- **Do not attempt to lie on the mattress when the bed is in the raised position.**
- **Note:** The bed uses an electric motor system , please treat it with respect.
- **Maintenance:** Regularly inspect your bed to ensure it is functioning correctly

Thank you

Hello, thanks for choosing to purchase your bed from Dreams - you're now on your way to your best ever night's sleep. Before you begin building your bed, please take a moment to read through the instructions and make sure that you've got all the relevant parts listed on the following pages.

Assembly tips

Before you begin, it's best to identify all parts and fittings to build your bed. We advise laying these out on the floor to check you have everything, and familiarising yourself before building.

Top tip

We recommend that you build your new bed in the room you'd like it to be located - this will help prevent any risk of damage to your newly built bed whilst moving it.

Safety and care

It's really important to ensure children and animals are kept away from the assembly area, as there are small components used in this bed which could present a choking hazard. All plastic and wrapping materials should also be kept away from children and animals to prevent any risk of suffocation.

Help and support

At Dreams, it's our mission to give the whole nation a great night's sleep - this means that the quality of our products is of utmost importance to us. If there are any issues with your product or any missing parts, please contact our Help Centre on 0800 652 6750, where a member of our team will be happy to help. (For customers based in Northern Ireland, please call 028 9050 8300)

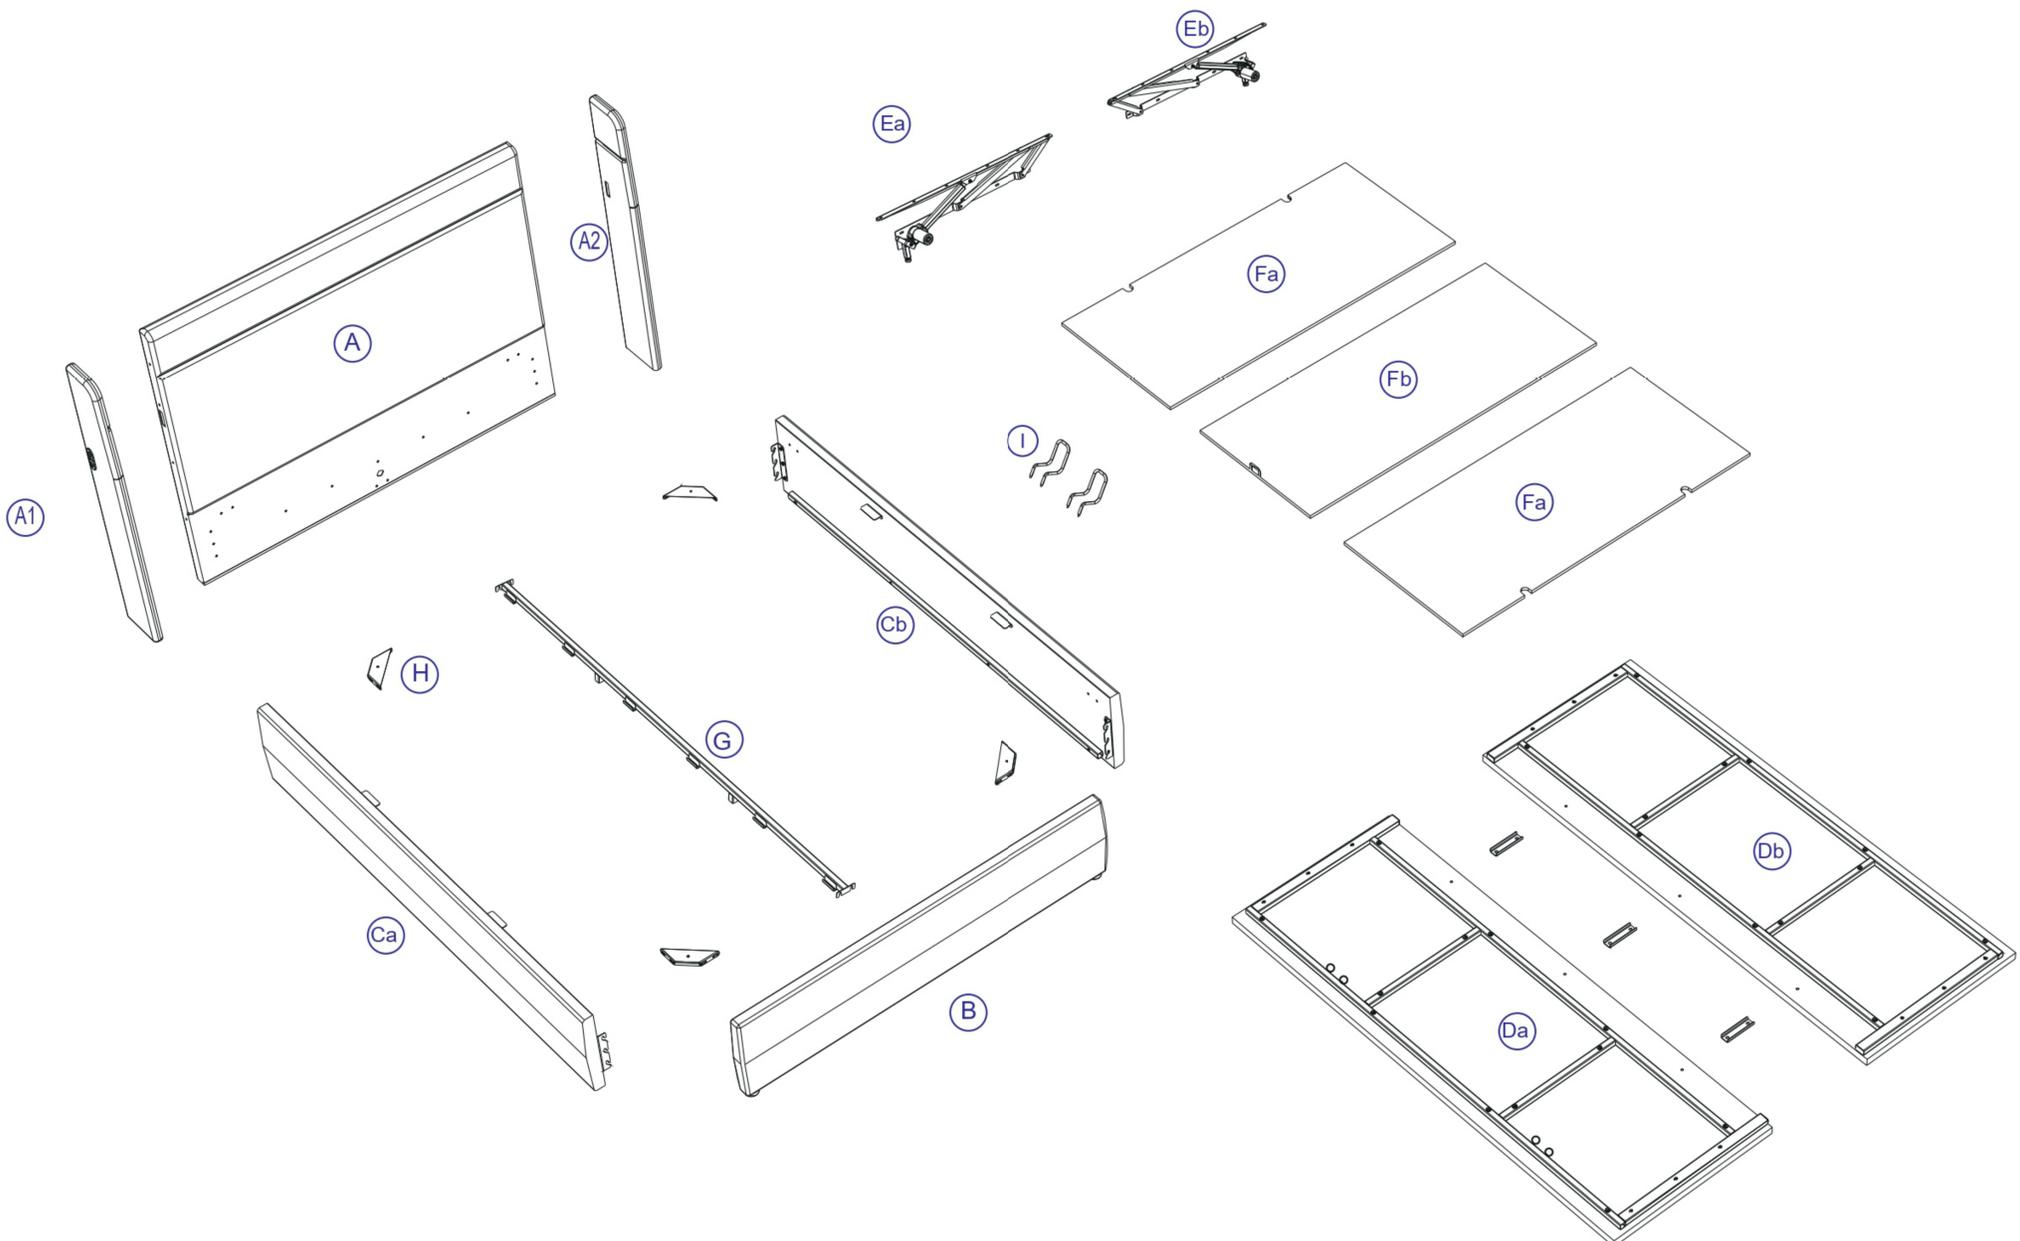

Recycling

Please ensure that packaging is disposed of in a safe and environmentally friendly way, and recycle where possible. Our assembly instructions are printed on recycled paper. Please keep your assembly instructions safe to refer back to in the future.

Parts

Important information

The bed you have purchased comes with lift-up base operated by electric motors, please follow the instructions in the current order. To prevent accidents, carefully read the safety warnings for this bed, on page 2 of this guide.

Fittings

Please check you have all the parts listed below with your product.

PLEASE NOTE: There are bolts which have been pre-fitted to the headboard & footboard (A&B) that are not included below.

