade slightly due to light exposure.

Metal

Metal tends to be more resilient to everyday wear and tear. We recommend to gently dust your metal furniture and keep it dry to maintain its look.

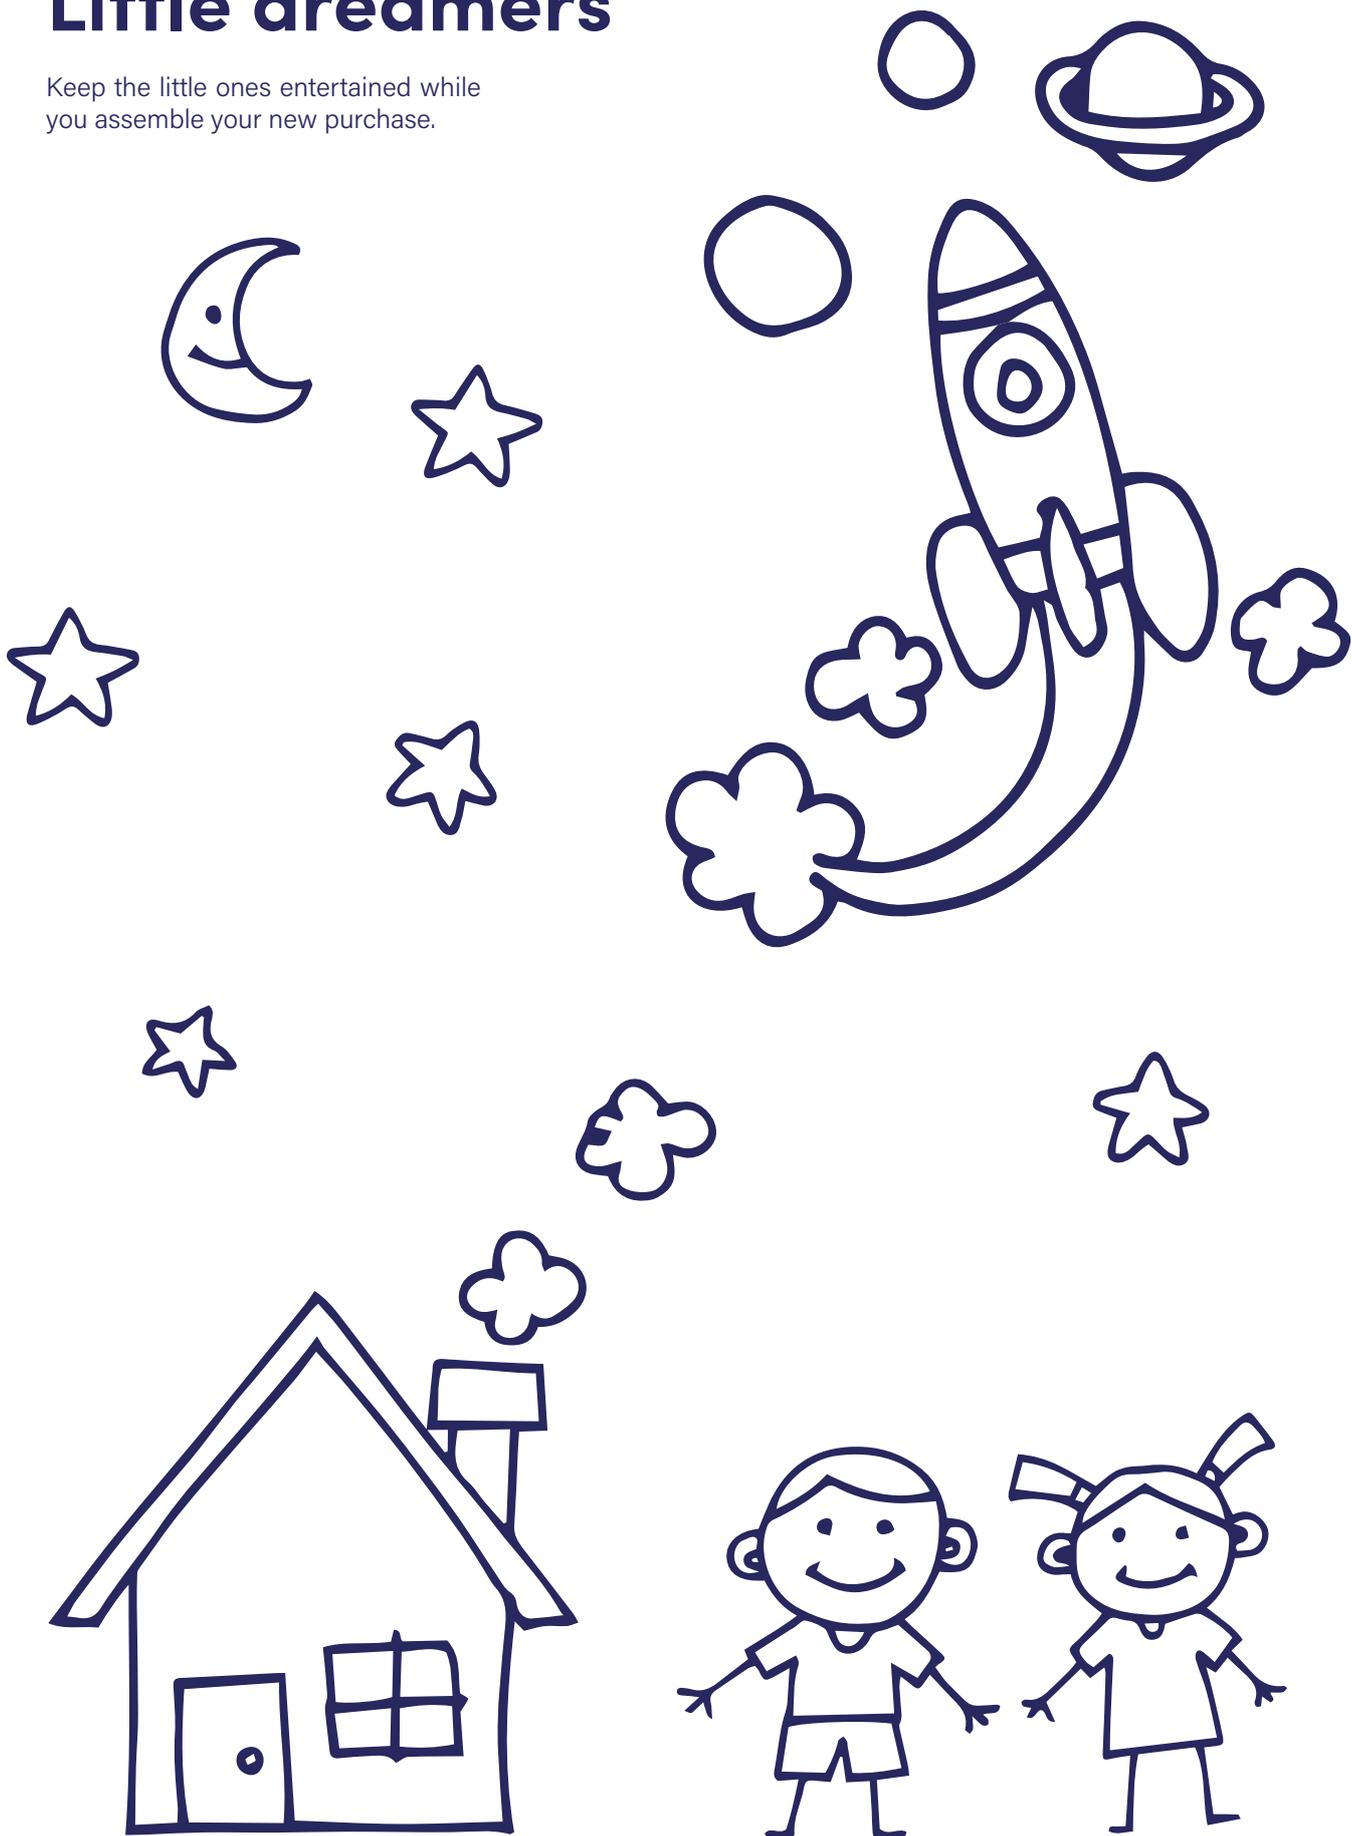

Thank you for shopping with us - we hope you have a great night's sleep

Sleep well

Little dreamers

Keep the little ones entertained while you assemble your new purchase.
