Ottoman Beds - Important Safety Features

Our aim is always to give you the best experience and to ensure every effort has been made to guarantee your comfort and safety. Please take time to look at these instructions as they will help remind you how to operate your ottoman bed safely.

Here's a few things you need to remember;

- ✓ **Pistons are already assembled, or occasionally need to be fitted, in their correct orientation - this improves piston performance and durability.**
- ✓ **"Break in " the piston seals on first use by raising & lowering the platform at least five times.**
- ✓ **Recommended mattress weights - do not exceed the maximum relevant weight specified in this Assembly Instruction.**
- ✓ **Ottoman support bar - always engage the support bar when accessing the ottoman storage area.**

Read all the instructions before using your Ottoman bed-frame and save the instruction booklet for future reference.

Ottoman Support Bar (O.S.B.)

For optimal safety during operation, always ensure the O.S.B. is engaged when accessing the ottoman storage area.

1. Always raise the ottoman frame to it's highest position before using the storage area.
Locate the end of the O.S.B and insert into the fixed retaining bracket on the bed frame.
2. When you are ready to lower the ottoman platform, return the O.S.B to its original parking position.
3. Always ensure that the O.S.B is in position when the ottoman is open, this prevents injury, or damage to the product.

Location of the O.S.B

WARNING! Risk of Entrapment

- The pistons on the ottoman bed frame can support a maximum load (evenly spread) as indicated in the Minimum and Maximum load table, on Page 2 of this Assembly Instruction.
- Overloading the sleeping platform may contribute to damage to the product resulting in potential serious injury.
- Do not sit on the mattress whilst the platform is in motion or is in the raised position.
- Users should only get in and out of bed when platform is in the flat (horizontal) position.

Thank you

Hello, thanks for choosing to purchase your bed from Dreams - you're now on your way to your best ever night's sleep. Before you begin building your bed, please take a moment to read through the instructions and make sure that you've got all the relevant parts listed on the following pages.

Assembly tips

Before you begin, it's best to identify all parts and fittings to build your bed. We advise laying these out on the floor to check you have everything, and familiarising yourself before building.

Top tip

We recommend that you build your new bed in the room you'd like it to be located - this will help prevent any risk of damage to your newly built bed whilst moving it.

Safety and care

It's really important to ensure children and animals are kept away from the assembly area, as there are small components used in this bed which could present a choking hazard. All plastic and wrapping materials should also be kept away from children and animals to prevent any risk of suffocation. To keep your little ones busy, there is a colouring page inside the back cover.

Help and support

At Dreams, it's our mission to give the whole nation a great night's sleep - this means that the quality of our products is of utmost importance to us. If there are any issues with your product or any missing parts, please visit our website at www.dreams.co.uk/help

Recycling

As part of our zero to landfill policy, we're more than happy to collect and recycle your old bed or mattress, ensuring no part goes to waste. We will also take away all your packaging for recycling at point of delivery. Please check out our services on www.dreams.co.uk/recycling-services for more information. If you do not want us to do this, please check with your local recycling centre on the best recycling method.

Between the the headboard & footboard (A&B), carefully plug in the long connection cable (r) and finger-tighten the screws. The cable is reversible so plug in at either end.

6

Plug the small power plug of one end of the mains power lead (I) into the socket at the bottom of the footboard. On the other end of the lead, bring the 3 pin plug out under the headboard and connect it to your wall socket - for safety this must be an earthed power supply.

7

Press the UP button to raise the TV Lift

Occasionally you may find the radio wave connection between remote control and TV Lift is lost, probably due to atmospheric conditions. In that case please follow these simple instructions:

1. Disconnect all mains electric power to the bed, for at least 60 seconds.
2. Press UP or DOWN Button on Remote Control and keep holding button down, simultaneously re-connect mains electric power to bed keeping button down for at least a further 5 seconds. TV Lift unit receives signal from Remote Control and lift will begin to move UP or DOWN whichever direction is appropriate.
3. Re-connection is now completed.

ii) Remove the thumb-screws.

iii) Align the panels, re-fit and tighten the screws

22 Install the Media tray.

a  x4 b  x4 c  x4

23 Connect the Media Tray light.

The light is fitted by the factory on the left side rail (Ca).
If the media tray is needed on the opposite side, fit side rail (Ca) to the right hand side of the bed as shown below..

Bring the end of the connection cable from left side to right side and connect the two cables together as shown. No need to remove the light. Tuck cables neatly under the velcro tabs.

24 Fit the adjustable side rail support bar.

a  x4 b  x4 c  x4

If necessary adjust the length to suit the size of your bed

25 Fit the O.S.B support to the mattress base

Care and maintenance

Here are some tips to keep your new furniture in tip-top condition

Cleaning

To clean your new furniture, we'd advise using a warm damp cloth or if fabric, remove dust using a low suction vacuum cleaner - please do not use abrasive chemicals or bleach as this may damage the product.

Checking and moving

Periodically we recommend you check that the screws or fixtures haven't been become loose, over time. To move your new furniture, we recommend lifting it where possible, as dragging or pushing it could cause damage to the legs or flooring.

Wood

Please note each of our wooden pieces are unique, meaning that markings and shade can vary slightly between beds. Over a period of time, the wood might lighten or fade slightly due to light exposure.

Fabric

Please note depending on the lighting, positioning and surroundings of your room, the shade of the colour can sometimes appear slightly different. Over a period of time, the colour might lighten or fade slightly due to light exposure.

Metal

Metal tends to be more resilient to everyday wear and tear. We recommend to gently dust your metal furniture and keep it dry to maintain its look.
