

PLEASE READ this sheet prior to assembly to familiarise yourself with the various stages of construction. Carefully open the cartons supplied and check the contents against the parts and fittings check lists.

Do not destroy any of the packaging until you are certain that you have all the necessary parts for the assembly.

Please ensure that the packaging is disposed of in a safe, environmentally friendly way.

Choose which side the Media tray should be placed and choose which side you want to lift up to expose the storage area then follow the following instructions step by step.

**CAUTION:** There are small components used in the construction of this unit. These loose items should be kept away from young children during assembly, to avoid the danger of choking.

**IMPORTANT: BEFORE STARTING TO ASSEMBLE THE BED - PLEASE READ THESE INSTRUCTIONS CAREFULLY.**

An instructional video of the Operation of the Ottoman Lift Up system is available via YouTube using the following address:

### Parts Identification

## Parts Checklist

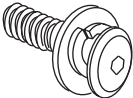

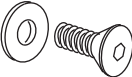

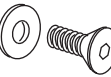

Ref.	Description	Qty	Ref.	Description	Qty
1	Headboard	1	12	Media Tray Back Panel	1
2	Footboard	1	13	Cable Guard Back Panel	1
3	Side Rail - With Media Tray	1	14	Cable Guard Side Panels	2
4	Side Rail - Without Media Tray	1	15	Mains Power Lead - 3 mt	1
5	Metal Slat Support Bars	2	16	Aerial Lead - 4 mt	1
6	Base Boards	2	17	HDMI Lead - 5 mt	1
7	Metal Slat Frame	1	18	Cable Clips	5
8	Mattress Stoppers	2	19	Cable Ties	5
9	Media Tray Base Panel	1	20	TV Lift Remote Control	1
10	Media Tray Side Panel - L	1			
11	Media Tray Side Panel - R	1			

## Fittings Checklist

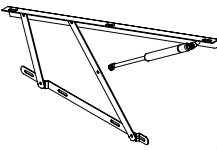

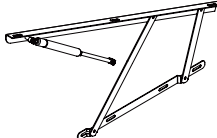

### HARDWARE NEEDED FOR BED ASSEMBLY (PACK A)

Code	Description	Qty	Code	Description	Qty
A	Bolts (M8x30mm) for fitting side rails (3&4) to headboard & footboard (1&2)	x16	D	Allen Key (5mm for M8 bolt)	x1
B	Spring Washers (for M8 bolts)	x16	E	Fitting metal slat support bars (5) to side rails (3&4)	x4
C	Flat Washers (for M8 bolts)	x20			

### TV INSTALLATION KIT - Inside Pack (A)

a x2	Screw-Washer sets (M8x25mm) Use 5mm Allen Key (D)		Counter-Sunk Screws (M6x12mm)		Counter-Sunk Screws (M4x12mm)	
b x2	Allen Key (4mm)		Allen Key (2.5mm)			

### HARDWARE NEEDED FOR FITTING GAS-LIFT MECHANISMS (PACK B)

Code	Description	Qty	Code	Description	Qty
A	Fitting gas-lift mechanisms F(a) & F(b) to side panels (3&4)	x8	F (a)		x1
B	Spring Washers (for M8 bolts)	x8		Gas-Lift Mechanisms	
C	Flat Washers (for M8 bolts)	x8	F (b)		x1

### HARDWARE FOR FITTING METAL SLAT FRAME (PACK C)

Code	Description	Qty	Code	Description	Qty
B	Spring Washers (for M8 bolts)	x10	G	Nuts (for M8 slat frame bolts)	x6
C	Flat Washers (for M8 bolts)	x16	H	Flange Lock-Nuts (M8) for gas-lift pistons	x2
E	Bolts (M8x45mm) for fitting metal slat frame (5) to gas-lift mechanisms (F)	x6	J	Spanner (for M8 nut)	x1
K	Bolts (M8x20mm) for fitting Metal Plates (K) to Metal Slat Frame (7)	x4	L	Metal Plates for Slat Frame	x2

## Fittings Checklist

### HARDWARE NEEDED FOR MEDIA TRAY AND CABLE GUARD ASSEMBLY (PACK D)

Code	Description	Qty	Code	Description	Qty
A	Bolts (M8x30mm) for fitting Media Tray to side rail (4) and Cable Guard to Footboard (2)	x8	M	Screws (5x50mm) for assembling Drawer Panels and Cable Guard	x15
C	Flat Washers (for M8 bolts)	x8	N	Plastic Barrel Nuts	x15

### Additional Tools Required

Cross-head Screwdriver

### Care & Maintenance

In the unlikely event of missing or damaged parts, please contact the customer service team on 0344 292 00 00. When calling this number, please quote the part code reference numbers shown in this leaflet when requesting spare or replacement parts.

### General Hints & Tips

Please retain your assembly instruction and tools provided for future use. Periodically check that all bolts are still tight.

Assembly requires two persons.

2HRS

Approximate time to assemble this product

When they are supplied and are part of the assembly of this bed, ensure that the barrel nuts are fitted the correct way so the hole in the nut is facing towards the intersecting hole in the panel.

Intersecting Hole

Because of the size & weight of the bed, it should be installed in its actual place of use.