Packed in Electric Lift Mechanism carton Pack 5 - hardware pack

Tools Required

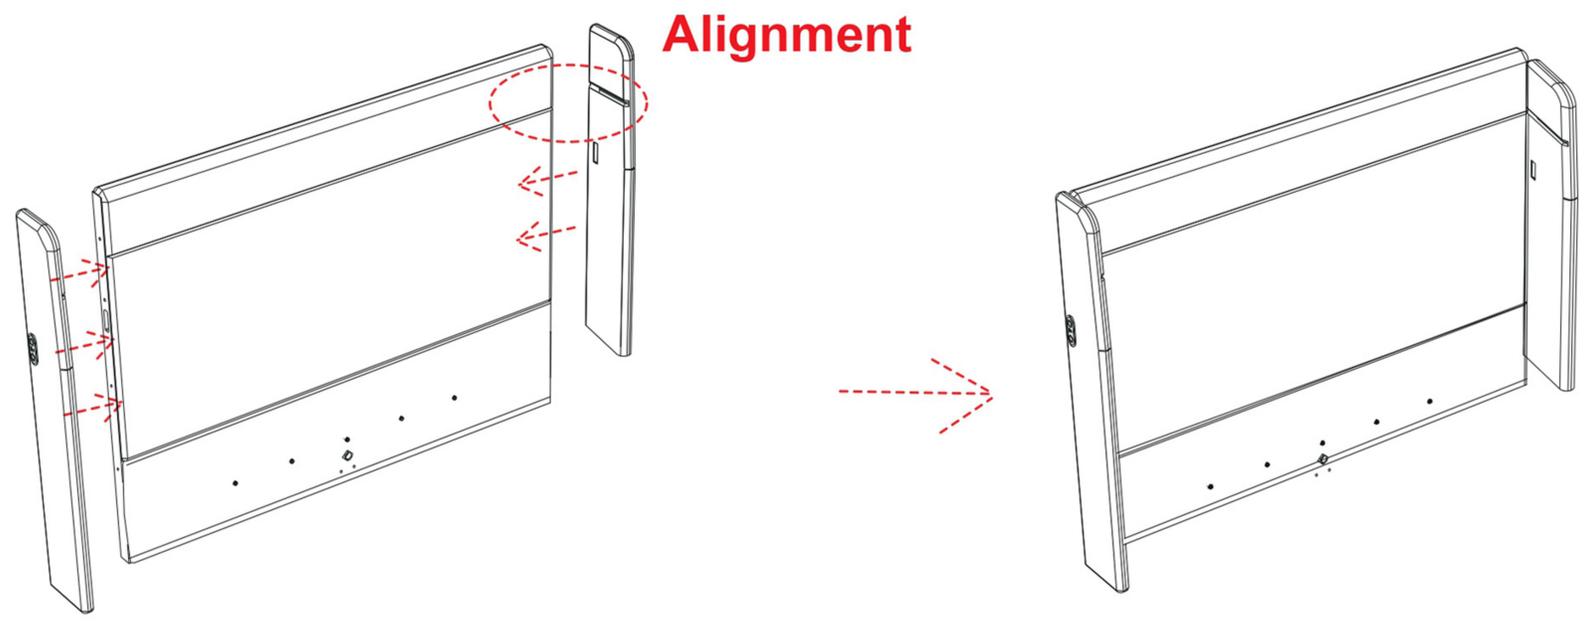

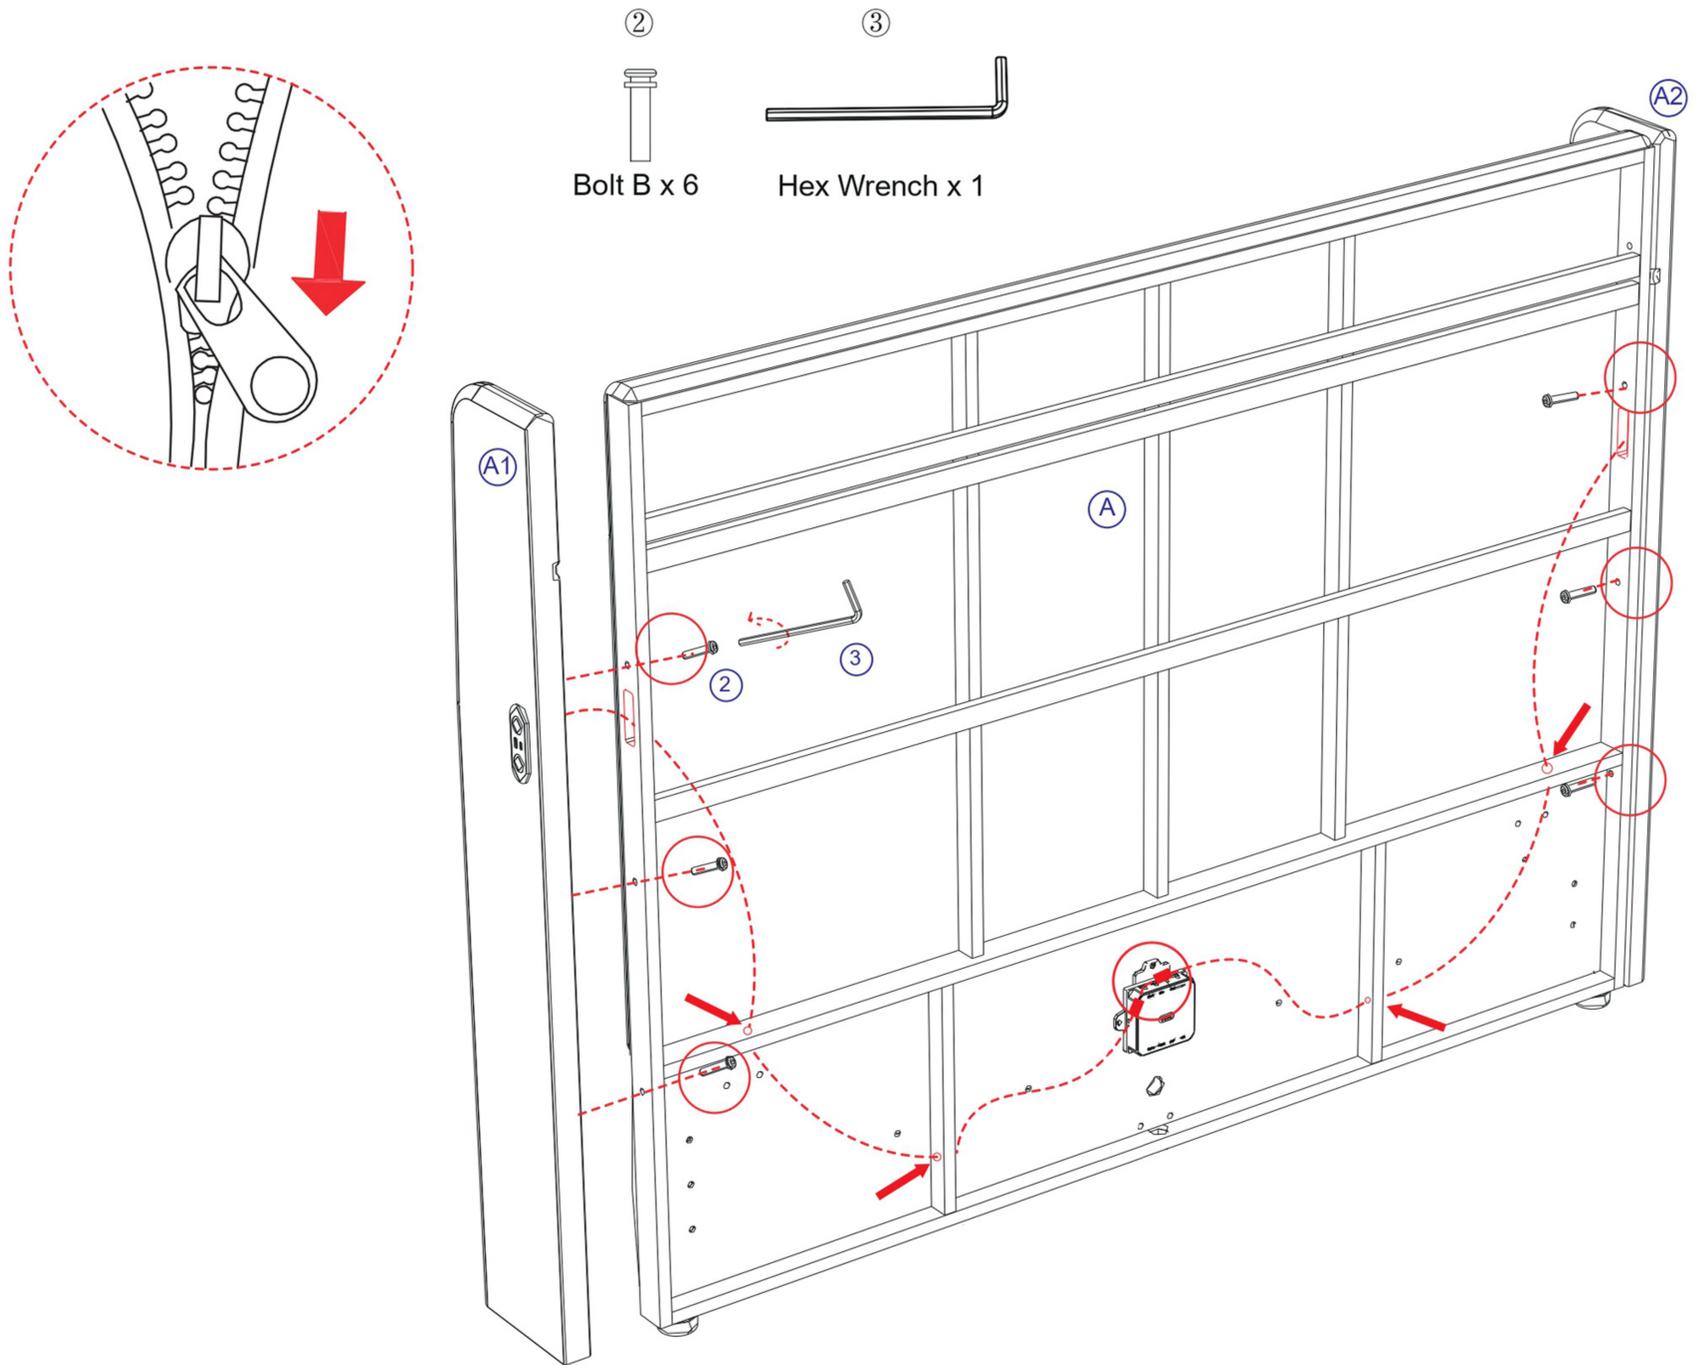

Tape measure

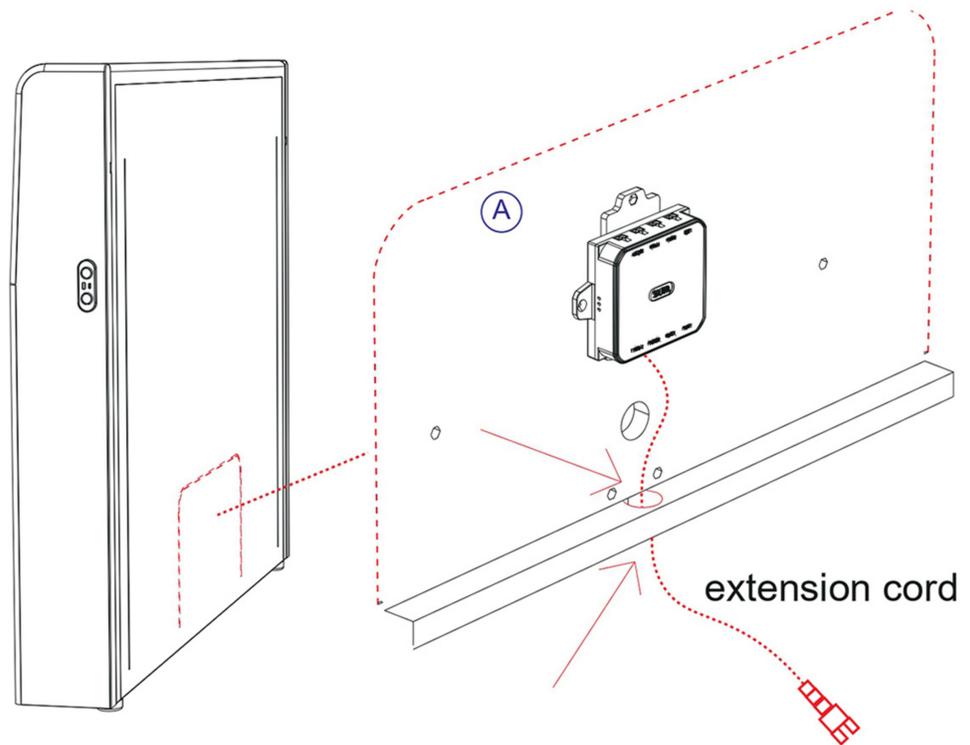

Cross head screwdriver

- 1 Install the two headboard wing (A1&A2).
 - ① Connect the cables on both sides to the control box behind the Headboard (A) according to the diagram below (according to the color labels on the cables)
 - ② Securely fasten the headboard wing with screws.

2

Pull the extension cord on the control box out through the hole at the bottom of the headboard.

3 **Please secure the two Side Rails (Ca & Cb) to the Headboard with screws. Please do not tighten 100% yet.**

①

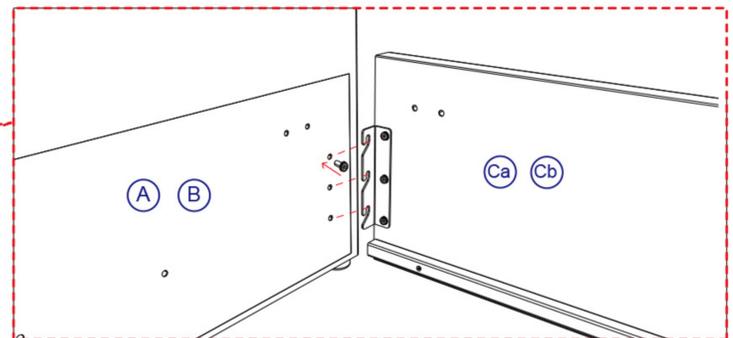

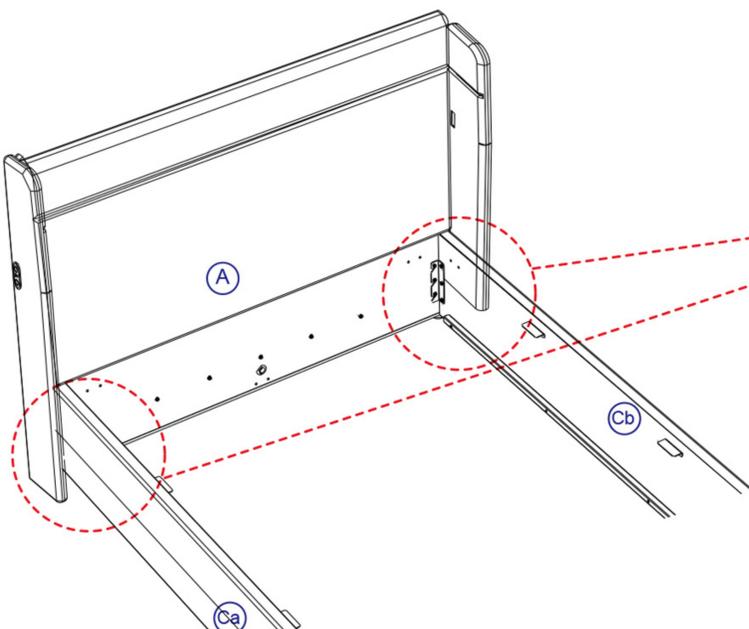

Bolt A x 6

③

Hex Wrench x 1

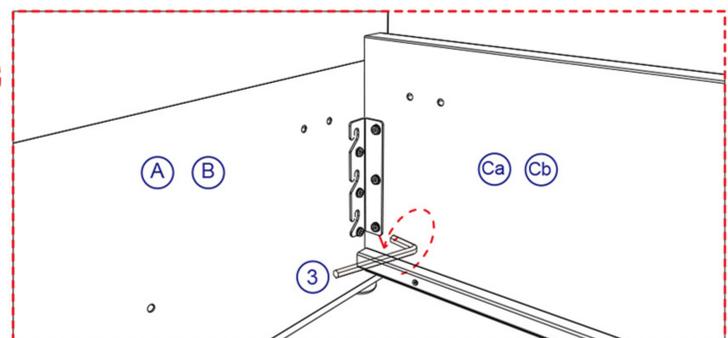

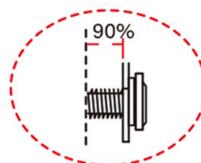

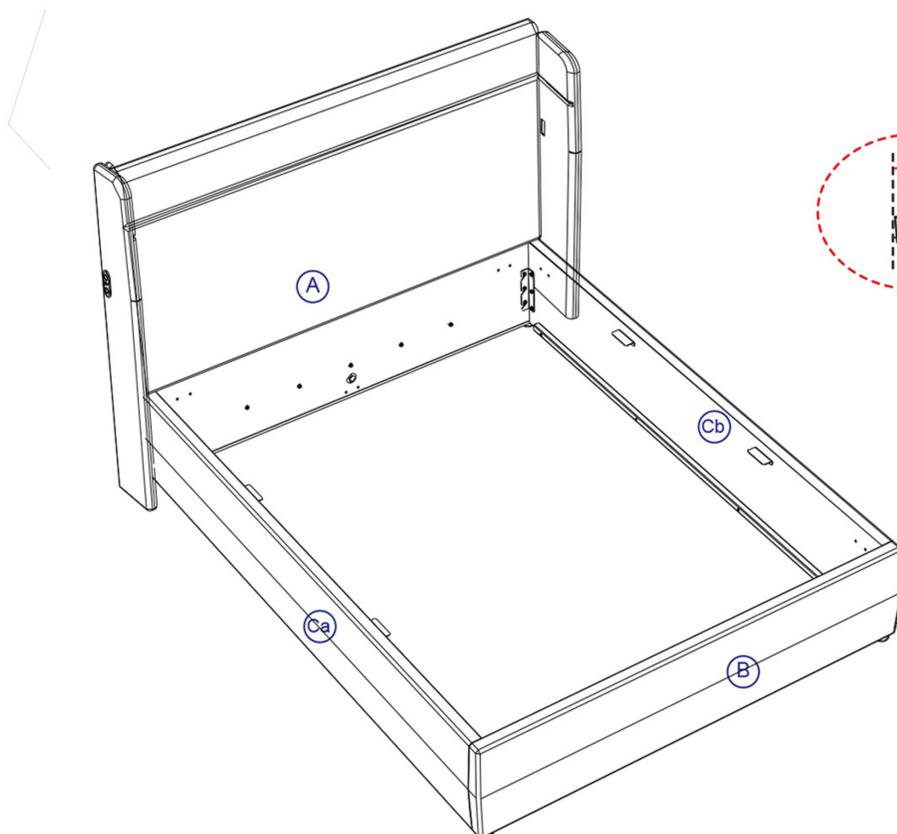

4

Install the Footboard to the two Side Rails. The screws are prefitted on the footboard, please first loosen the screws to a position suitable for assembly. Then tighten all the screws.

①

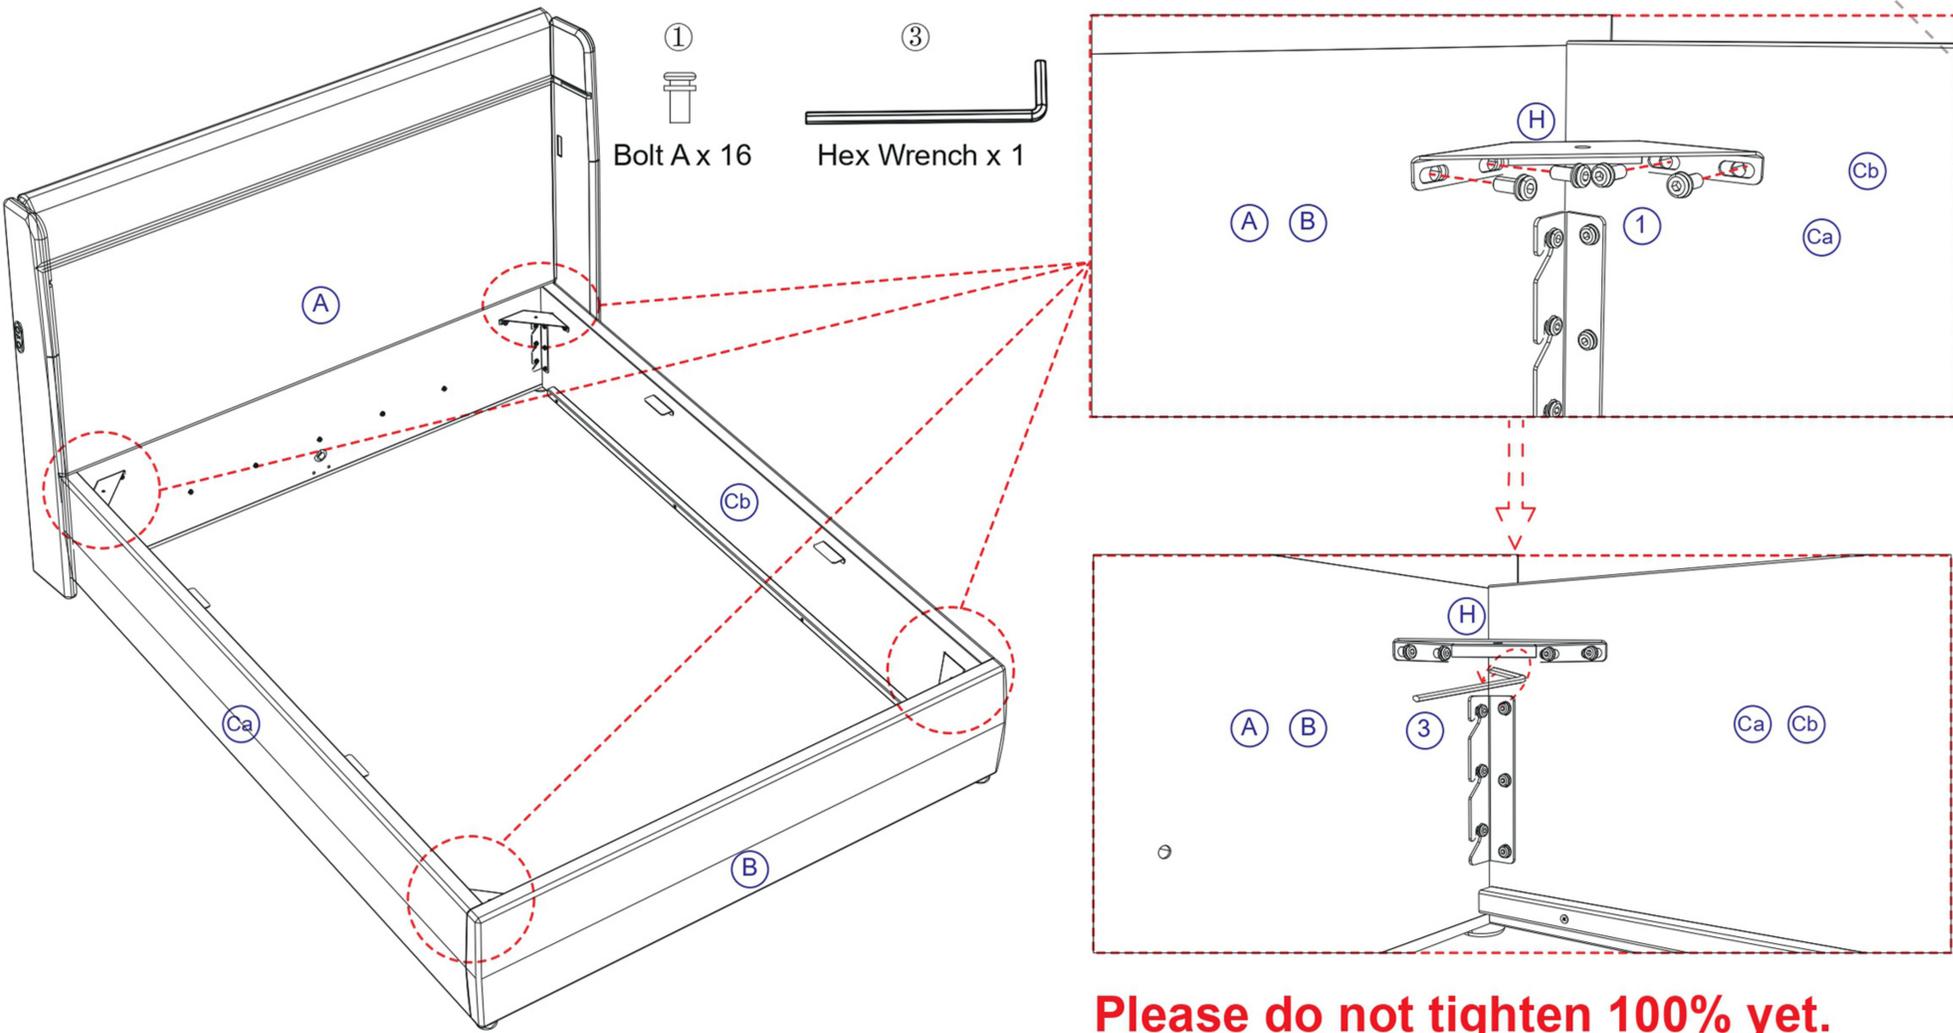

Bolt A M8*25 X 6
(pre-fitted)

