PRODUCT
RATINGS

IMPORTANT: USE THIS PRODUCT ONLY AS DESCRIBED IN THESE INSTRUCTIONS.DO NOT MODIFY ANY PARTS OR COMPONENTS.

MOTOR RATINGS
The Sleepmotion base motors are not designed to operate for more than two (2) continuous minutes within an eighteen (18) minute time period. Exceeding this rating will shorten the life of the motors, and will and the warranty.

POWER RATINGS
INPUT: AC 100iz40V-50/60HZ, 1.5 Amp
OUTPUT: DC 29V-2A
FUSE: 1.5A 250V
If a short circuit should occur, switch off and remove the plug from the wall. The customer should seek professional assistance from a qualified electrician. DO NOT open any of the motor components, alter or change any wiring, modify the base, or change the product in any way, as it will void the warranty.

## FCC COMPLIANCE

Operates on 2.4 GHz frequency transmitter
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

To comply with the FCC RF exposure requirements, no change to the antenna or the device is permitted. Any change to the antenna or the device could result in the device exceeding the RF exposure requirement and void users right to operate the device.
