# Ottoman Beds - Important Safety Features

Our aim is always to give you the best experience and to ensure every effort has been made to guarantee your comfort and safety. Please take time to look at these instructions as they will help remind you how to operate your ottoman bed safely.

## Here's a few things you need to remember;

- ✓ **Pistons are already assembled, or occasionally need to be fitted, in their correct orientation - this improves piston performance and durability.**
- ✓ **"Break in " the piston seals on first use by raising & lowering the platform at least five times.**
- ✓ **Recommended mattress weights - do not exceed the maximum relevant weight specified in this Assembly Instruction.**
- ✓ **Ottoman support bar - always engage the support bar when accessing the ottoman storage area.**

Read all the instructions before using your Ottoman bed-frame and save the instruction booklet for future reference.

## Ottoman Support Bar (O.S.B.)

For optimal safety during operation, always ensure the O.S.B. is engaged when accessing the ottoman storage area.

1. Always raise the ottoman slat-frame to it's highest position before using the storage area. Locate the end of the O.S.B and insert into the fixed retaining bracket on the bed frame.
2. When you are ready to lower the ottoman platform, return the O.S.B to its original parking position.
3. Always ensure that the O.S.B is in position when the ottoman is open, this prevents injury, or damage to the product.

## Location of the O.S.B

## WARNING! Risk of Entrapment

- The pistons on the ottoman bed frame can support a maximum load (evenly spread) as indicated in the Minimum and Maximum load table, on Page 1 of this Assembly Instruction.
- Overloading the sleeping platform may contribute to damage to the product resulting in potential serious injury.
- Do not sit on the mattress whilst the platform is in motion or is in the raised position.
- Users should only get in and out of bed when platform is in the flat (horizontal) position.

# Thank you

Hello, thanks for choosing to purchase your furniture from Dreams - you're now on your way to creating a functional and fabulous room. Before you begin building your furniture, please take a moment to read through the instructions and make sure that you've got all the relevant parts listed on the following pages.

## Assembly tips

Before you begin, it's best to identify all parts and fittings to build your furniture. We advise laying these out on the floor to check you have everything, and familiarising yourself before building.

## Top tip

We recommend that you build your new furniture in the room you'd like it to be located - this will help prevent any risk of damage to your newly built furniture whilst moving it.

## Safety and care

It's really important to ensure children and animals are kept away from the assembly area, as there are small components used in this bed which could present a choking hazard. All plastic and wrapping materials should also be kept away from children and animals to prevent any risk of suffocation. To keep your little ones busy, there is a colouring page inside the back cover.

## Help and support

At Dreams, it's our mission to give the whole nation a great night's sleep - this means that the quality of our products is of utmost importance to us. If there are any issues with your product or any missing parts, please visit our website at [www.dreams.co.uk/help](http://www.dreams.co.uk/help)

## Recycling

Please ensure that packaging is disposed of in a safe and environmentally friendly way, and recycle where possible. Our assembly instructions are printed on recycled paper. Please keep your assembly instructions safe to refer back to in the future.

# Section A: Metal Slat-Frame Version

# Care and maintenance

Here are some tips to keep your new bed in tip-top condition

## Cleaning

To clean your new bed, we'd advise using a warm damp cloth - please do not use abrasive chemicals or bleach as this may damage the product.

## Checking and moving

Periodically we recommend you check that the screws or fixtures haven't become loose, over time. To move your new bed, we recommend lifting it where possible, as dragging or pushing it could cause damage to your flooring.

## Wood

Please note each of our wooden pieces are unique, meaning that markings and shade can vary slightly between beds. Over a period of time, the wood might lighten or fade slightly due to light exposure.

## Fabric

Please note depending on the lighting, positioning and surroundings of your room, the shade of the colour can sometimes appear slightly different. Over a period of time, the colour might lighten or fade slightly due to light exposure.

## Metal

Metal tends to be more resilient to everyday wear and tear. We recommend to gently dust your metal furniture and keep it dry to maintain its look.

**Thank you for shopping with us - we hope you have a great night's sleep**