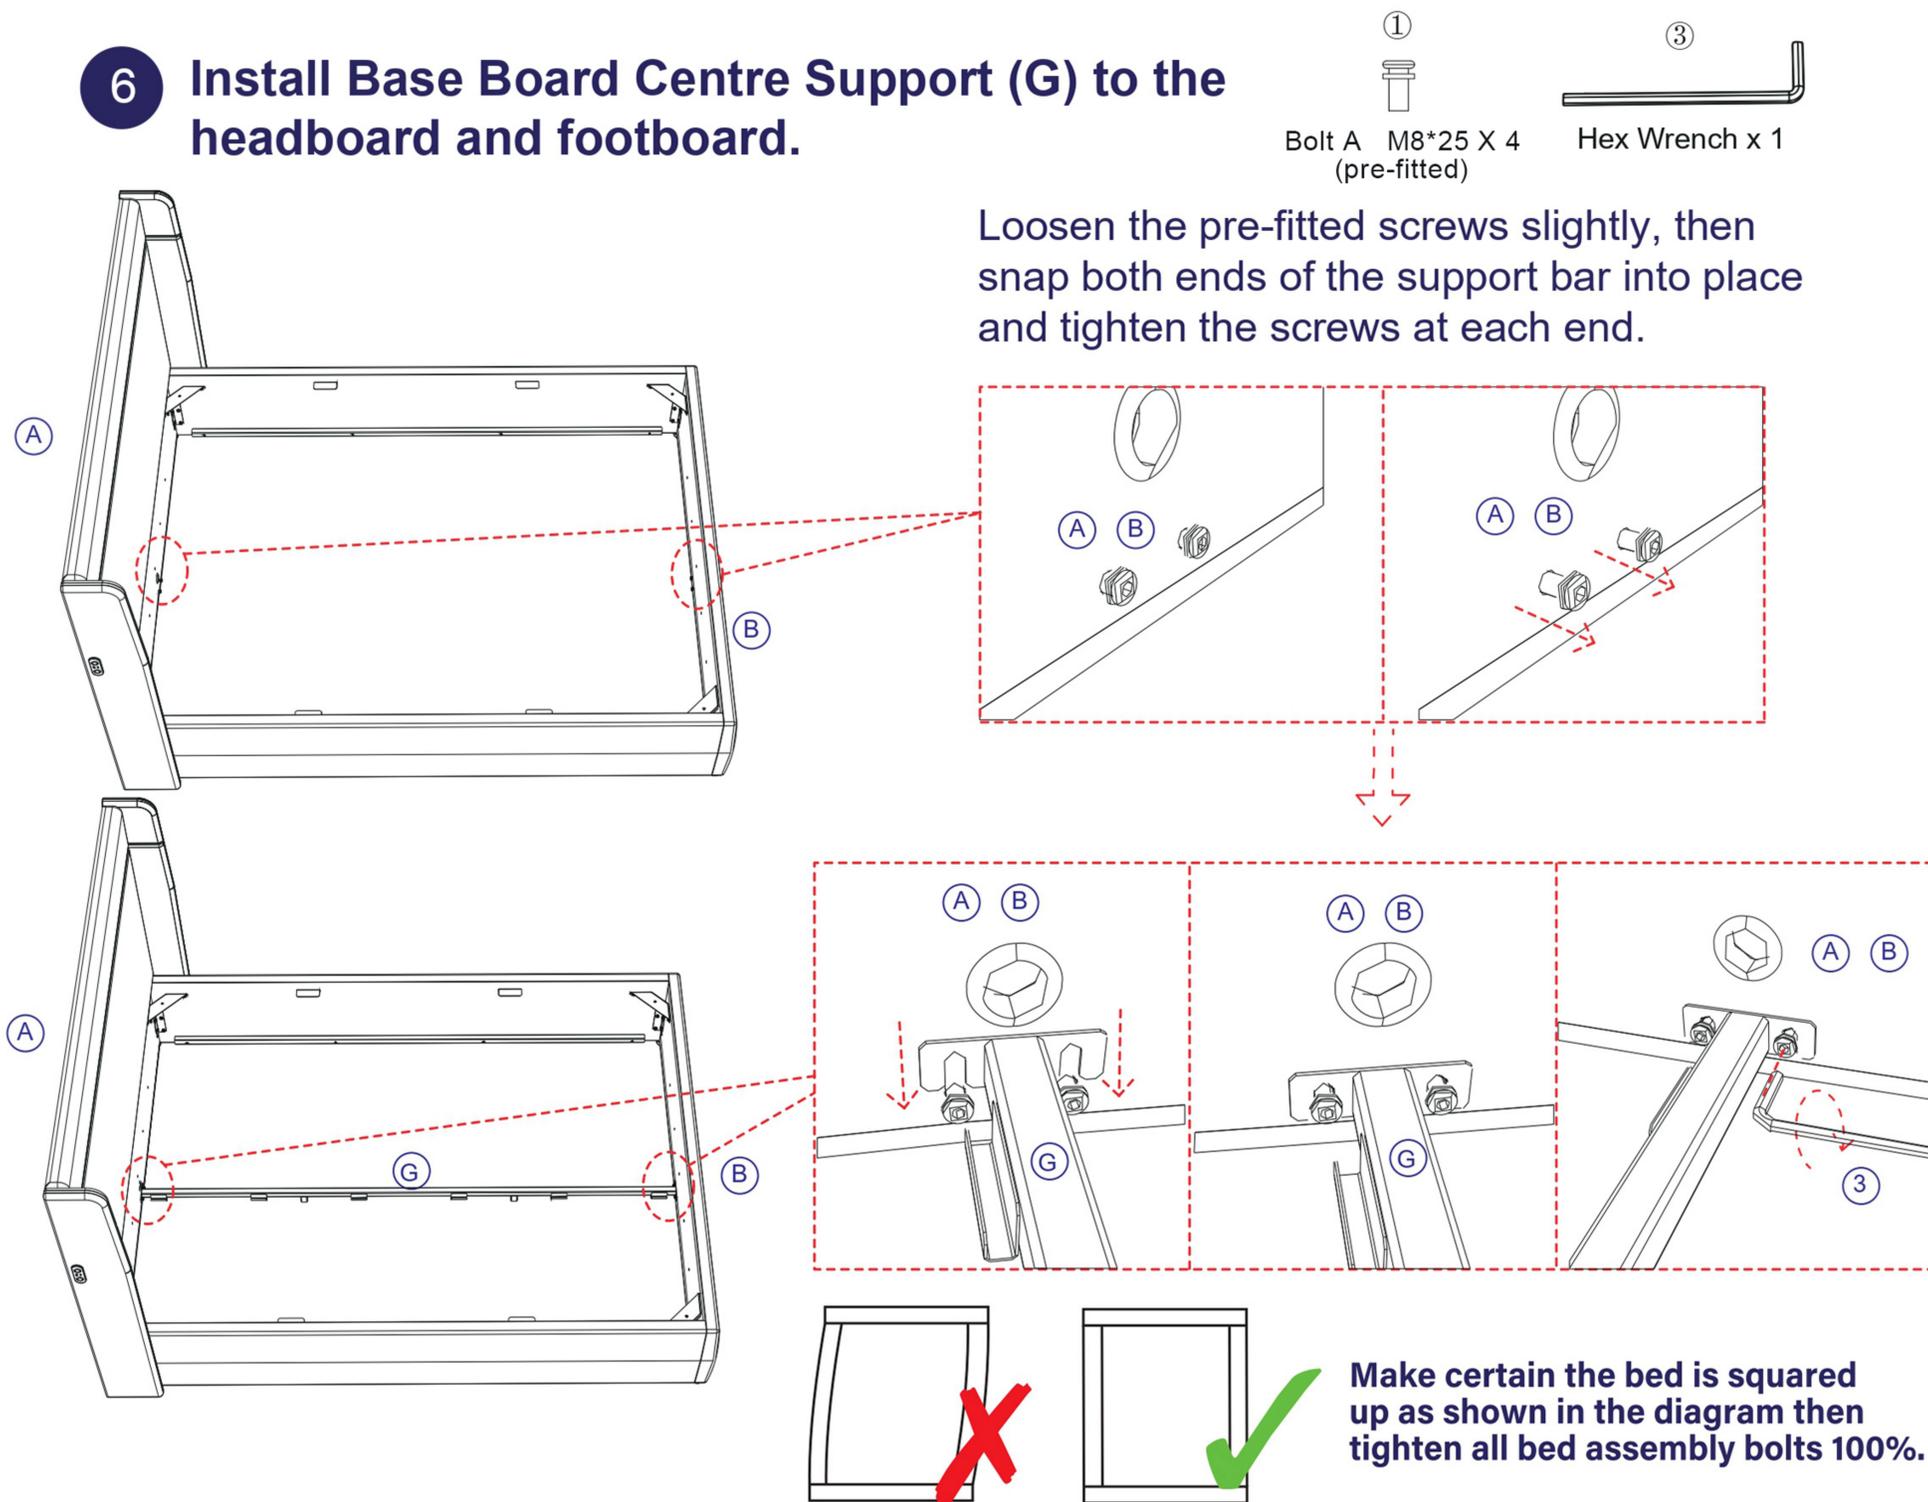

5

Install the Corner Plates.

6

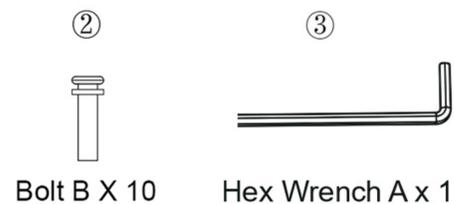

Install Base Board Centre Support (G) to the headboard and footboard.

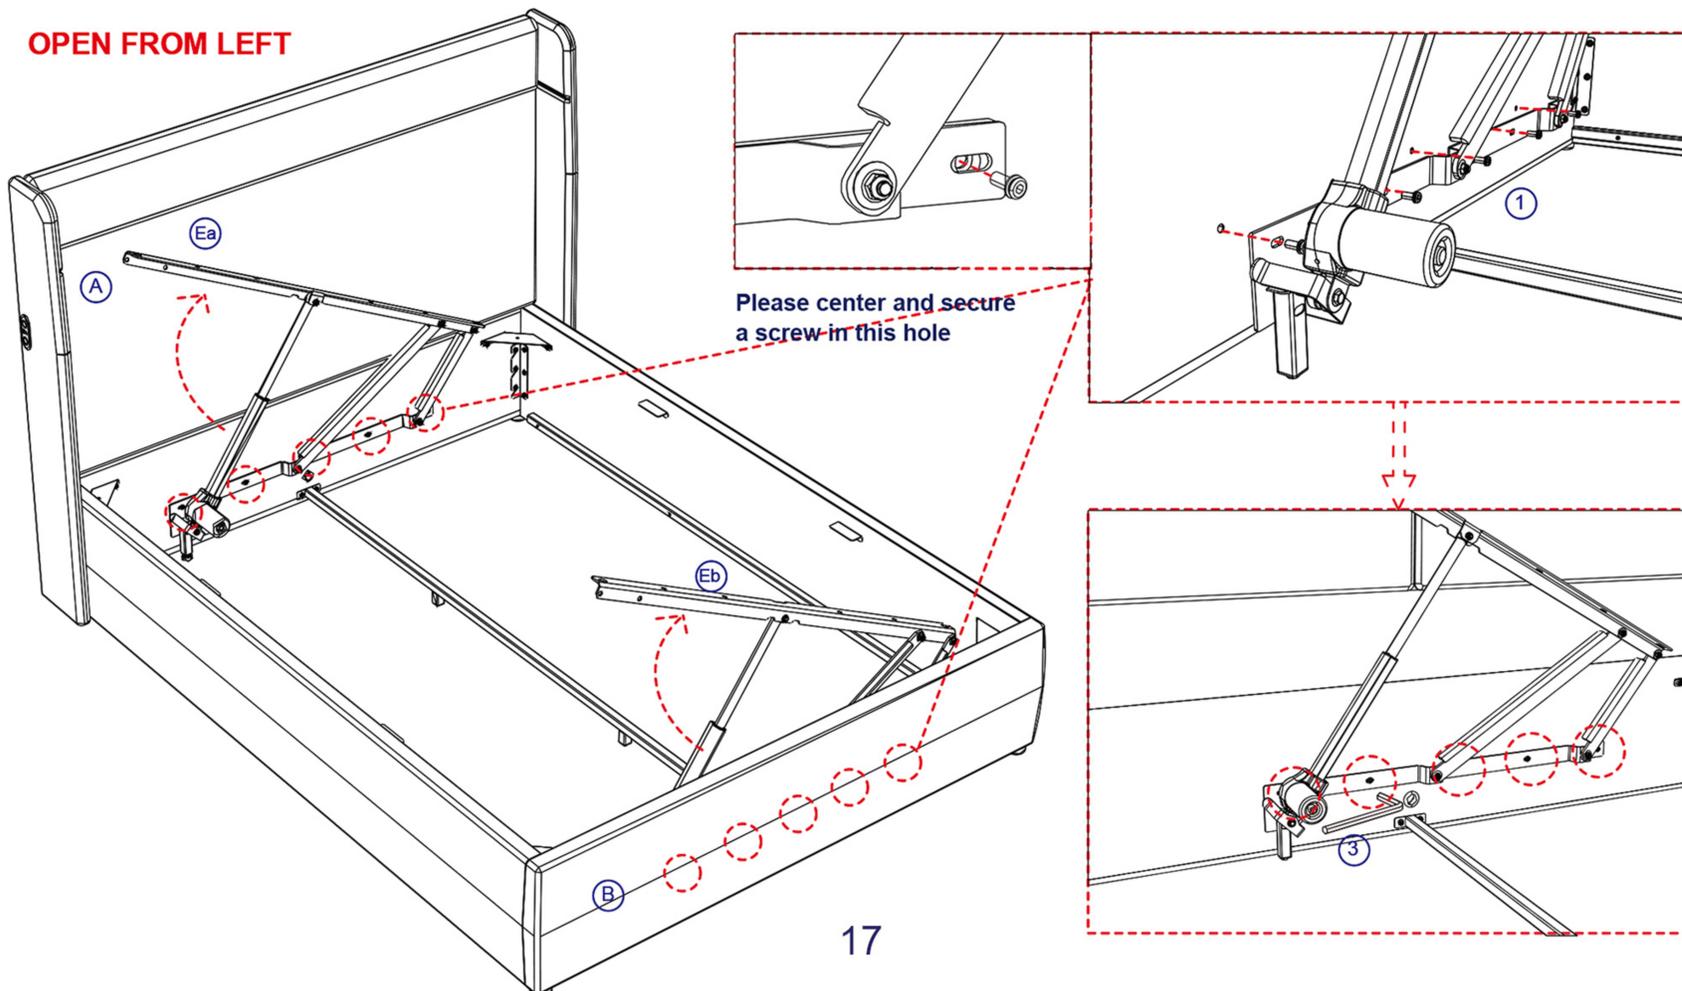

7a

Follow these instructions if you want to lift the base up from the LEFT side of the bed.

Install the Electric Lift Mechanisms (Ea&Eb) to the headboard and footboard. Please pull up the bracket to allow screw fastening.