### Bed Assembly - Use Pack 'A'

### TIP:

BEFORE FITTING THE TV,  
PUSH CABLES THROUGH  
EACH DUCT FROM THE TOP.  
CHOOSE THE BEST SIDE TO  
USE DEPENDING ON WHERE  
THE CONNECTION PORTS  
ARE ON BACK OF YOUR TV.  
NEVER CROSS CABLES FROM  
ONE SIDE TO THE OTHER.

TV Power Lead  
supplied with your TV

**Note: For illustration purposes  
only, TV connections may vary.**

# TV Installation Kit - Separate Kit in Pack (A) - Normal Vesa Fixing

21

B  x6 C  x12

D  x1 E  x6

G  x6 J  x1

Bolt into centre of long holes

Stage  
22

D  x1 J  x1

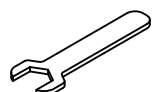

Carefully lay frame down. Make sure there is an even gap each side of about 8mm, as in the sketch.

Hold frame then tighten all six bolt sets 100% using spanner (J) & Allen key (D).

H  x2

J  x1

During this next step, the assistant should hold up the slat frame.

On side rails (3&4) slide gas-lift piston stems (X) onto the axles (Y) then fit the flange lock-nuts (H).

**Tighten nuts with spanner (J) - but DO NOT over-tighten. A small gap is left so stems can move freely - this is important - see sketch above.**

## Bed Assembly

Stage  
24

Note: Be very careful what you store under the bed - the top of an item, like a suitcase or a box, must not touch the slats or they shall be damaged. Maximum storage height is 260mm.

Stage  
25

## GENERAL INFORMATION

It is very important not to place any vessel containing liquids, e.g. drinks or vase of flowers, on top of the TV footboard which may accidentally spill and enter the TV compartment as this could cause damage to the TV and/or the TV lifting equipment.

If this happens, please contact Customer Services - ring 0344 292 00 00.

Do not expose the bed to an undue level of heat - keep away from radiators.

Never allow anyone to sit on the foot end of the bed - keep children well away from moving parts.

To keep the bed clean, we recommend that it be wiped over with a slightly dampened cloth or if fabric use a light vacuum cleaner; disconnect power before cleaning.

Supplied with the TV bed is a remote control to operate the TV Lift and when you fit your own TV there is a remote control to operate that as well.

Both these remotes use batteries, there are strict controls for disposal of batteries - your local council can advise on how to safely dispose of them.

Never burn batteries on an open fire as they could explode.

## IMPORTANT POWER INFORMATION

It is essential that the Mains Power Lead (15) is connected to an earthed socket be it a wall socket or extension lead - otherwise there is risk of damage or even electric-shock.

The socket providing the power must be accessible at all times in case you need to switch off the power quickly.

During an electrical or lightening storm - disconnect the power completely as a precaution.

Always un-plug the power when going on holiday or when the bed is not used for an extended period.

If you have young children in the home always disconnect the power at the wall socket for extra safety.

Power outlets, extension leads or adapters must not be overloaded beyond their limit - this can result in fire or electric shock. Cables leads supplied with this bed, or other approved mains powered extension leads used to power your own equipment, must not be placed where they can be walked on - this is dangerous and could lead to accidents.

Do not interfere with or modify any cables already fitted and do not add any extra media leads unless they are routed through the ducts as shown in Stage 8.

All leads must be tightly connected to back of TV using clips provided (18), never hanging loose.

Never touch moving parts or any part of the equipment - if something needs to be checked, disconnect the power first.

Do not insert anything into the footboard as this could seriously damage the TV and/or the TV lifting equipment and could, if done carelessly, cause serious damage or injury.

If the equipment doesn't operate normally or if there is an unusual noise, disconnect the power.

**IMPORTANT:** Care should be taken when connecting electrical items. If you are in any doubt about the connections please consult an approved electrician.

## TELEVISION INSTALLATION

Please follow the television installation instructions below.

Raise the TV Lift by pressing the Top button of the remote control.

Connect the Aerial & HDMI cable (16&17) by passing down the appropriate duct - see Stage 10.

Connect the TV to the mounting bracket as in Stage 11 or 12, as appropriate.

If necessary mounting bracket can easily be adjusted up or down to align with upper fixing holes on rear of TV.

Connect the TV Power Lead (supplied with TV) by passing plug down one of the ducts, plugging it into the adapter then into the TV power socket which is on the face of footboard - see Stage 14. This socket is only to be used for the TV as the supply is not constant.

If required, connect your own media cables through either of the ducts - connect your media equipment when ready.

Please use the cable clips (18) & cable ties (19) to make certain there are no loose wires to snag.

The TV can now be operated following the TV Operation Guide supplied with your TV.

When finished viewing, lower the TV back into the footboard by pressing Down button of the remote control.

The TV will retract into the footboard automatically - power shall be turned off when TV reaches the bottom.

When the Up button is pressed - the TV Lifting Column rises and power to the TV turns back on automatically.

## TROUBLE SHOOTING

If your equipment does not operate please check all the power connections to the wall and to the socket in the footboard.

Make sure TV is switched on. (Note: TV will only work when it is in the up position).

If you cannot resolve an issue or still have a problem or need help, please contact Customer Services for advice.