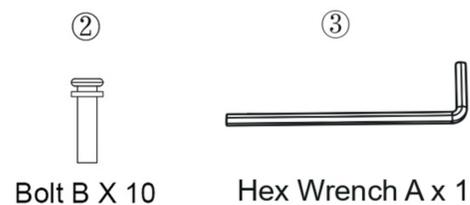

OPEN FROM LEFT

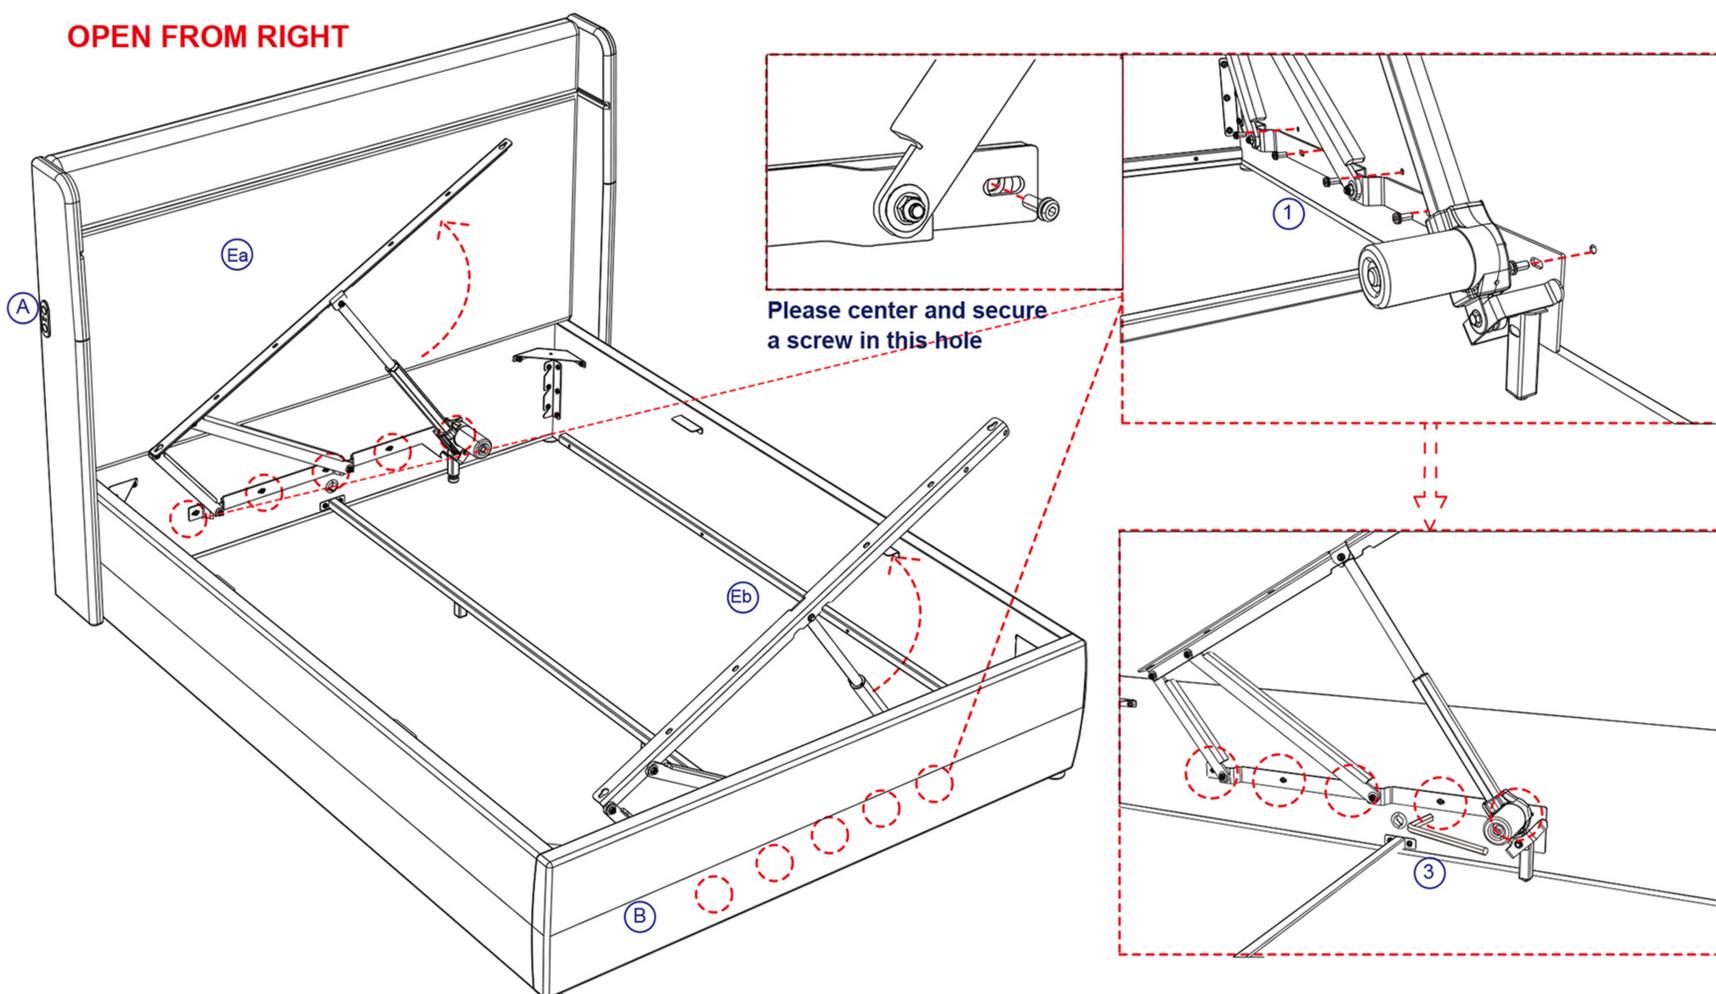

7b

Follow these instructions if you want to lift the base up from the RIGHT side of the bed.

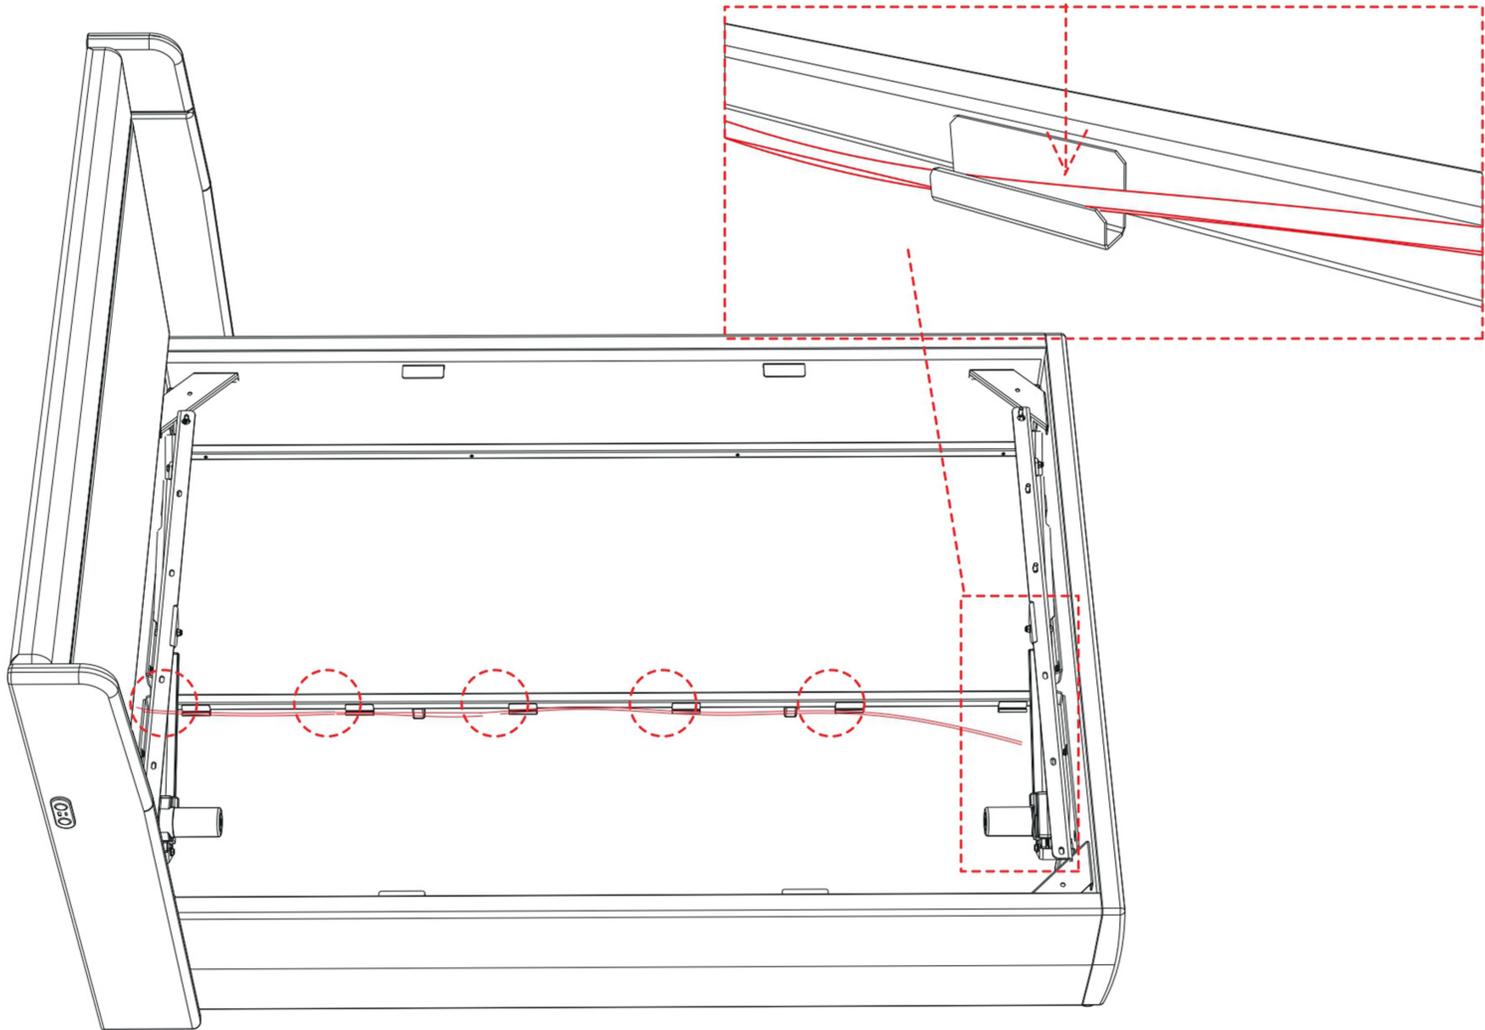

Install the Electric Lift Mechanisms (Ea&Eb) to the headboard and footboard. Please pull up the bracket to allow screw fastening.

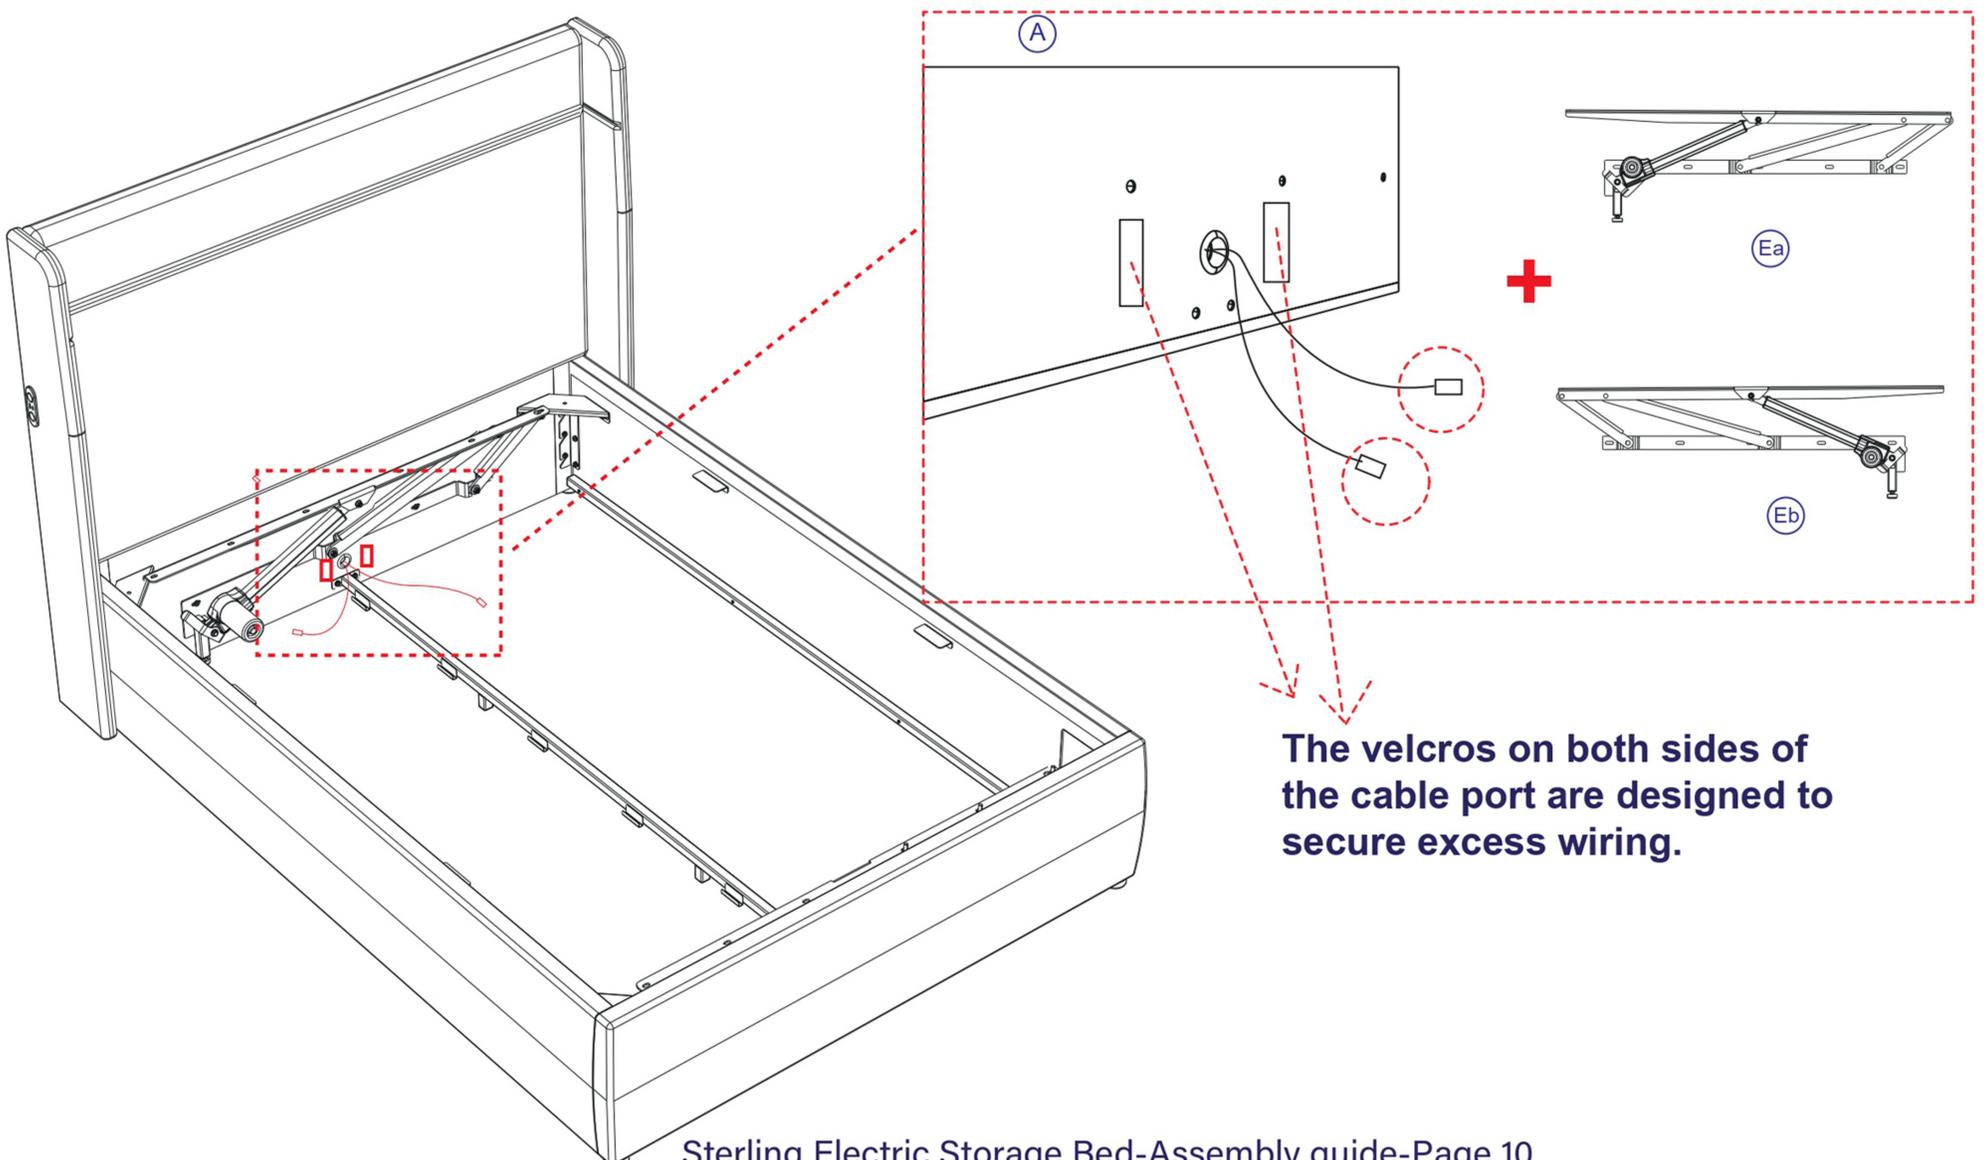

OPEN FROM RIGHT

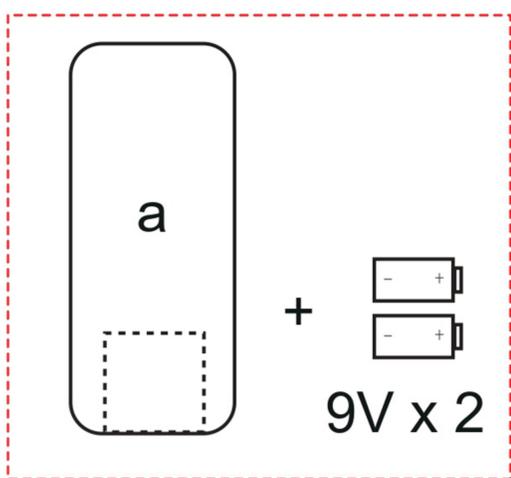

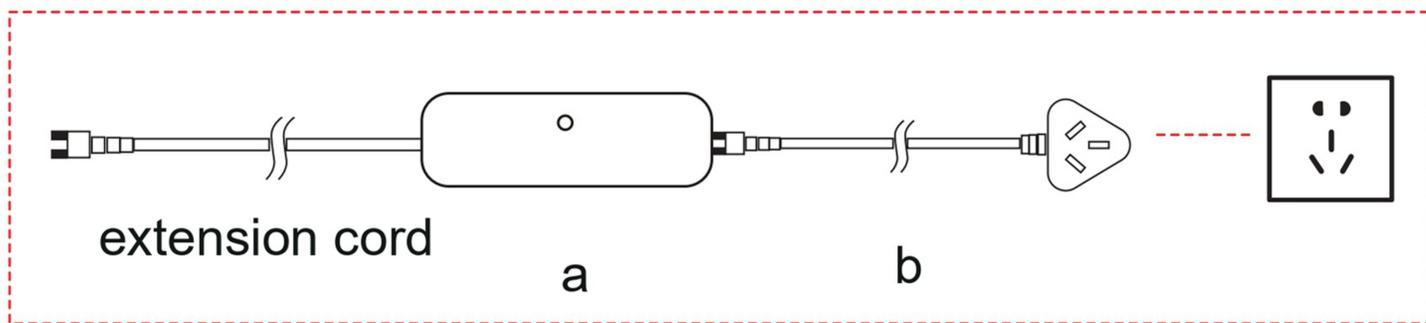

- 8** Place the cable of the lift mechanism on Footboard into the metal slot.

- 9** Connect the two cables from the lift mechanism to the corresponding wires at the cable port (no need to distinguish between the back and foot motor).

- 10** Please connect the extension cord to the transformer, and then connect the power. And raise the lift mechanisms to its highest position. For operation instructions, please refer to **STEP 18 OPERATION GUIDE**.

⚠ Emergency Lowering

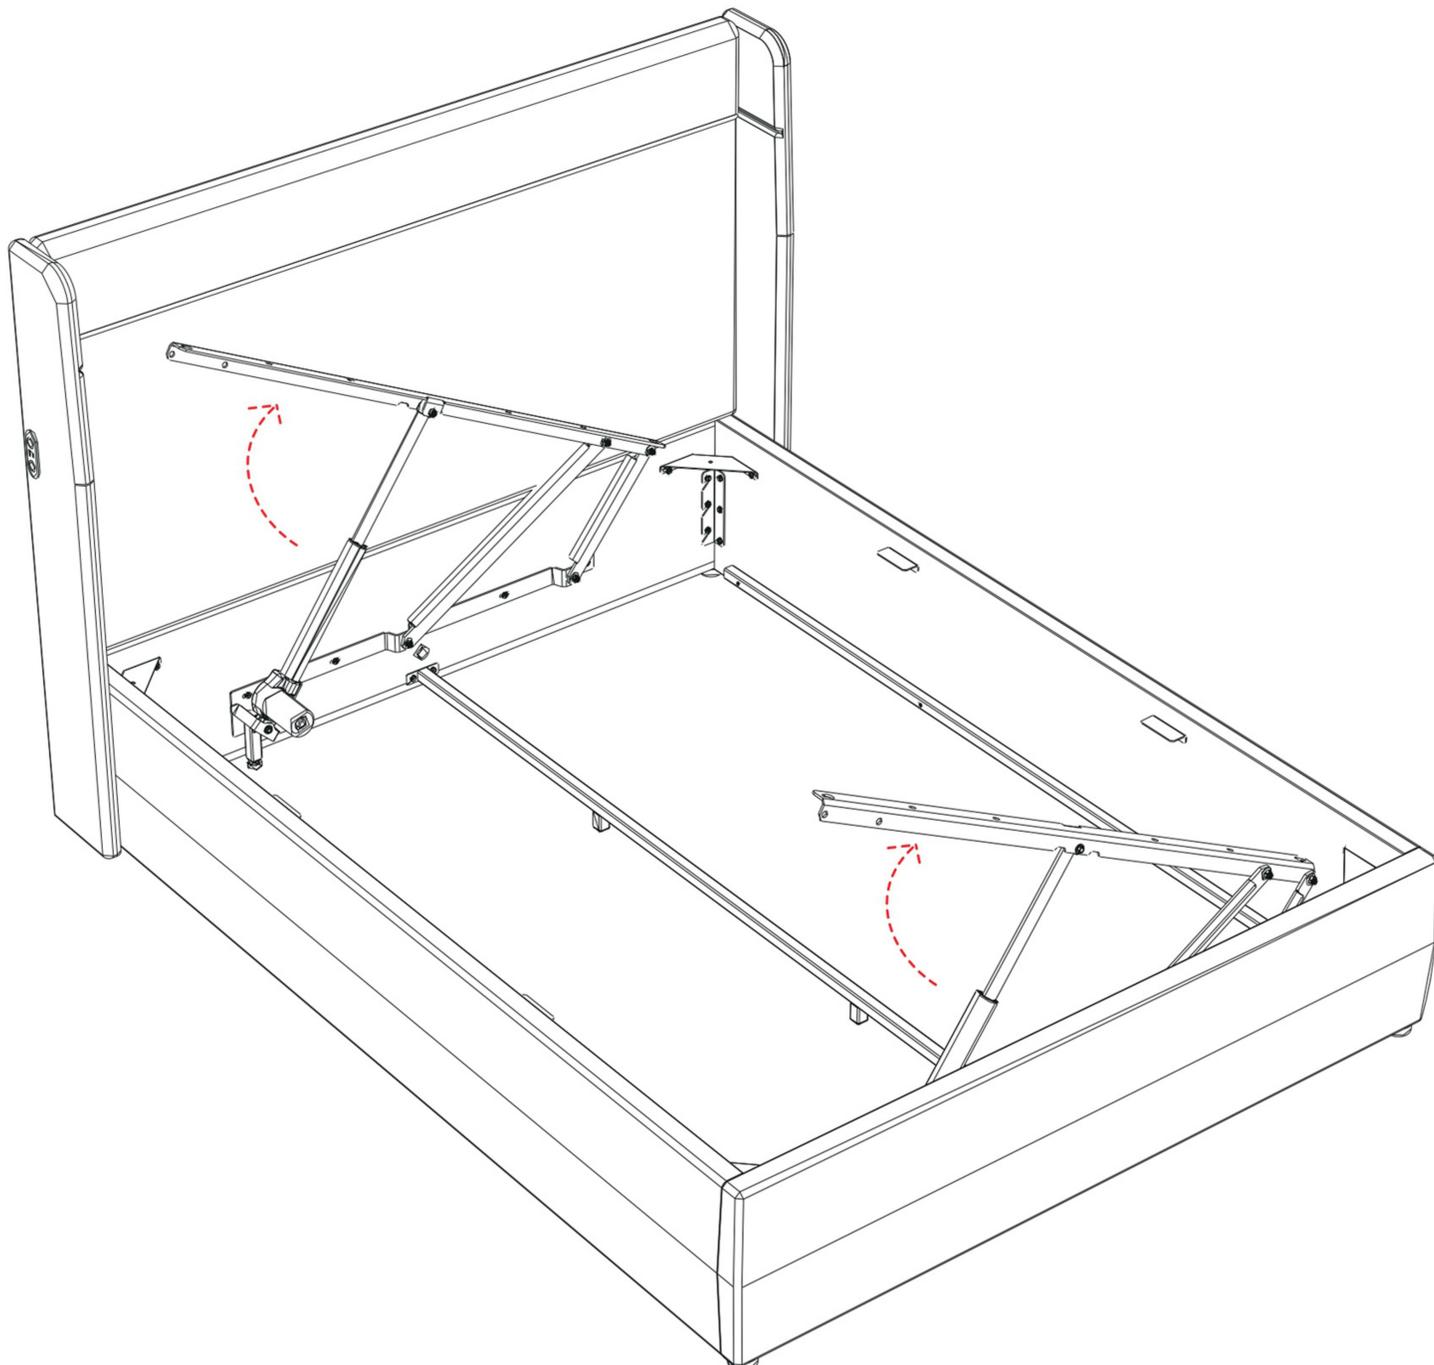

Notes:

The transformer is equipped with two battery slots for emergency use. In case of a power cut, install two 9V lithium batteries in the transformer to maintain operation.

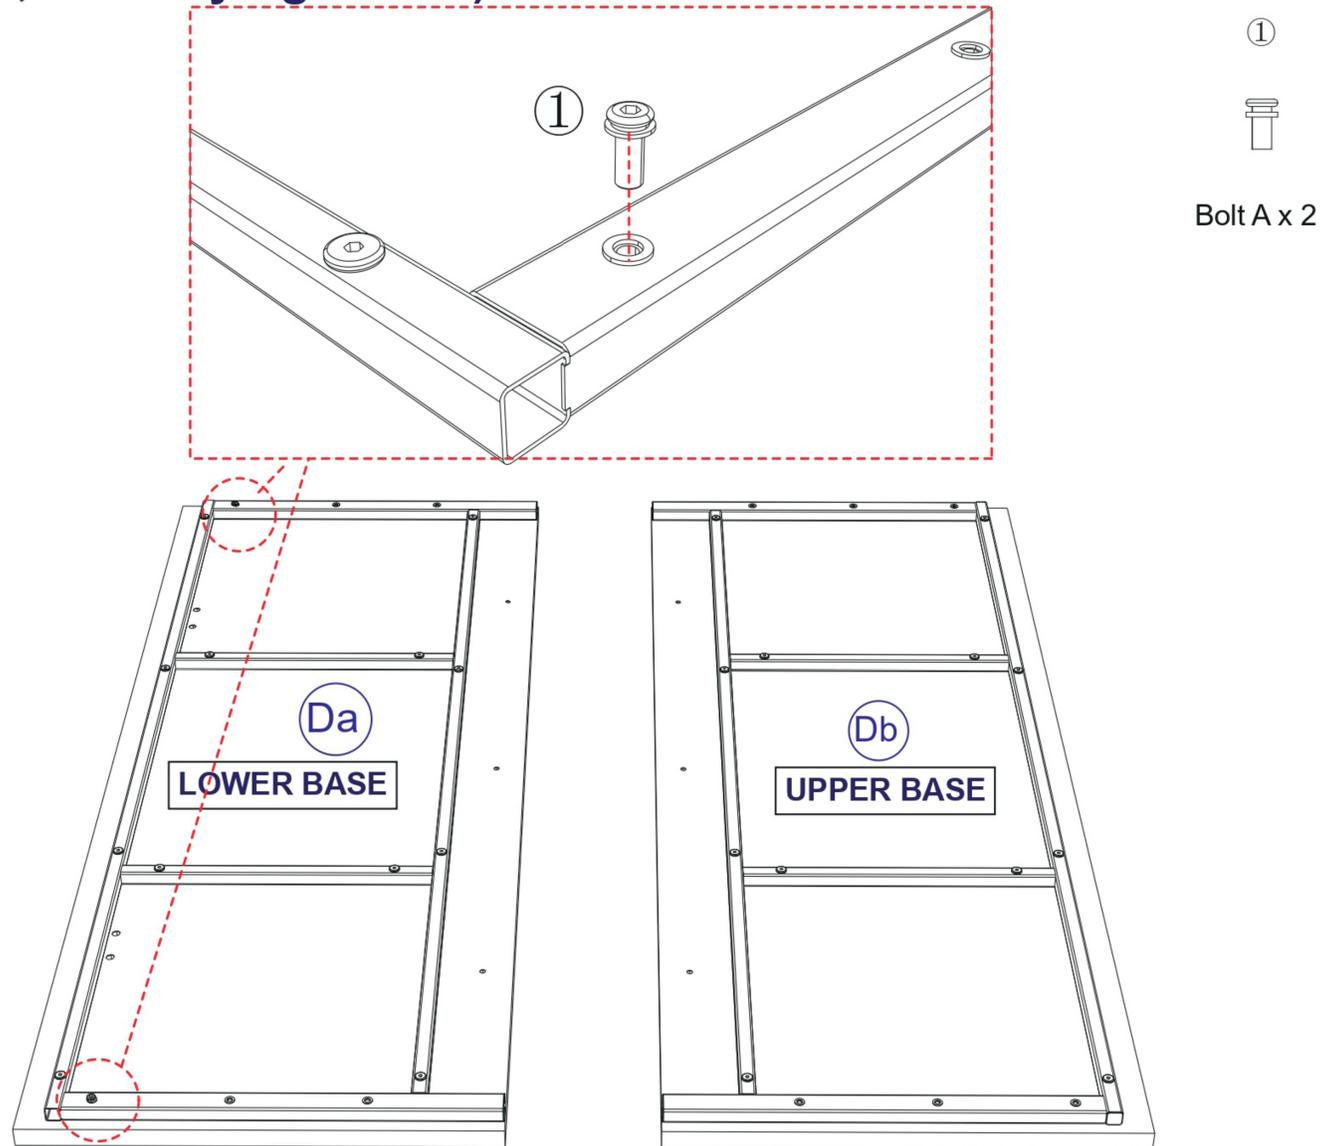

OPERATION GUIDE - See step 18

For safety, the system is always locked.

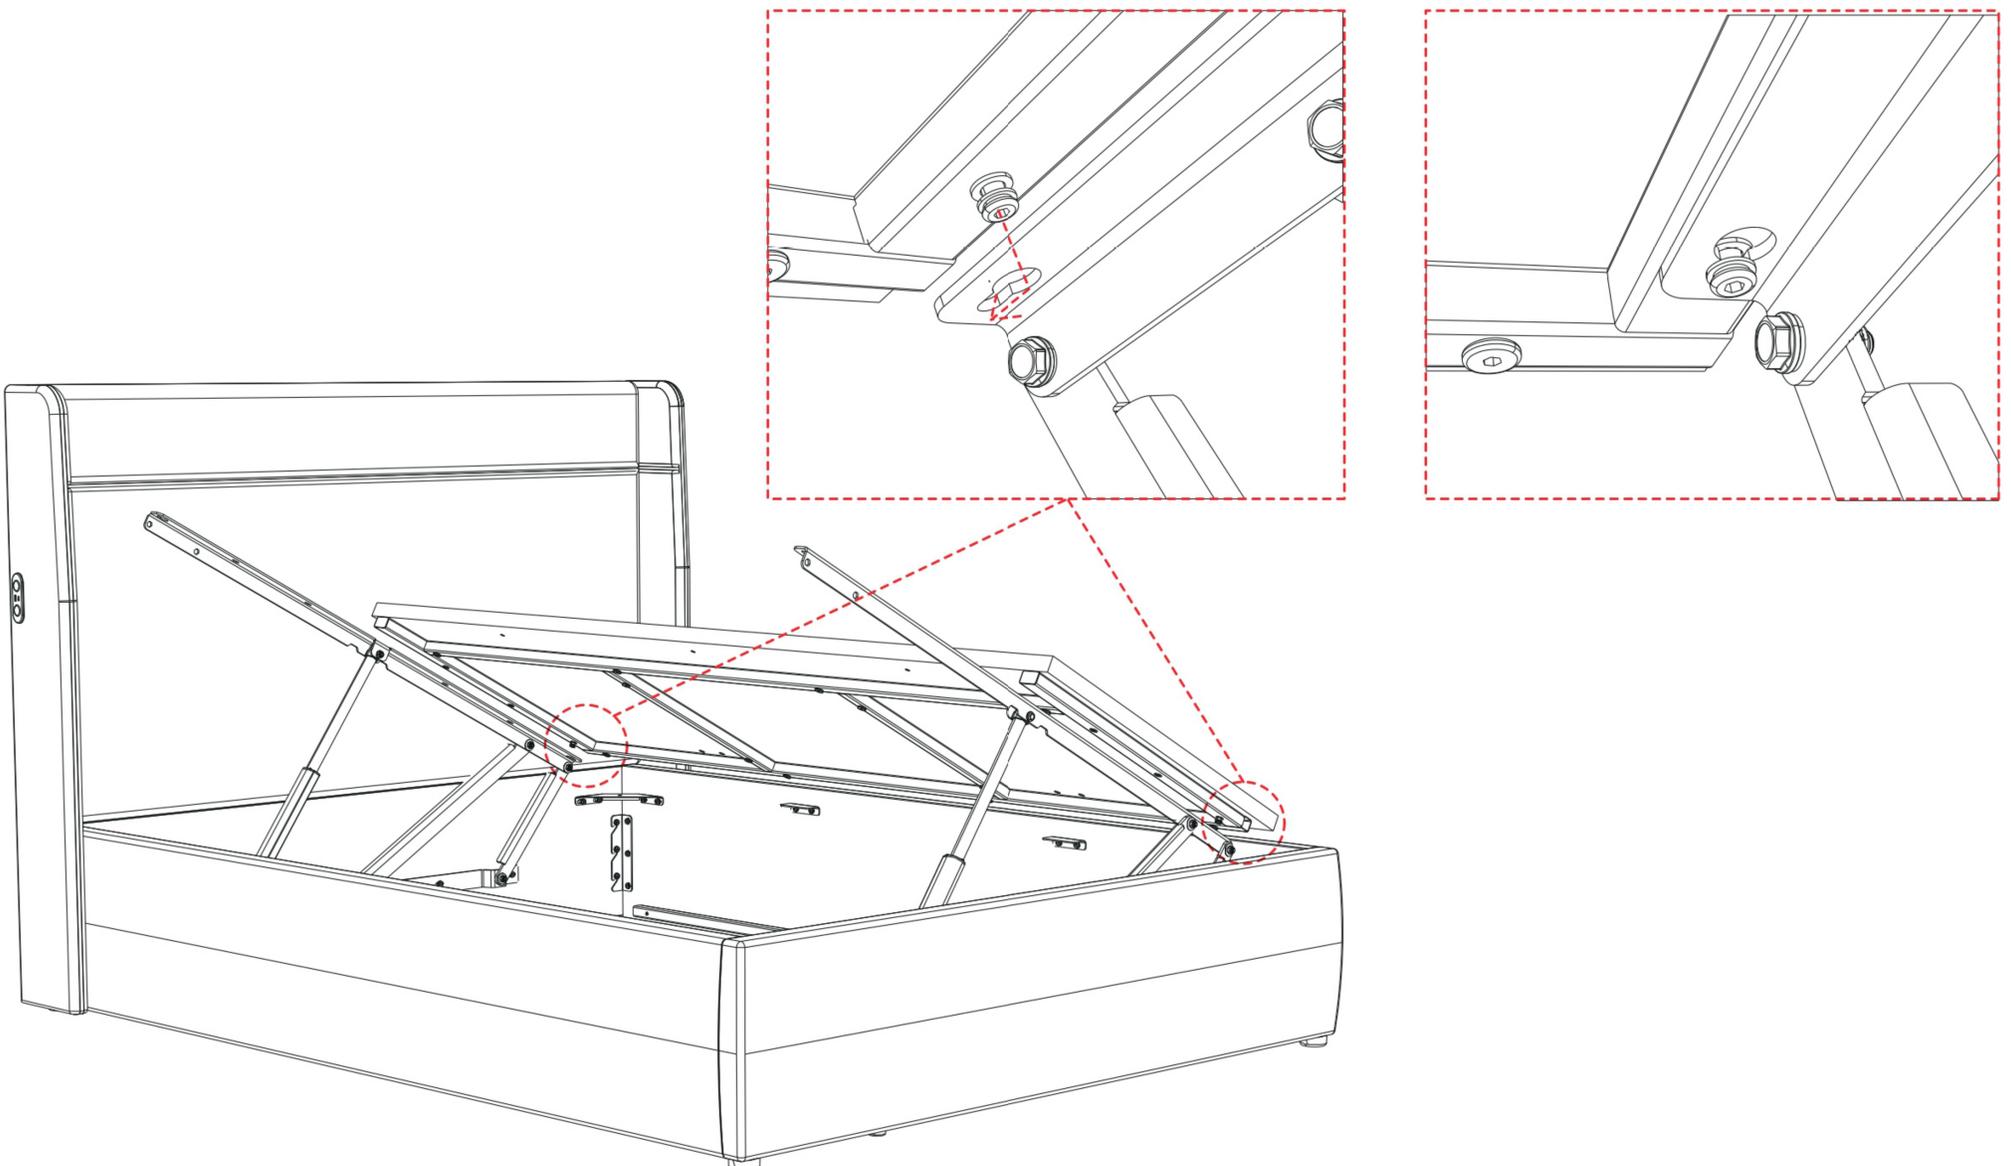

On each side of the headboard is a control station with two buttons. Please refer to Step 17 and read the instructions carefully.

- 11** Please first secure the two screws in the first holes on the two side of lower base (the screws need only be held in place, not fully tightened).

- 12** Please hang the lower base onto the teardrop-shaped holes on the support arms.

13 Tighten the remaining four screws on the lower base. Then place the upper base and fasten the all screws.

①

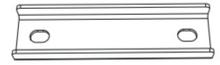

Bolt A x 16

③

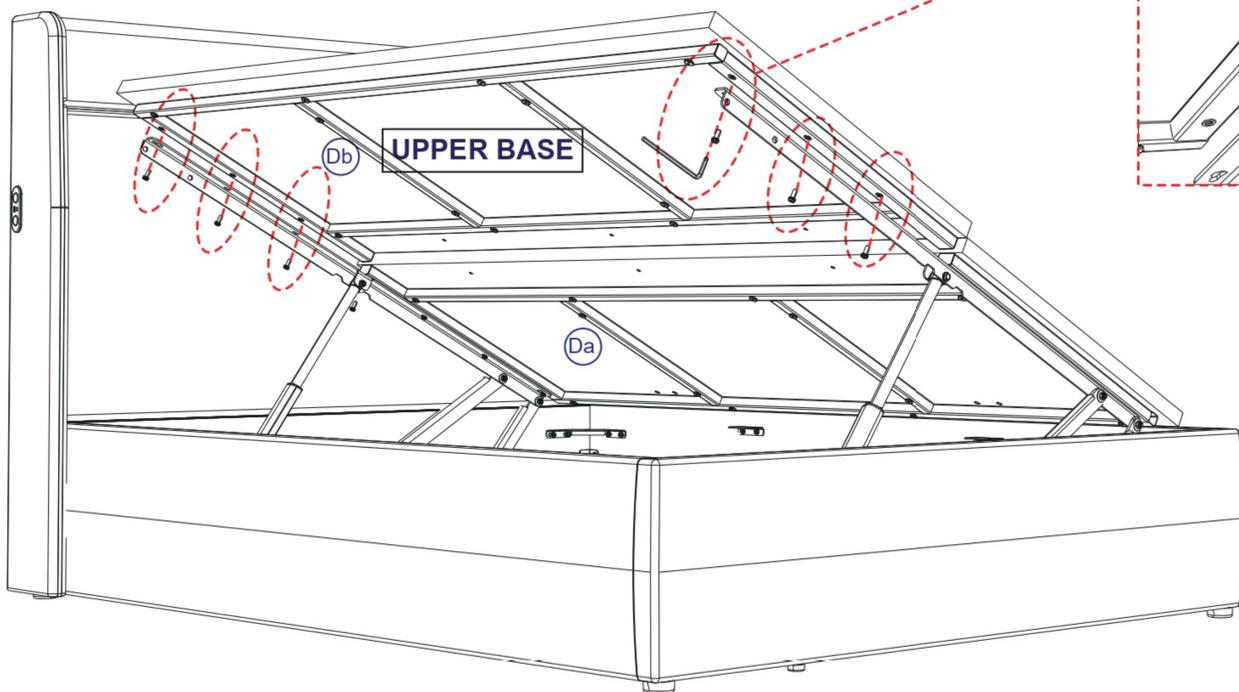

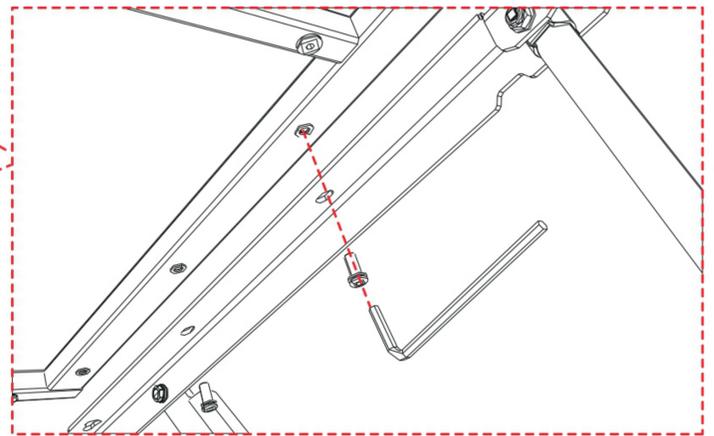

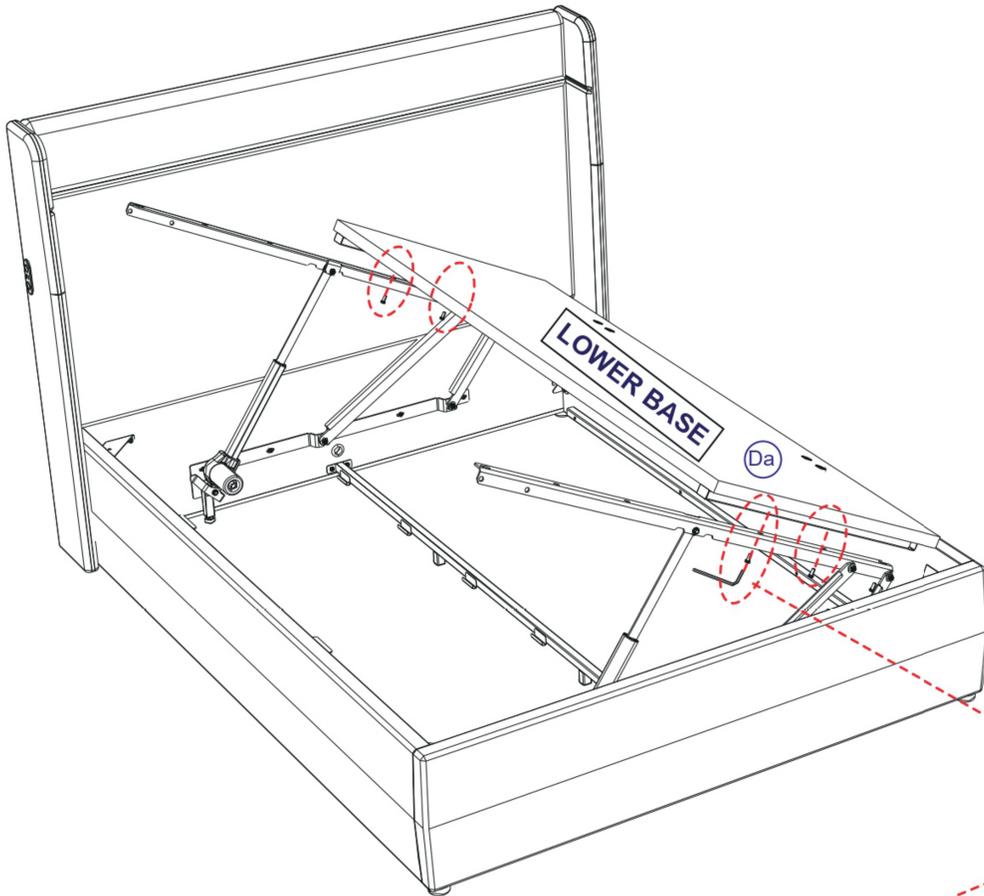

Hex Wrench x 1

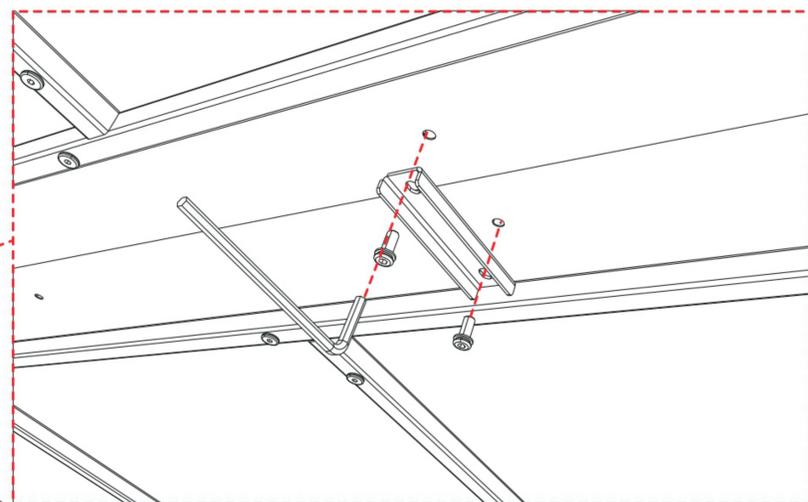

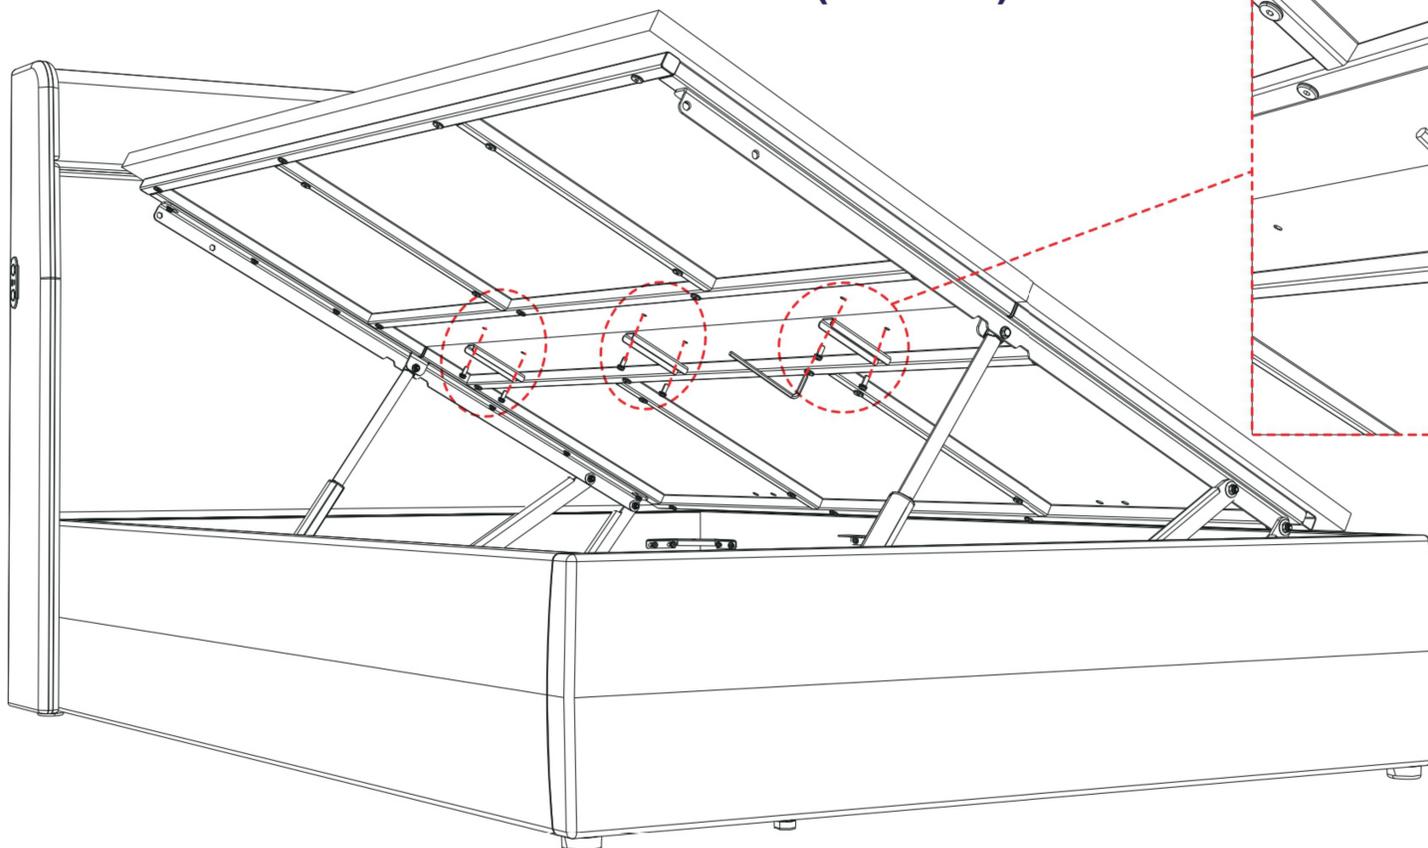

④

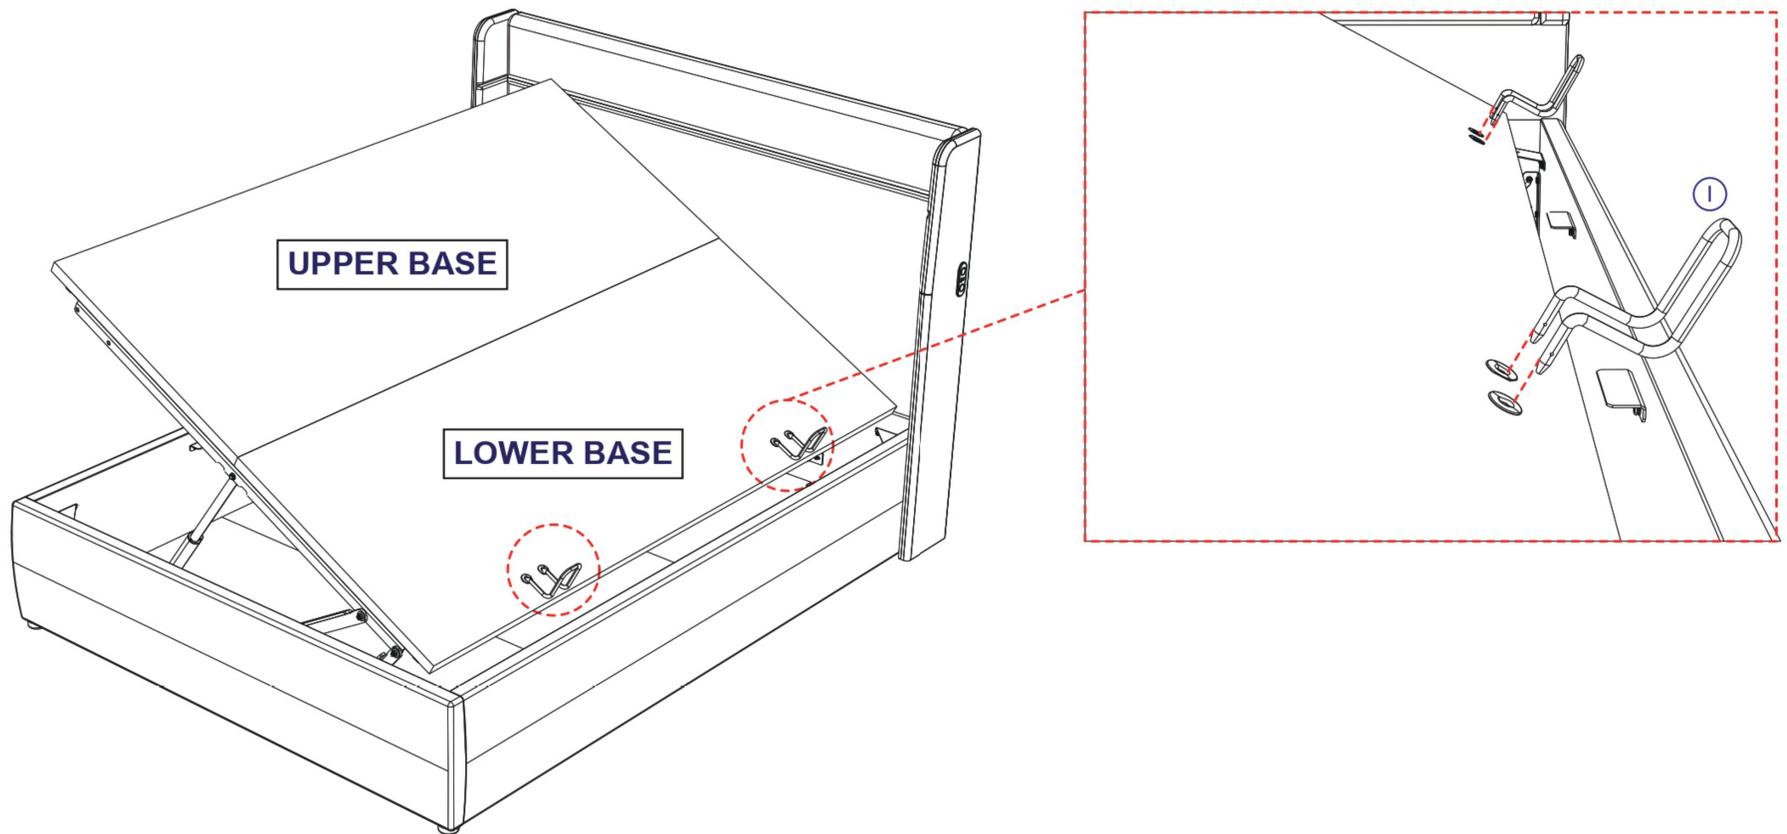

Connecting Plate
(for Da&Db Board) x3

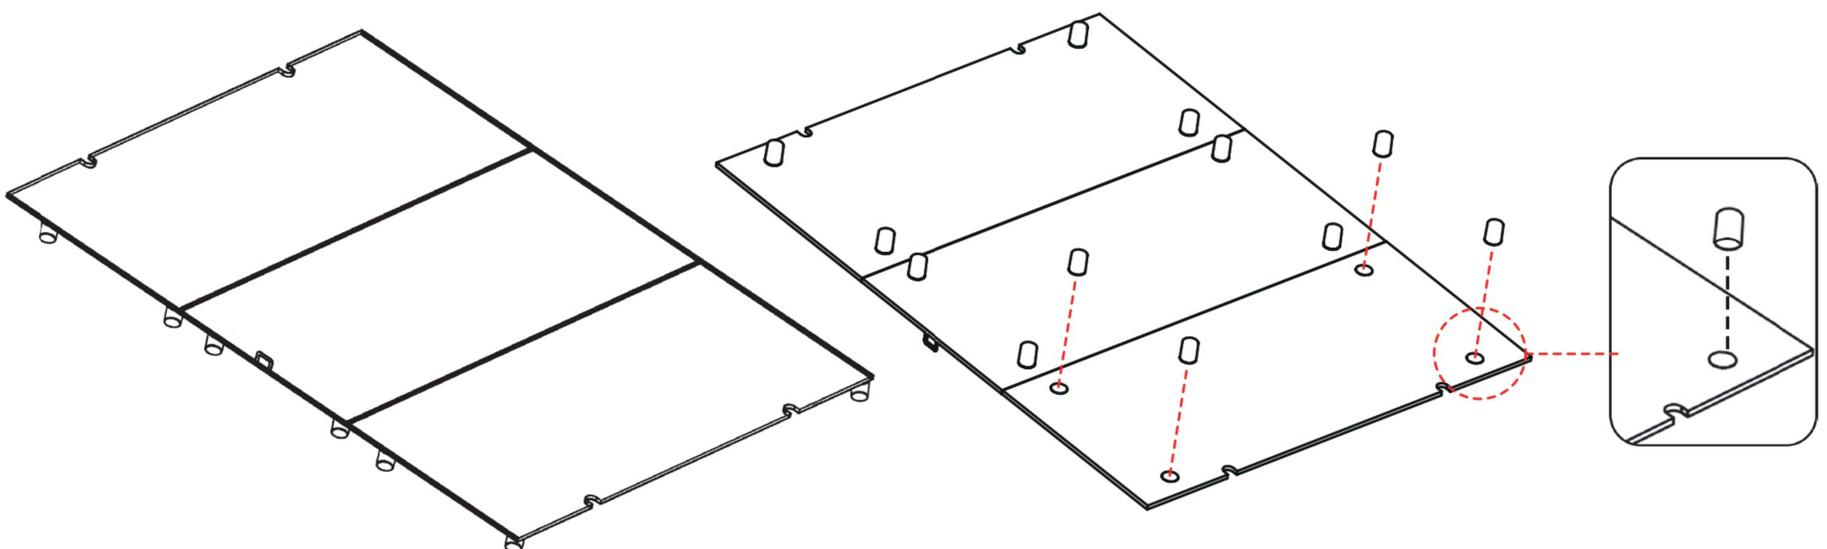

Connect Mattress Base Boards (Da&Db).

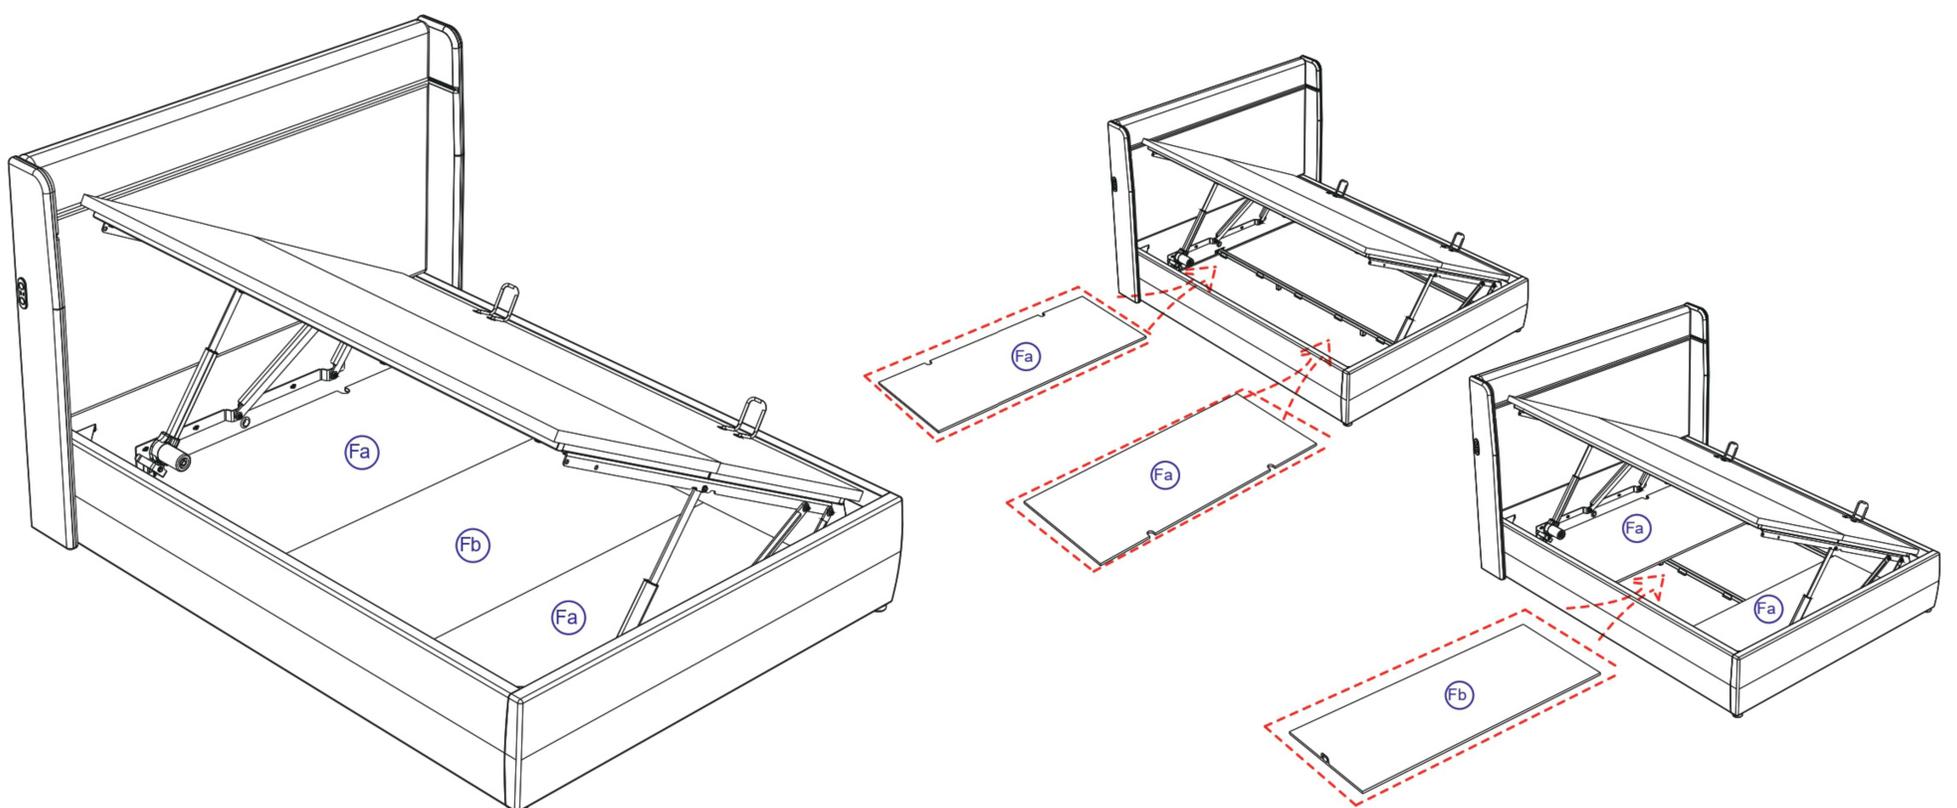

14 Install the retainer bars on the right side (for Left Opening) of the Bed Base.

15 Install the legs on the storage boards.

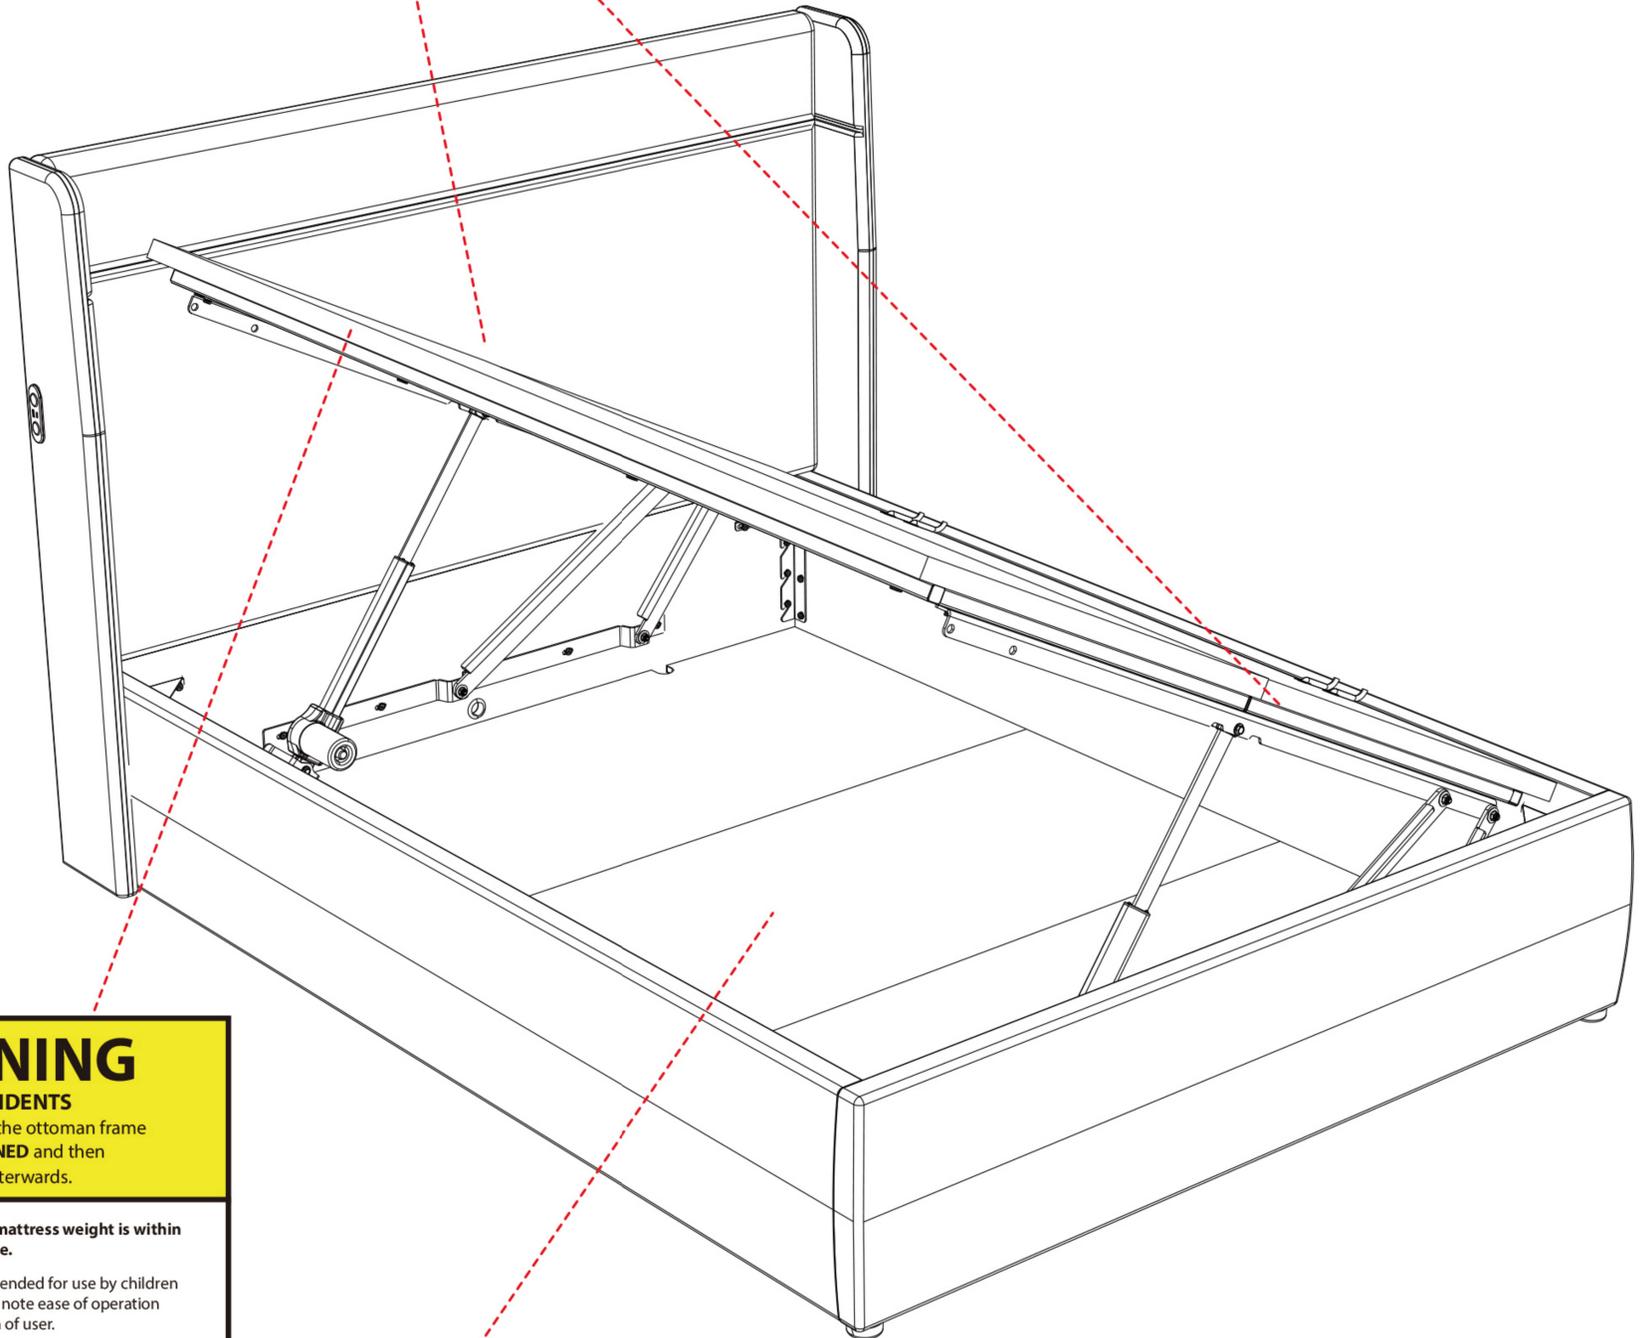

16 Fit the storage base board: Fa boards first (the groove towards to the headboard/footboard), followed by Fb board.

17

Warnings-Mattress Base Boards

⚠ WARNING! HAZARD - DO NOT REACH INTO THE SPACE BELOW!

⚠ WARNING
TO AVOID ACCIDENTS
 To access the storage area, the ottoman frame **MUST BE FULLY OPENED** and then **FULLY CLOSED** afterwards.

Ensure the combine bedding and mattress weight is within the recommended weight guidance.

Adult Operation Only: Not recommended for use by children under the age of 12 years old. Please note ease of operation is dependent on height and strength of user.

Avoid Entrapment: Only unlock the button control when it is safe to do so.

Fully Open Bed: Ensure the bed is fully open before accessing the storage area.

Avoid Hinge Area: Do not reach into the storage area through the hinge mechanism.

Keep Children and Pets Away: Ensure children and pets stay away from the storage area. Do not stand inside the internal storage area of the bed.

Maintenance - Regularly inspect your bed to ensure it is functioning correctly.

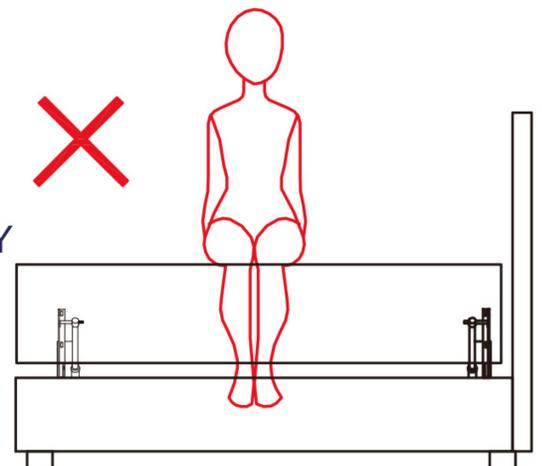

Recommended weight guidance for safe operation:

Bed Size	Min (kg)	Max (kg)
Double	10	100
King	10	100
Super King	15	100

Note: Be very careful what you store under the bed - the top of an item, like a suitcase or a box, must not touch the underside of the mattress base or it may get damaged. Maximum item height is 24 cm.

CAUTION

- TO BE OPERATED BY ADULTS ONLY KEEP CHILDREN OR PETS AWAY FROM THE STORAGE AREA
- DO NOT STAND ON THE INTERNAL STORAGE BASE PANELS
- DO NOT OVERLOAD THE INTERNAL STORAGE AREA
- DO NOT SIT OR LAY ON THE BED WHILST THE LIFT IS IN OPERATION

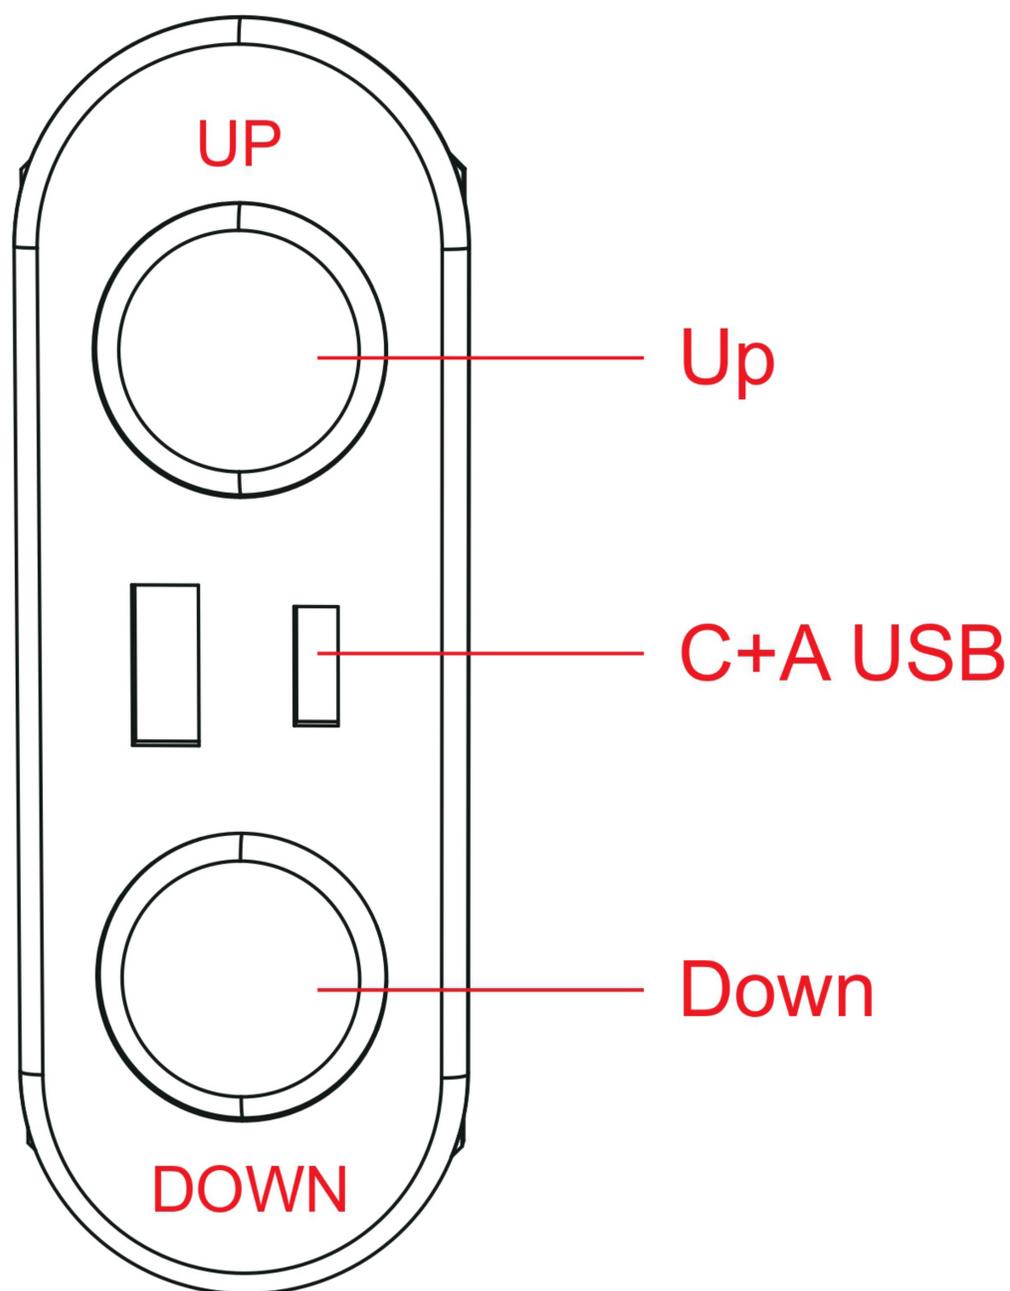

OPERATION GUIDE

For safety, the system is always locked.

On each side of the headboard is a control station with two buttons.

1. Press and hold both the Up and Down buttons for 3 seconds until three beeps confirms the unlock.
2. Press and hold the Up button to raise the bed base board.
Remove your finger and the platform will stop.
3. Press and hold the Down button to lower the bed base board.
Remove your finger and the platform will stop.
4. The bed will automatically lock after 1 minute of inactivity.
To start again repeat the above procedure.

Care and maintenance

Here are some tips to keep your new bed in tip-top condition

Cleaning

To clean your new bed, we'd advise using a warm damp cloth or if fabric, remove dust using a low suction vacuum cleaner.

Please do not use abrasive chemicals or bleach as this may damage the product.

Checking and moving

Periodically we recommend you check that the screws or fixtures haven't become loose over time. To move your new bed, we recommend lifting it where possible, as dragging or pushing it could cause damage to the legs or flooring.

Wood

Please note each of our wooden pieces are unique, meaning that markings and shade can vary slightly between beds. Over a period of time, the wood might lighten or fade slightly due to light exposure.

Fabric

Please note depending on the lighting, positioning and surroundings of your room, the shade of the colour can sometimes appear slightly different. Over a period of time, the colour might lighten or fade slightly due to light exposure.

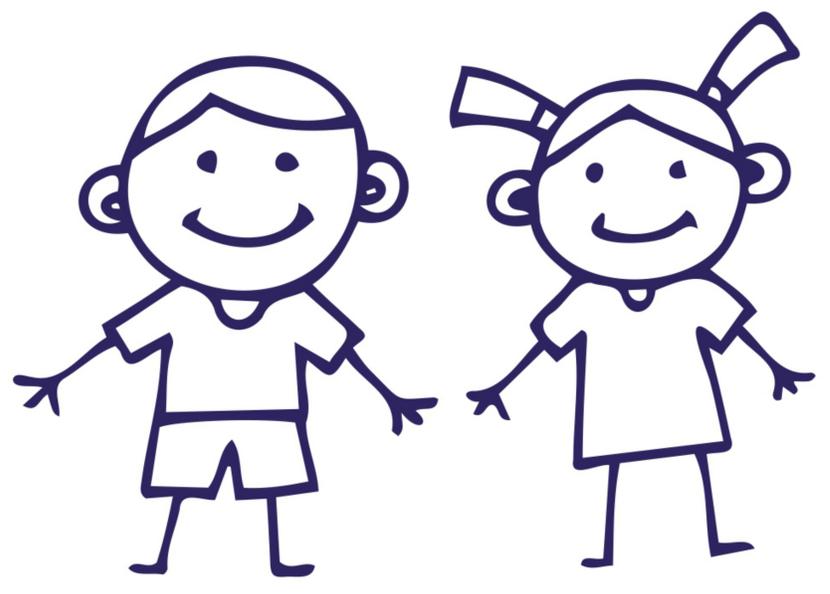

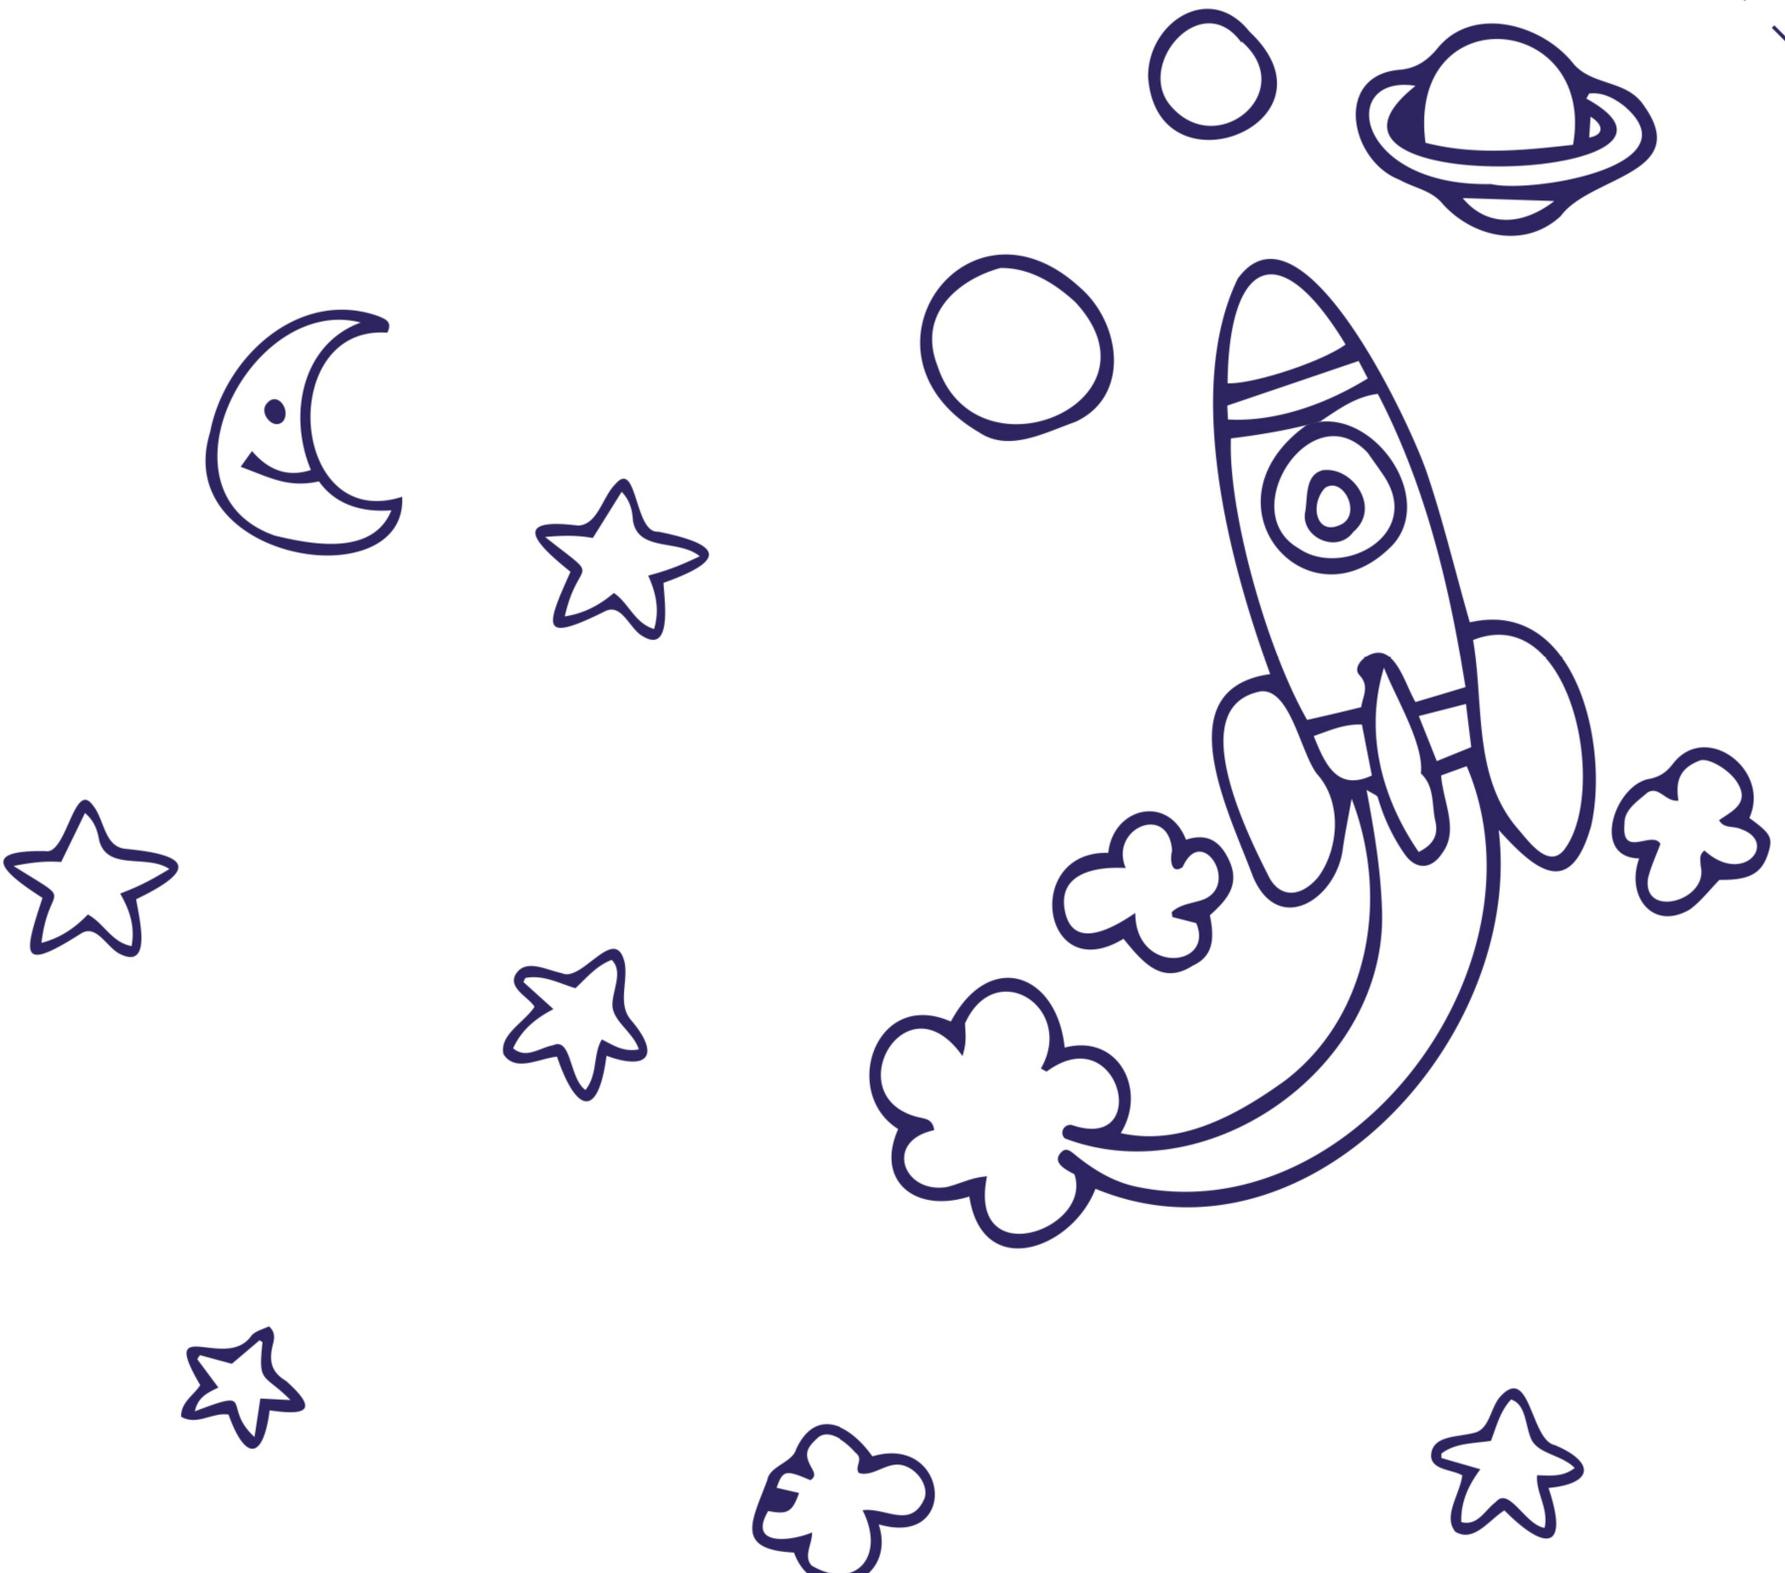

Metal

Metal tends to be more resilient to everyday wear and tear. We recommend to gently dust your metal furniture and keep it dry to maintain its look.

Thank you for shopping with us - we hope you have a great night's sleep.

Sleep well
